

**WELL.** Ma remarked, with vindictive satisfaction, "I see where that board of health's going to do something that ought to be done a long time ago."

"My Lord," T. Paer said uneasily. "Have them fellows found some place else we ain't sanitary enough to suit em?"

"They have," Ma answered, "and I think it's about time they done it, at that."

"What're they goin' to do now?" T. Paer quizzed, "make everybody have themselves manured oftener every Saturday night?"

"I don't know as it'd do any harm if they did," Ma retorted. "Some people wouldn't go 'round with claws like a budger wearing out their socks faster'n they could be darned."

"You don't have to darn 'em so much," T. Paer advised her. "They wouldn't feel so buncy 'nd would be cooler on a fellah's feet."

"Humph," Ma sniffed. "Next thing I know you'll be hiding 'em 'nd not wearing any at all."

"What if I did," T. Paer said argumentatively, "you wouldn't have 'em to wash them, would you?"

"It's too bad," Ma told him ironically. "You ain't living on a cannibal island where you wouldn't have to wear socks or anything."

"I don't think I'd like it," T. Paer grinned reminiscently. "My back sunburns too easy."

"It wouldn't be you that you want to be civilized," Ma sniffed, "that's a cinch."

"You ain't gettin' nowhere with that argument," T. Paer suggested. "What's them board of health fellows cooked up this time?"

"They ain't going to let them car porters use whisk brooms no more," Ma informed him. "They ain't healthy at all."

"I'll say not," T. Paer agreed. "It always gives me a pain in my pocket-book every time I see one waving in the air."

"This is just it," Ma continued. "They stir up all kinds of dust 'nd ferns when they use 'em."

"I don't know about the ferns," T. Paer said thoughtfully, "but they stir 'em up every time."

"I ain't objecting to the brushing, mind you," Ma stated, "but it's their flippin' everybod's bugs all over me I don't think's right."

"It ain't their flippin' bugs over me that I kick about," T. Paer responded, "but it's their flippin' me all over that gets me blind."

"It don't hurt you to be brushed once in a while," Ma replied, "that ain't the objection."

"I wouldn't mind bein' brushed," T. Paer assured her, "but the blamed

**CHAPTER XXVII**  
(Copyright, 1922, by Star Company)

AS THE weeks passed, Adelaide regarded often the question she had not dared to brood upon the night when the son and daughter of the house returned from what Richard had termed "some wild party."

For now that Patricia had less responsibility for the care of her mother, she seemed to shake herself free of all restraints that her parents would put upon her. She told to Adelaide to make up for all daughterly deficiencies.

For Mrs. Hollingshead was not gaining in strength. Once Adelaide suggested to Mr. Hollingshead that a trained nurse might do better for the invalid than she could. The husband's rejection of the idea was so emphatic that "Nobody could do more than you do," he insisted. "In this Dr. Carter agrees with me. He says you keep my wife more placid than she has been since she became blind. The disease cannot be cured; excitement would make it worse. Moreover, increased nervousness would mean increased mental disorder. Hannah dreads having a trained nurse."

"By the way, Dr. Carter spoke of your going out regularly. I have mentioned this to Patricia; he will arrange that you get specified times off."

But Patricia made no such arrangement. In spite of this, Adelaide had asked one day for a few hours in which to go to see her mother. Mrs. Brown had been to the infirmary that morning to have her eyes examined again. The daughter was eager to know what the doctor had said.

"They had told the patient just what they had told her on her last visit, the mother explained to Adelaide that afternoon. There must be a still longer period of waiting."

Such being the case, Adelaide Brown must keep her present position. The money she was earning would be needed.

**IN NEED OF CARE**

One night the attendant was forced to try a desperate experiment. Mr. Hollingshead was in Boston on business, a fact that depressed the invalid.

"I hope you are not going out tonight, Patty," she said tremulously to her daughter. "I worry about you when you and your father are both away."

"Why?" the girl began. But her brother checked her by a look.

"You are going to read, then go to bed, aren't you, Patty?" he said.

"Yes," Patricia murmured, sullenly.

**Trustee of Bank Funds Charged With Negligence**

Klamath Falls, June 8.—Charges of negligence in connection with handling funds as trustee of the defunct First State and Savings bank of this city were filed here Wednesday by Frank C. Bramwell, state bank examiner, against John Siemens Jr., as trustee of funds totaling \$14,000.

Bramwell charges that Siemens' appointment as trustee was irregular and asks his removal by the circuit court and appointment of a successor.

