

BRIDGE SOUTH OF HAWTHORNE TO BE URGED AT MEETING

Representatives of Seven Community Clubs Will Gather in Council Chamber Wednesday

Thirty-five citizens, representing seven improvement clubs or community organizations in the district south of Hawthorne avenue, are to meet in the council chamber at the city hall at 8 o'clock Wednesday night to plan for a comprehensive campaign to interest the citizens of Portland generally in a campaign for construction of a new bridge across the Willamette river south of Hawthorne avenue. This meeting will be open to the public and it is expected many others besides the members of the executive committee will be in attendance.

At this meeting officers of the executive committee will be selected and plans for the preliminary work to be done by the general campaign are to be discussed. It is expected that a special committee will be selected to determine whether one or two bridges shall be asked for, and the location of location determined. This is considered of primary importance and on each delegation from the various clubs the necessity for unity of action on this time has been impressed.

AS TRAFFIC NECESSITY

The movement, after the site has been selected on a basis of serving the greatest number of people, probably will be directed toward settling forth the necessity of a new bridge south of Hawthorne avenue as a traffic proposition, and thus of direct interest to the entire city.

Proponents of the new bridge project point out that it has been ten years since any new bridge was built, and that meanwhile the automobile traffic of the city's streets using the bridges daily has increased to such proportions. It is estimated that approximately 60,000 cars owned in Portland are using the present bridges that all converge toward a common center on the west side, and that a bridge south of Hawthorne avenue would divert a vast amount of traffic from the Hawthorne and Morrison street bridges and thus make them available for a portion of the traffic that sweeps across the other three.

BURNSIDE NEEDS RELIEF

It also is set forth that rebuilding of the Burnside bridge is a matter that must be taken care of within the next two or three years, and that building of the new bridge south of Hawthorne avenue before that time would prevent a serious congestion when the Burnside bridge is closed to traffic.

Bridge proponents believe that it may be possible to advance their campaign so as to have the project on the ballot at the fall election and thus materially advance the project in the matter of time and save the expense of calling a special election. A number of kindred points are to be matters of discussion at Wednesday night's meeting.

TWO EAST SIDE STREETS SCHEDULED FOR PAVING

The time and manner of improving two east side streets and construction of two sewers is provided for in ordinances passed by the city council at its last session. These are for the district improvement of East 26th and East 27th streets, from East Harrison to Stephens street; improvement of Grand avenue, from Alberta street; construction of a sewer in 32d street, from block No. 20, Willamette Heights addition, to the existing sewer in that street; and construction of a sewer in Glen avenue, from 260 feet south of Knott street to a sewer in the latter street.

FINAL ACTION ON STREET PROJECTS WILL BE TAKEN

Ordinances introduced by Commissioner Barbur at the last session of the city council and which will come up for final passage next Wednesday, provide for the time and manner of improving the following streets: Cottage Court, from Stanton to Morrison street; Haight avenue, from Blundell to Alberta street; East Seventeenth, from Skidmore to Prescott street; East 24th, from Franklin to Thone street; 70th street southeast, from 55th avenue southeast to Foster road; East 32d, from East Burnside to East Glisan street; East Sixth, from Going to Webster street; district improvement of Emerson, from Union avenue to East Ninth street, and of East Eighth, from Roselawn avenue to Emerson street, from Lombard to Oberlin street.

F. R. L. & P. MAINTENANCE SHOWS INCREASE THIS YEAR

A statement showing the expenditures on maintenance and reconstruction for April on the city lines of the Portland Railway, Light & Power company, was sent Saturday by F. I. Fisher, first vice president of the company, to the office of the bureau of public works.

THIRTY JAPANESE COOLIES, ESCAPED FROM SHIPS TAKEN

Salem, June 10.—Thirty Japanese coolies, who deserted ships to enter the United States in violation of federal immigration laws, have been rounded up in raids by immigration officials throughout Oregon during recent weeks, according to R. P. Bonham, chief immigration inspector of Portland.

Bonham was in Salem today to take one of his latest captures back to Portland, preparatory to deportation. Thirteen of the 30 coolies were taken from hop ranches in Marion and Polk counties.

Last of Old Yamhill Indian Tribe Passes

Dallas, Or., June 10.—Frank Bonds, 75, last of the old Yamhill tribe of Indians, died at his home on the Grand Florida reservation Monday and was buried in the old Indian cemetery there. Bonds was born on the reservation and in his younger days was a man of great influence among the red men of that vicinity.

