

# GREAT ARMY OF PORTLAND ROSES AT ARMORY SHOW

In a blaze of color and with the greatest number of individual entries in the history of the annual event, the Portland Rose Show opened today in the Armory. All morning was spent in arranging the exhibits. The judges commencing their work shortly after 10 o'clock and all was ready for the official opening this afternoon.

So great in number are the varieties submitted that the non-professional rose lover is somewhat amazed at the numerous differentiations. But there are roses of every size, of every tint and tone of color from the palest white to the delicate shades of pink and yellow, to the deepest reds.

There are the tiny blossoms of the ramblers and the huge blooms of the Caroline Testouts. There are single roses and double roses and hybrids of various kinds.

The show occupies the center of the Armory, while about the sides are staged the exhibits of the Mazamas, the Boy Scouts, the game commission and various other features of the sportsmen's and tourist show being held in connection with the rose exhibit.

The south wing is also being devoted to outdoor exhibits.

## MILLER LECTURES: THREATENS SUIT

Seattle, June 20.—(I. N. S.)—Following a conference here today with reporters of the Seattle Record Union, the Better Business bureau and the prosecuting attorney, Police Inspector Schuppius, personal representative of Mayor George L. Baker of Portland, declared that he would advise the mayor to refuse to permit "Psychologist" Orlando Edgar Miller the use of the public auditorium.

Dr. Orlando Edgar Miller opened a two weeks' series of lectures on "Applied psychology" at the Peoples theatre Monday night. Miller had advertised that his course would be given at the Auditorium, but use of the building was denied by Mayor Baker pending investigation of charges published in Seattle papers.

The better business bureau of the Portland Ad club is investigating Miller's previous record and seeking to determine whether or not a stock selling plan he had undertaken in other states has a legitimate backing. He has no right to sell stock here and said he would not ask for one. The bureau, however, has evidence that he applied for a permit which was denied by the commissioner.

**GETS BIG AUDIENCE**

Publicity given the charges against Miller sufficed to pack the theatre to capacity and late comers were denied admission. Nothing new or startling appeared in the lecture itself. The subject matter had been gone over in about the same way by a score of other "psychologists" and "healers" on Portland platforms. Miller proved fairly entertaining as a speaker and the stage lights were adjusted to give a reddish tinge to his white hair and face.

A collection taken about midway through the lecture was the only innovation compared with similar series of lectures. Miller explained that the overhead expense of himself and his retinue amounted to \$500 a day and that his income from collections, sale of books and fees for classes of instruction averaged about \$500 a week. He stated that he was the best paid lecturer in America.

Old age is an unnecessary habit of thought, Miller asserted, and he claims to be able to teach methods of rejuvenation. It is evident that Miller's practice along this line has been confined to teaching his art to others. He claims to be 58 years old and one would judge him to be all of that.

**HE FALLS ASLEEP**

He fell asleep while a Journal reporter interviewed members of his staff at the Multnomah hotel Monday afternoon and afterward explained that it is his custom to take siesta daily because of the duties involved in his educational work.

Miller stated that he had organized the Reeltime film syndicate, incorporated under the laws of California, for the purpose of producing a series of "psychological films." No films have been produced, he said, but work would begin on the first drama next month. Stock in the film syndicate was sold at Seattle during the past few weeks, but no effort will be made to dispose of stock in Oregon, Miller said.

A more ambitious scheme proposed by Miller involves the establishment of a colony of 20,000 to 25,000 people on a tract of 250,000 acres on the eastern shore of Lake Chaparral, Mexico. Mexico is the only country in the world, Miller stated, where cooperative efforts may be promoted without interference from "Wall Street." The constitution of the new government of Mexico is far superior to that of any other country on earth and 100 years in advance of the constitution of the United States, he declared.

**PLAN NOT FINISHED**

The grant of land has not yet been received from the Mexican government and the plan for the operation of the colony has not been fully worked out, Miller admitted. Shares in the enterprise can be contracted for at \$1000 each, he said, and a large number of people already have agreed to join the colony on these terms. The scheme in its entirety will be ready for exploitation in about 90 days, he explained.

Miller said he is president of the "International Society of Applied Psychology," organized three years ago at Chicago. According to Miller's statement he was elected president at the first meeting at Chicago and has retained the office ever since. The society has between 17,000 and 18,000 members who pay dues of \$1 per annum, Miller asserted.

Associated with Miller in his campaign in Portland are: Madame E. Burton Sharran, said to be an expert in "trance-bruery"; Gaston Caradron of Brussels, Belgium, who handles the healing end of the game; J. K. Hoagland, advertising and publicity manager; and Ben F. Wilson, business manager. Other members of the party are Miss Frances Miller and Mrs. John Hoagland.

**NAY START SUIT**

Miller announced today that he would immediately start a suit to collect damages from the "Union Record" and other Seattle papers which, he alleged, maliciously slandered him during a series of lectures in the Sound city. Miller said that three marked \$100 bills had been paid to a Mrs. Patricia Reid of Seattle, to be given by her to newspaper men to suppress further attacks. The bills are being traced and arrests may follow, Miller said.

Though he stated that Mrs. Reid had acted as the agent of his business manager, Ben F. Wilson, in the matter of the marked money, Miller afterward denied that Mrs. Reid ever had any connection whatever with his organization. Mrs. Reid he now is said to be in Seattle, charged with drawing a check in Dr. Miller's name payable to a singer who assisted at one of his programs. She also is charged with having attempted to dispose of a mortgaged automobile.