## 5 PONY EXPRESS RIDERS ALL SET FOR WORD TO GO BONUS IS REPORTED, WRANGLE IS BEGUN

The Dalles, June 8.—Five noracemen will depart from The Dalles this afternoon for Canyon City, bearing pouches of dispatches, "just as they used to" in the days when there were no railroads and no telegraph; when the only road was a trail and the only transportation overland between these two points was by horseback.

The equestrian mercuries, however, will be playing for higher stakes than the boys of '63 did. A buckskin "poke" containing \$750 worth of gold dust and \$250 in gold are the prizes at stake in the first pony-express race ever held in the Northwest, an event which is being watched with intense interest all over Eastern Oregon.

The pistol will crack at 4 o'clock this afternoon at the line in the business district of The Dalles, and Earl Crosby of Canyon City will start his breakaway clip for the first relay point, Sherar's bridge. He will be followed 15 minutes later by Jack McCarty, and in succession by Bert Price of Dayville, Kenneth Wolfe, Indian of Siamasho, and A. H. Mose of Durum.

All of the riders were here Wednesday night, excepting the Indian, who was out on the line placing his horses, and was last heard from about noon at Antelope and said to be headed for The Dalles.

The starting of the race to Canyon City will be made a gala event here, with a band and other features. Many will go from here to Sherar's bridge to see the finish of the first relay, and several automobiles will carry spectators to Canyon City, leaving here after the last contestant has departed, and driving all night in order to be at the scene of the finish before the winner comes in.

In discussing the application of the foreign debt to the bonus, McCumber expressed the hope that the World War debt commission would make such progress toward refunding the demand obligations of foreign countries into long term obligations as to secure the later "in the very near future" and render it possible for the foreign governments "to provide for the immediate payment of interest thereon," so that such interest "can be used toward defraying the expenses" of the bonus.

The unformed men, after reaching Broadway and Burnside street, will take special cars for the trip to the hospital site. At 3 o'clock, Jack Tetu, 7-year-old son of A. L. Tetu, and mascot of Al Kader patrol, will raise the flag, while the bands and chanters of Al Kader and Hella temples join in "The Star Spangled Banner."

Following will be an invocation by the Right Rev. Noble Keator, and then Potentate Tetu will tender the hospital site to the board of hospital trustees. Acceptance of the site will be made by Mayor Baker. This will be followed by remarks from Kendrick and a benediction by the Rev. Noble H. D. Chambers.

**ALSO CHAIRMAN OF BOARD**

Kendrick will make his remarks also as chairman of the board of trustees of the Portland unit of the Shriner's hospital for crippled children, this position having been conferred upon him when the Portland site was approved by the national board.

All of the members of the Kendrick party will be made honorary members of the Royal Rosarians at a ceremony

**MAKE CHARGES**

Organizers for the Industrial Workers of the World are being allowed access to boats in the harbor for the purpose of recruiting members among the sailors, states a letter sent today to the Longshoremen's union by H. Gullaksen, agent of the Sailors' union here.

Gullaksen says two organizers for the Marine Transport Workers, which is a branch of the I. W. W., were permitted to come aboard the Daisy Putnam June 2. These two organizers approached the sailors and promised them jobs as longshoremen if they would join the Industrial Workers of the World, telling them about hiring of longshoremen was to be done through the I. W. W. hall, Gullaksen asserts in his letter.

Gullaksen points out it would be impossible for the organizers to come aboard without the knowledge of longshoremen at the Couch street dock, where the Daisy Putnam was tied up. Sailors were approached today with the same proposition, according to the letter.

Shirley Buck of the United States forest service wondered how much more education would be made available to the children of Portland if the school buildings were the personal property of the school directors.

"If the schools were owned by the school board, the directors would find ways of furnishing as much to the children as they are getting now at less expenditure," he averred. "Some things should not be eliminated and some should. Teachers are supervised to death. I think the swimming tanks are fine, but they should not be maintained at the expense of the taxpayers. Sewing and manual training I consider essential."

In his statement Buck was referring to some of the special subjects eliminated because of shortage in school funds.

Mrs. R. E. Bondurant of the Sunnyside district was doubtful about the bonds, but she felt that the city is sadly in need of new school buildings, she submitted. "The old ones are greatly in need of repairing and the extra-tax levy is a necessity. But whether we ought to vote the bonds at the present time is doubtful. Three million dollars is a great deal of money."
