welfare bureau made by County Comthe City club and presented to that organization at its Friday meeting.

Speaking of the amount of money di-"We find that insofar as county relief funds are concerned the criticism i of the funds contributed by the county may be applied to the overhead expense may be applied to the overnead expense of the bureau, or expense incurred in the disbursement of county relief funds. All maintenance expense of the bureau is therefore paid from funds appropriated by the Community Chest." ARBANGEMENT FAVORED

The committee finds that the bureau's administration of county funds is a "capital arrangement" and recommends It also states that onus rests upon the county as much as upon the bureau if the checks on county relief funds are in-

The committee finds that of each dollar administered by the bureau last year 74 cents went for direct relief, 15 cents for indirect, or service relief, and 11 cents for overhead.

"A further result from the analysis," the committee states, "is that \$119,789.31 was applied to direct relief, indirect relief and overhead."

Other sentences from the report are: "The committee finds that relief is not granted without proper investigation.

During the period in which relief is granted, repeated personal investigation is made to ascertain if the relief is being used properly and the giving of relief is discontinued as soon as the situation will warrant." situation will warrant."

FAMILIES INCREASE "The record of the bureau shows that

"The record of the bureau shows that the average expenditure per family materially decreased rather than increased during the past year.

"While the average disbursement of relief per family has quite materially decreased (\$10.27 a month on the average), the number of families given relief has greatly increased and this in view of the committee accounts primarily for the marked increase in annual disbursements for relief."

"The committee finds that reasonable safeguards are being used by the bureau for preventing the giving of un-necessary or unwarranted relief. Before relief is extended to any family a per-sonal investigation of such family is made by a representative of the bureau. The committee finds that the system of is both rigid and comprehensive and should reduce the possibility of giving undeserved relief to a minimum. In spite of these regulations and precautions it is possible that relief has in some cases been granted to families undeserving of charity." NOMINATIONS MADE

The committee which investigated the public welfare bureau for the City club consists of Julius R. Black, Haroid S. Smoth, Wilson D. Wallis and C. L. Whealdon, chairman.

Nominations for City club officers and governors were made at the club's Friday meeting. The annual electio will be held next Friday, May 5. will be held next Friday, May 5.

Eatonville Not to

Eatonville. Wash., April 29.—The weather man was extremely unkind Friday and as a result Eatonville's annual Community day was an indoor event, but that did not detract from the general purpose even though the field sports were omitted. The regular school work was viewed in the forenoon. Dinner was served at noon to hundreds of visitors. The committees had anticipated a wet day so had prepared everything accordingly. While the youngsters were being fed in the bassment of the high school building the visitors and patrous were accommodated in the gymnasium, where all that the countryside could produce was spread before them. The program, except the field sports, was not curtailled. The radio had been installed and was used in the afternoon and evening.

Vancouver, Wash. April 22.—Legal removal of the old library board by the action of four councilmen and the mayor virtually ends the case, in the cpinion of City Attorney Bates, unless if. W. Arnold, attorney for M. L. Hidden, deposed chairman of the board, raises the question of insufficient grounds for removal.

The controversy started over the action of the library board in serving notice on the G. A. R. and Woman's Relief corps to vacate the room in the library basement. The reason given for the order was that the room was needed for library purposes but, in the heated discussion before the council, Hidden asserted that the G. A. R. and Relief corps were using the room for cooking and the odor of cabbage and kraut penetrated to the room above, a condition not telerated in any other library. The two or ganizations furnished the room and have occupied it for several years with little opposition.

Bitter feeling has been ground and the expressions "intimidation" and "mobrule" have been used greely, but no fault is found with the new board, composed on M. M. Connors and Mrs. A. A. Pompe, reappointed, H. D. Warren, A. E. Clark and Mrs. Nellie Bozarth, new members.

Order Cutting Gas Rates in Astoria

Salem, April 29.-The public service filed by the Pacific Power & Light company of Astoria in the circuit court of Clatsop county, asking that the recent order of the commission reducing gas rates to patrons of the company approximately 15 per cent be set aside.

The order is attacked by the company as unjust and unreasonable. The principal point of attack is on the valuation of \$448,000 for the company's property as found by the commission, which the company contends, should be \$525,006. The commission refused to give the company credit for improvements to the Astoria plant, characterized as over development and not an item of expense which should be saddled upon the present consumers. pany of Astoria in the circuit court of is suggested for the summer silk suit.