TO BE ACTED ON FAVORABLY

The petition of A. L. Longaker and others for the improvement of three streets in the St. Johns district at the earliest possible date will be favorably reported to the city council this week by Commissioner Barbur. The proposed improvement includes Jersey street from Catlin street to St. Johns avenue; St. Johns avenue from Jersey to Kellogg street; and Kellogg from St. Johns avenue to the city limits. In his report, Commissioner Barbur says: "The improvement of these streets appears to be a case of emergency and in the interest of the public welfare, as it furnishes a means of approach to municipal terminal No. 4."

CITY HALL BRIEFS

Commissioner Barbur will recommend to the city council at its session Wednesday that a permit be granted to Mrs. Marie Taylor to erect and maintain an apartment house on Thompson street, between East 14th and East 15th streets. He states that this structure will have the appearance of a large duplex house and he does not consider it will be a detriment to the district.

Because the district is semi-business in character, recommitment will be made to the city council Wednesday by Commissioner Barbur that a permit be granted to E. A. Miller to erect and maintain a two-story four-flat frame building on East 22d street, between East Flanders and East Everett streets.

Seven applicants took the city electrical examination Saturday for electrical supervision. This is an examination for the issuance of certification to electrical contractors or their representatives, so that they may pass upon work installed.

New petitions for street improvement work which will go before the city council next Wednesday, include Dover street, from the south line of Wilson's addition to Vaughn street; Dwight street, from Willa boulevard to Houghton street; Cuthie avenue, from Willamette boulevard to Portland boulevard; Almsworth avenue, from Willamette boulevard, and a sewer in Commercial street, from Almsworth avenue to Portland boulevard.

Sarah F. Stephens Dies at Dilley at Age of 83 Years

Dilly, June 10.—Sarah Frances Stephens, wife of William R. Stephens of Dilley, died at the age of 83 years at their home, Friday morning.

She was born in Calaway county, Missouri, and came to Washington county, Or., in 1883. She was a member of the Forest Grove Christian church, having united with the church at the age of 16.

Mrs. Stephens was married to Mr. Stephens in Charola, Mo., August 31, 1862. To this union were born six children, four of whom survive. Twenty grandchildren and six great grandchildren and an adopted daughter are also living. Besides, she leaves three sisters and one brother, Mrs. J. C. Laughlin, Oakdale, Cal.; Mrs. C. P. Christian, Milton, Or.; Mrs. Bettie Benson, Portland, and Samuel S. Dallas, Corvallis, Or.

Funeral services will be held at the home today at 3 p. m.

Women Opponents In Recall Election

Bend, June 10.—Mrs. W. P. Myers and L. F. Orrell will be candidates for the Bend school board in the election June 19, their names being endorsed by the Parents' association. Mrs. Myers will oppose Mrs. Horace Richards, whose recall is attempted. Orrell will oppose J. O. Gibson, first supported by J. B. Heyburn, Clyde M. McKay and H. A. Miller were all appointed this week to succeed members of the board who have recently resigned.

Bond Issue of City To Acquire Legion Building Advocated

Vancouver, Wash., June 10.—If the American Legion is unable to raise money to pay off pressing obligations, Councilman E. V. Coates has suggested that a bond issue be voted and the building purchased by the city.

"I am told," said Coates, "that the debts against the building will total \$25,000, exclusive of the bonds. I propose that the bondholders turn in their bonds and that the citizens vote a bond issue for the outstanding debts and take over the building for municipal purposes. It will make a fine city hall, housing all city departments, and eventually we could arrange for the fire department to be established there. The corner now occupied by the city jail and fire house could be sold for enough to pay the debt incurred by purchasing the building. As a city institution it would be free from taxation and the gymnasium and swimming pool and auditorium could be maintained for the benefit of the public."

LOG INJURES WORKER

Wenatchee, Wash., June 10.—George Lawmaker of Wenatchee was struck by a two foot log, rolling downhill at P. F. Scheble logging camp in No. 2 canyon yesterday, and suffered internal injuries. Lawmaker was in a hollow scooped out by constant passing of the logs, which saved him from death.

FORECASTS

Portland and Vicinity—Sunday, generally cloudy; westerly winds.
Washington and Oregon—Sunday, generally cloudy; moderate westerly winds.

LOCAL DATA

Highest temperature, 65 degrees; lowest temperature, 34 degrees.
River reading, 8 a. m., 22.3 feet; change in last 24 hours, +0.3 feet.
Total rainfall, 8 p. m. to 5 p. m., none; total rainfall since September 1, 1921, 26.44 inches; normal rainfall since September 1, 1921, 42.76 inches; deficiency of rainfall since September 1, 1921, 5.32 inches.
Sunrise, 4:29 a. m.; sunset, 8 p. m.; total sunshine, 7 hours 43 minutes; possible sunshine, 13 hours 40 minutes.
