WHY suffer all the pain and discomfort which you usually do when you have your dental work done?
It is Unnecessary
It is not a boast, but a fact, that Dr. Stevenson, through his efforts to make dental work for the patient, has developed a new anesthesia which makes dental work of all kinds so easy that you will wonder why you ever DID dread it.
It is a source of satisfaction to both dentist and patient to have their teeth filled and other work - without pain or discomfort.
