

NORWAY SEIZES RUM SMUGGLERS; GERMANS FIGHT

Special Cable to The Journal and the Chicago Daily News (Copyright, 1922)
Berlin, April 15.—John Barleycorn, who is supposed to have been buried first in the United States and later in Norway, may start trouble between the Scandinavian kingdom and Germany, if reports from the Baltic are true. Swift German motorboats have been smuggling thousands of quarts of distilled and undistilled liquor into Norway, where there is a ban on all "hard" booze. There were so many violations of the dry law that the government decided to use its revenue cutters, blockade the Norwegian coast and prevent the smugglers from carrying on their traffic.

The revenue cutter Bell has been on duty of this kind only a week, but in that time has had several encounters in which German smuggling boats have been damaged seriously. The German cutter Blits (lightning), with several thousand quarts of hard liquor on board, was sighted by the Bell last Thursday night. When hailed by the Norwegian boat the Blits refused to stop her engines, and attempted flight. However, she couldn't get away, and finally, after the Bell had fired several shots at her, she stopped. One of the shells exploded in the hold of the Blits and smashed several thousand bottles of liquor. When the Norwegian crew boarded her the Germans put up a fight, but lost, because the Norwegians were better armed. The captain of the crew of the Blits was arrested and taken into a Norwegian harbor.

Some hours later the Norwegian steamship Sivt was overhauled by the Bell and captured. She had 50,000 quarts of German liquor on board. German newspapers and the public are greatly excited, and even talk of war.

Little Hope Seen For Settlement of Warfare in Greece

Special Cable to The Journal and the Chicago Daily News (Copyright, 1922)
Constantinople, April 15.—The allied answer to the Nationalist counter-proposals was received in Ankara Saturday and caused considerable stir. The document was examined at once by the cabinet and the National assembly was called to consider. Though the official Nationalist reply will not be known until Wednesday reports indicate that the Ankara government considers the conditions unacceptable. Peace negotiations between the Greeks and the Nationalists are always hampered by the utter distrust which the Nationalists feel with regard to the Allies. Members of the National assembly say that the present negotiations are nothing but an attempt on the part of Britain to trick the Nationalists, weaken their military position and leave them at the mercy of the Greeks. When Mussuf Kemal returned from Paris he said: "Turkey consented to discuss peace because of the insistence of France, but she does not believe that any other settlement of the Near Eastern question than by arms is possible."

Anatolian government reports received here indicate a general belief that the reply of the National assembly to the allies will be in the negative and that a resumption of hostilities is inevitable.

Harding Will Be Asked to Support Reclamation Bill

Washington, April 15.—(WASHINGTON BUREAU OF THE JOURNAL.)—Senator McNary and Representative Smith, Idaho, joint authors of the McNary-Smith reclamation bill, will head a delegation of Western senators and representatives to call on President Harding Wednesday morning to discuss the legislative situation with reference to that measure. The bill has been reported in both houses, in the senate it is in danger of being caught in a jam following the uncertain date of the passage of the tariff bill, and in the house there is doubt as to the attitude of the representative clearing committee, which governs the program of business in that body. On Wednesday the Westerners will tell the president that his influence is needed to persuade house leaders to take an active interest in the bill. The president has several times declared for reclamation legislation and has assured Western members it is part of his program for the present session.

London Club Dodges Barber, Saves Coin

London, March 15.—(By Mail to United Press.)—A beard on the chin keeps the shaving money in. That's the new slogan of the latest London freak society, the Hirsute Half Hundred. That is to say, they call themselves the Hirsute Half Hundred. The rest of London calls them simply Moss Growers. Barbers are contemptuous in regard to these gentlemen who have disregarded conventions and adopted the latest in streamlines beards. But the hairy ones laugh and say: "Aha, but think, a shave each day costs a dime. We save 36 times a year. Now go ahead and laugh at us."

Commenting on the wallpaper incident, the judge said: "I sympathize with him. I think a violent clash of colors. I do not think that is the letter of a man whose mind is unbalanced. I rather regard it as proof of sanity."

For Thin Waists and Sleeveless Gowns
(Toilet Tips)
A safe certain method for ridding the skin of ugly, hairy growths is as follows: Mix a paste with some powdered detolone and water, apply to hairy surface about 2 minutes, then rub off, wash the skin and the hairs are gone. This is entirely harmless and seldom requires repeating, but to avoid disappointment it is advisable to see that you get genuine detolone. Mix fresh as wanted.
