

# OREGON WILL PAY HONOR TO LEADER OF JERSEY BREED

Lad's Iota, Queen of All Her Ancestry, Produces More Than Her Weight in Butter.

By R. C. Stewart  
The honor will be paid to Lad's Iota, queen of the Jersey breed, when the fourth Oregon Jersey Jubilee is held on May 25, 26 and 27. This remarkable cow which was brought the championship of the breed for butterfat production back to this state, where it was once held by Vive La France, has the distinction of having produced considerably more than her weight in butterfat during a year's time.

Her weight is estimated at less than 1000 pounds and she produced 1084 pounds of butterfat in a test of one year, which figured in terms of butter, would be more than 1200 pounds, surely enough to spread several slices of bread.

The banquet to be held by Jersey breeders at Albany on the evening of May 24, when the Fourth Jersey Jubilee is started under way, will be presided over by U. N. McArthur as toastmaster, according to an announcement just made by officials in charge of the event.

Dr. W. J. Kerr, president of the Oregon Agricultural college, has promised to be the chief speaker of the evening. The program will include many entertaining features, including selections by the O. A. C. Glee club.

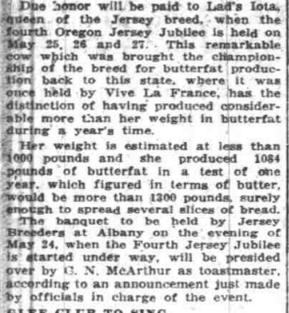

The owner of the world's record butterfat producing Jersey cow will attend the banquet, as also will at least four other owners of world's record class leaders. This is said to be the first time in history when such a large number of world's record cow owners will be together.

Oregon Jersey cows now hold 87 1/2 per cent of the world's records of the breed, as well as several records over all breeds, although this state has but about 2 per cent of the purebred Jerseys of the country. To fittingly celebrate the wonderful records held here, the Jubilee this year will far surpass anything held heretofore.

On Thursday morning following the banquet, the Albany Chamber of Commerce will furnish automobiles for those who are not driving their own cars and a tour of leading Linn county Jersey herds will be made, starting at the farm of Henry Stewart, going from there to the J. C. Brown & Son's place, then to Sheld, where the calf clubs will give a demonstration, and to Ashburn Farm, where a luncheon will be spread for 500.

WILL VISIT HERDS  
In the afternoon the S. B. Holt, the Pickard Bros., home of two world's record cows, and Meadow View herds will be visited, with the day's tour ending at Salem. On Friday Polk county herds will be visited and lunch will be spread at the Sam McKee farm, where an opportunity to see three of the world's record cows, including the queen of the breed, will be had.

On Saturday Yamhill, Washington and Western Clackamas county herds will be visited, with the tour ending at the Iron Mine Farm herd, near Oswego, owned by W. M. Ladd, of Portland.

Little Miss Agnes Peters

Miss Agnes Peters is one of the talented little dancers to be presented by Miss Dorothy Lyon at the Lincoln high school, May 27, at 8:15 o'clock, when many beautiful and artistic dances have been arranged. Seventeen numbers will be given all of which have been originated and composed by Miss Lyon. One of the features of the revue will be a

specular toe ballet composed of 13 of Miss Lyon's most talented pupils. The program will open with a demonstration of dancing, to be followed by special numbers in character, interpretation and dancing. The costumes will be very elaborate and the event promises to be one of the most beautiful dance revues of the season.

prospectus will be sent those interested, the directors state, upon application to the Pasadena Community Playhouse. The course opens June 26, and closes August 4.

Envelope Curiously Stamped Worth Much  
Denver, Colo., May 20.—(United Press)—Back in 1886, August Lutteken, curio collector, came across an envelope which had been mailed in 1859. Today, Lutteken, who lives in Denver, values the envelope at \$12,500. There are no postage stamps on the envelope—only what were known as postmasters' stamps, requiring payment of 5 cents overseas postage and the collection of 5 cents postage from the addressee on delivery. In Lutteken's collection are 650,000 stamps.

Tractor Is Turned To Prairie Schooner  
Colorado Springs, Colo., May 20.—(I. N. S.)—Echoes of early frontier days were awakened here when an auto tractor, carrying a superstructure resembling a "prairie schooner," arrived in "Little Lannon" from the Ozark mountains of Arkansas. George Marsh, F. Wilson and H. S. Odell, en route to a farm in the San Luis valley of Southern Colorado, built themselves an "ark" atop the tractor, stocked it with poultry and livestock sufficient to keep them in fresh eggs and milk, and traveled overland to the Rockies.

The monument erected to former President James Garfield.

Not alone in America—but throughout the civilized world, people erect tombs when they wish to honor some national figure who has stepped behind eternity's veil. They do so because VAULT ENTOMBMENT extends the cleanly, protected sleep which is due our loved ones and symbolizes the highest respect.

There is not and never can be anything beautiful or hallowed about earth burial. The thought of it is repugnant to thinking people because IT IS WRONG in principle. For this reason it must give place to the better ways—Vault Entombment or Cremation.

British Railways Use New Luggage Plan  
Washington, May 20.—(U. S.)—American tourists in England this summer will not have to worry, as in the past, about seeing that their luggage gets aboard their train or to their hotels or lodgings. The London & Southwestern railway, which handles the bulk of the travel between the transatlantic liners' ports to London, has inaugurated the baggage checking system, similar to that of American railways, checking not only between stations, but direct from ship to hotel. This system will minimize the discomfort of English rail travel. Commercial Attache Walter S. Tower reports from London to the department of commerce.

Tax on Luxury Dogs Will Reduce Number  
Berlin, May 20.—A thousand mark tax, to be imposed upon so-called "luxury dogs," is the latest decision of the Berlin city council. Russian greyhounds, very popular with actresses and film stars, lap dogs of the King Charles variety, poodles, Belgian griffon and the ubiquitous Dachshund, which is the inevitable accessory of every well-ordered German home, are classified. Several thousand of these canine pets could be spared from Berlin streets without visibly reducing the supply of dogs, and the new tax is expected to result in large accessions to the population of the dog heaven.

George Brown, believed to have been a "fence" for Fred Weaver, the "five o'clock burglar," was found guilty of receiving stolen property by a jury in Circuit Judge Skilworth's department, which returned its verdict Wednesday night. Sentence will be passed Monday morning at 10 o'clock.

Tax on Luxury Dogs Will Reduce Number  
Berlin, May 20.—A thousand mark tax, to be imposed upon so-called "luxury dogs," is the latest decision of the Berlin city council. Russian greyhounds, very popular with actresses and film stars, lap dogs of the King Charles variety, poodles, Belgian griffon and the ubiquitous Dachshund, which is the inevitable accessory of every well-ordered German home, are classified. Several thousand of these canine pets could be spared from Berlin streets without visibly reducing the supply of dogs, and the new tax is expected to result in large accessions to the population of the dog heaven.

In Again; Out Again Navy Brig Diet Does Not Appeal to 'Gob'  
Chicago, May 20.—(I. N. S.)—David Wolman liked the navy so well that he even consented to pose as a deserter to get back in it after being honorably discharged back in May, 1921. Dave is still in the navy—with reservations.
