"We know Valentino is in town," said Deputy District Attorney McClelland, "and are prepared to take proper action." Since their wedding, Valentino and his young bride, who is the daughter of a wealthy New York perfumer, have been stopping at Palm Springs on their honeymoon, but hurried back to Los Angeles' upon hearing there was some question as to their union.

Simultaneously, Douglas Gerrad, for-mer director of Valentino and an eye witness to the wedding, arrived in Los Angeles and told the authentic details of the ceremony. According to Gerrad, Valentino arrived in Mexicali last Thursday with a letter of introduction local Mexican consul to the mayor of Mexicali and that it took two days to clear up legal and technical

He said Valentino had also received assurance from a deputy sheriff on the American side of the border that such a marriage would be legal "in Texas or Arizona."

Little Prospect of Columbia Flood Is Seen in The Dalles

The Dalles, May 17 .- With the mercury standing at 93 above yesterday afternoon at 4 o'clock, the Columbia river was still rising in its annual spring climb. The official stage of 16.6 feet, reported at 8 o'clock in the morning, was surpassed at 6 o'clock last night, with a reading of nearly 17.3 feet. This is far below the corresponding high water mark of this date last year, when the river was above 30 feet.

The old time river observers here pro-fess to see little cause for alarm this year from high water, declaring that the freshet's start is too late and that the dry spring weather has resulted in absorption of much water which ordinarily would go down the Columbia.

Ordinance Will Be Changed to Allow Tuberculosis Home

Acting at the request of Dr. A. E. Rockey, chairman of the Chamber of Commerce committee on location of veterans' hospital in Portland, the city council today instructed City Attorney Frank Grant to prepare an amendment to the building ordinance which prohibits the maintenance of a tuberculosis hospital in the city.

In a letter to the council Dr. Rockey said it would be impossible to successfully carry on the campaign to have a veteran's hospital located in Portland as long as the present ordinance exists.

No Car Is Quite Itself without a Concrete Road

What makes a "crack" train? The roadbed as much as the rolling stock.

So with your automobile. Any car is a better car on a good road.

The car with the highest gas mileage has a higher mileage on Concrete. The car with the quickest "pick-up" picks up

quicker on firm, unyielding Concrete. The best non-skid tire holds better on the gritty Concrete surface.

The car with the lowest depreciation has a lower depreciation on Concrete.

Motorists know these are facts-and motorists, if they insist, can get the kind of roads they want.
