

# CLOTURE RULES HELD UNLIKELY ON TARIFF BILL

**By David Lawrence**  
(Copyright, 1922, by The Journal)  
Washington, May 26.—Talk of applying a cloture rule in the senate to shut off tariff debate and compel an early vote will not get very far. There is so much to be done yet in the tariff bill, so many hundreds of amendments to discuss and consider seriously, that except for a general mood of influence which might result from a threat of cloture, the progress of the tariff bill will hardly be affected.

The tariff situation is troublesome to everybody. On the Republican side there is no insurgency, so to speak, for the farm bloc got what it wanted in the way of tariff duties early in the game, but considerable doubt is felt and indeed expressed by Republicans as to whether it would be a wise thing to pass a permanent tariff bill at a time when international legislation is disturbed and costs of production are subject to such wide fluctuations due to conditions originating with the late war.

**EXPECT BILL'S PASSAGE**  
But the problem has gone far beyond the stage of drafting a temporary tariff bill to bridge over the emergency of the next two or three years. The Republicans must decide whether they will pass this measure or not. At the time for a vote comes the doubting ones will probably fall in with the wishes of the party leaders and the measure will be passed.

More than two thousand amendments await action by the senate. The senate has been talking a tariff for more than a month and has hardly gotten through with a third of the amendments. The 2000 more will take longer than those which have been considered, as relatively unimportant items have hitherto been taken up and the major parts of the bill remain. There is no telling how long the important items will take and the Republicans themselves will not wish to gloss over them too hurriedly.

**OTHER MATTERS PENDING**  
Even assuming that the tariff and the bonus are disposed of, some vital questions are bound to arise and consume time in connection with the army and navy appropriation bills. The house voted the army bill to consist of 133,000 men. Many members of the senate want to cut it to 115,000. In the house after a bitter fight the administration succeeded in keeping the strength of the navy at 88,000 men instead of 67,000 as the house naval committee reported.

**Public Real Film Censor, Declares Director Will Hays**  
Pittsburg, Pa., May 26.—(U. P.)—“Prosperity is right ahead of us and it is time to go out and meet it.” Will Hays, president of the Motion Picture Producers and Distributors of America, declared today, addressing an audience at Carnegie institute here. “Let us lay bricks, not throw them,” he said.

**Historic Pageant of Days of '49 Proves Event in California**  
Sacramento, Cal., May 26.—(I. N. S.)—Linking the historic past with the present today was enacted in perhaps the most stirring pageant of the whole week's colorful celebration of the “Days of '49.”

Each community of Northern California which played a part in the historic days commemorated by the celebration today reenacted that part for the instruction of the younger generation. The visualization of the “Days of Old, the Day of Gold,” was carried out in remarkable sincerity. The spectacle required three hours to pass a given point. Automobiles were barred, lest their modern stamp would rob the event of its realism.

**Anti-Narcotic Bill Signed by President**  
Washington, May 26.—(I. N. S.)—President Harding today signed the bill which strikes a death blow at the illicit traffic in opium and narcotics by effectively barring the importation and transportation of drugs in the United States except for medicinal purposes. A commission of cabinet officials is set up under the law to administer the provisions of the new legislation.

**Rome Socialists to End Strike Tonight**  
Rome, May 26.—(I. N. S.)—The general strike called by Socialists following a clash with Fascists will end tonight, an agreement having been reached.

**Pope Pius Wants Aid To Russians Kept Up**  
Rome, May 26.—(I. N. S.)—Pope Pius XI has sent an appeal to President Harding asking that American relief in Russia be continued. It was learned today.
