This is a broad statement to make but it is borne out by the facts as practically all handlers here will attest.

Lack of good seed is the biggest reason for Lack of good seed is the biggest reason for Oregon's poor potato erops during the last few years. A complete change of seed has been necessary for a number of years past. In Yakima and in California, where potatoes are grown in quantities, the seed is selected and changed often. In this state few growers change their seed because it costs them more money to make the change. They fail to realize that such change will pay them big profits.

COTTON GOES TO HIGH

NARK OF THE SEASON

New York, June 20.—There was a further advance of 13 to 45 points at the opening of the cotton market today which very nearly realized predictions of 28c for near smonth cotton and which established new high records Liverpool showed an indication of steadying in reality weaker than when it stood at the fine in the wheat trade Tuesday, but South American markets were depressed with Buenos Aires showing a loss for the day. Chicago options started very slow and almost without feature.

Midday Forces a | FLOUR WILL SHIP Rise in Chicago ON THROUGH Chicago, June 20 .- Trade in wheat was uninteresting most of the day. Just before

mid-day there was a flurry which carried prices to the highest point of the session. Locals sold it on the early bulge and when the offerings disappeared they found it difficult to cover. The buying on the dips was credited largely to foreigners. The firmness of cubles upset the bulis, as it was not deemed likely that Liverpool would ignore our decline of yesterday. There was a firmer cash market as yesterday. There was a firmer cash market as the result of increasing shipping demand, mills taking 78,000 bushels out of this market. Kansas City cash wheat was unchanged to 2c higher. Minneapolis cash wheat was 1c to 2c lower. Crop news continues mixed with the Southwest insisting that wheat yields are disappointing. The stronger rates for foreign exchanges expected to result in some export.

walian Steamship company was inbound from Puget Sound for Portland
and the Welsh Prince had cleared for
the Orient with lumber and steel. Pearson claimed to have sounded one
whistle, while Sullivan stated that he
heard two and answered with two.
The lowan struck the British vessel
in the starboard bow.
