The Universal Combination

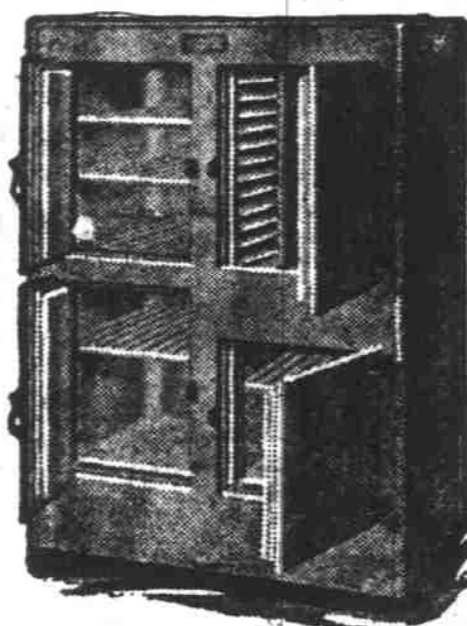

The range for better baking, for ease in cooking. For hot days, for cold days or the kind in between there is no range quite like the Universal.

Two complete stoves in the space ordinarily occupied by one. It burns coal and wood or gas. Affords a cool kitchen when you want it, with the quick service of gas. For chilly days there is cozy warmth and abundance of hot water.

Reduces labor, saves fuel. It is handsome in design, compact and durable.

Bohn Refrigerators

stand the test—they have been proved and tested under extremes of temperature and atmospheric conditions. Hundreds of them are sent every year to Cuba, Honolulu and other tropical and semi-tropical countries. They are used exclusively by the Pullman company and the railroads in their dining and buffet cars, under most trying conditions.

Refrigerators to "stand up" under these severe tests must be reliable—they must have the "goods" in them—they must be efficient in all that the word implies.

We are sole agents for Bohn refrigerators.

These rugs come in the large sizes so in demand—8x10 feet and 9x12 feet—and are unwashed, retaining the original mellowness of the colors.
