Despite the recent spell of strength for butter at California points, the South is not taking anything but the cheapest offerings from this territory. While it appears willing to take the better grades, the price it is affering, 35 ½ @ 35 ½ c, is below what sellers here say they can afford to sell centralized extras and pay the prevailing extreme for butterfat.

Output of butter continues to gain liberally in this territory, although some falling in this territory, although some falling in interior production may be expected any time because of the extreme bot ther which is drying up the grass in that There has been more effort made recently

From Muroran in ballast, the Japan-ese steamship Aden Maru arrived up yesterday afternoon and is lining at the Peninsula mills for bulk wheat for the United Kingdom. She is under charter to Kerr, Gifford & Co. The Aden Maru is the only full cargo packet in port to load grain. The Japanese steamship Hokkoh Maru is loading lumber at Westport. The en route list for grain shows 13 vessels for both old and new crop loading. The major portion of the tonnage is for old crop wheat and charters from now on will figure with the exports beginning in August. The big cleanup will come during the present month, the last of the cereal year, and the close of the first half of the calendar year.

Japanese tonnage shows first on the tonnage list en route, eight of the craft flying the flag of Nippon being listed. Three British and two Norwegians are booked for full cargoes. Bookings of wheat and flour on the regular berth liners are heavy and June will show up with a high average of foreign exports of both wheat
