

RESULT OF IOWA PRIMARY AS SEEN BY IOWA PRESS

Washington, June 20.—(WASHINGTON BUREAU OF THE JOURNAL)—The political cynics in Iowa which swept Smith W. Brookhart into the Republican nomination for senator has produced some interesting comment from the press of that state, where the issues of the campaign were best understood. The Iowan appraisal of the result is seen by the following extracts:

Des Moines Capital (Rep.)—Colonel Brookhart is called a radical, but he is no more a radical than was Senator Kenyon, who was the most popular man in the state at the time he retired from the senate. He is a man of clean life and unimpeachable character. As a man he never tasted liquor in his life and never smoked tobacco.

TIED OF CONSERVATIVES
Des Moines Register (Ind. Rep.)—No body can deny that the successive victories of Pinchot and Brookhart, not to mention Beveridge, point to a dissatisfaction with the government by and for conservatives. National politics simply has to take more account of the voters and the wishes of progressive agrarianism. If it isn't done, if such manifestations as the farm bloc are met with merely an attempt to frown them down, results at election time are going to be more than disappointing. A vote was a protest from the Sioux City Tribune (Ind.)—Brookhart's nomination is the third notice to Washington that government of the corporations, by the corporations and for the corporations is not satisfactory. It is notice that the rank and file of the party is not in favor of the proposed tariff, the ship subsidy, the seating of Newberry, the juggling of adjusted compensation for ex-service men and the general policy of wiggle and wobble.

WARNING FROM DAVENPORT
Davenport Daily Times (Rep.)—The Times approves some of the things which Brookhart advocated, but it doesn't approve his attacks of the federal reserve system or the Cummins-Esch law. If Mr. Brookhart is elected, and there doesn't appear to be much doubt about that, he must keep in mind the fact that people change their minds quickly if they perceive they have made a mistake.

Fort Dodge Messenger (Rep.)—The tremendous vote given Brookhart reflects the temper of the times. It was a vote of protest from the farms against low prices of farm products and high prices of farm labor. From the cities it was a protest against high living costs and low wages. Brookhart, if elected, will have to be a political gymnast of the first water in order to keep faith with the conflicting groups that have supported him, but all power to him.

WAS BRANDED OUTLAW
Cedar Rapids Gazette (Ind.)—Brookhart's repudiation of the federal reserve system and the Cummins-Esch law, together with other positions considered as radical by the old guard branded him as an outlaw with that organization, but here he is the Republican nominee and his victory puts Iowa Republicanism in an extremely uncomfortable position.

Burlington Hawkeye (Rep.)—Credit for Brookhart's nomination must be given to organized labor, with less help than was expected from the farmers.

Sioux City Journal (Rep.)—Colonel Brookhart, quiet of manner and earnest in argument, convinced a majority of the voters that he would do more for them than any other man seeking their support. Voters this year are casting their ballots as they please and not as they are told.

Ottumwa Courier (Rep.)—The outstanding features of the primary are the utter futility of the primary system and the deplorable lack of the sense of civic duty on the part of a large section of the citizenship.

Oscar Olson, Fish Dealer, Files His Bankruptcy Plea

Oscar H. Olson, retail fish merchant at No. 170 First street, took advantage of the federal bankruptcy laws today by filing a petition in the federal court requesting the cancellation of all his debts, which total about \$3000. He has no assets, either real or personal, according to the petition.

The George Harvey Lumber company of Walton, Lane county, Oregon, also filed a voluntary petition in which the liabilities of the firm are given as \$23,890.80 and assets, \$550. The company was owned by George Harvey and J. D. Harvey.

Questions Legality Of Prison Sentence

The legality of a McNeil Island sentence imposed Monday by Federal Judge Bean on J. Lewis Frindel, automobile thief, was questioned by the court following his edict. Frindel was sentenced to 30 days at the prison, and an order made that the sentence run concurrently with a two-year sentence he is now serving for a similar crime. Prisoners are not usually accepted at the island unless their minimum sentence is a year and a day. Judge Bean said if the warden would not honor the sentence, Frindel could serve out his two-year term imposed in Seattle and then serve 30 days in the county jail here.

Flowers and Pleasant Shade at Festival Center

This year, as always in Festival time, the South park blocks from Salmon street to Jefferson are the magnet for thousands who seek rest and aesthetic satisfaction amid their flower-lined paths. The upper picture shows the center of the park; the lower some of the rhododendrons, which are particularly fine this year.

Crops Destroyed by Flood of Rio Grande

Donna, Texas, June 20.—(I. N. S.)—The great Rio Grande flood broke the levee here this morning. There is now nearly five miles of whirling water between this town and the Mexican side of the river. The crest of the flood now reported at Laredo is expected to reach here tonight. All crops in the river lowlands have been destroyed.

THOUSANDS VISIT WARSHIPS; GOBS DANCE ON CREST

The battleship Connecticut and the destroyer fleet drew big crowds of curious sightseers today and yesterday. In the meantime, all the officers and enlisted men who could obtain shore leave were away seeing the city or being entertained in hospitable homes.

The destroyers remained this morning on the west side of the river, between the North Bank dock and the Pacific Coal company dock, where they could be reached easily. The battleship was on the east side, below the Broadway bridge, and had to be reached by launches, of which there were plenty available.

Visiting hours each day are 10 to 11:30 in the morning and 1 to 5 in the afternoon.

The destroyers may be moved to the coal company dock later in the day to make room for an ocean steamer due at the North Bank dock.

Fully 2500 enlisted men from the vessels attended the entertainment at Council Crest Monday night, it is estimated. Hostesses from the Community league chaperoned the dance, which was sponsored by Mrs. M. B. Young. Fred W. German of the festival board and Lieutenant R. E. Kerr of the navy. The owners turned over the park to the sailors without charge. Hosts and hostesses took the sailors to the crest by motorcar and on the way up and down they universally marvelled at the sight of Portland's lights glimmering and gleaming at their feet. At the crest the laughing bluejackets went into all the side attractions free and all apparently enjoyed themselves.

California Starts Move to Banish Parochial Schools

(By Universal Service)
Sacramento, June 20.—Plans to place an initiative measure on the November ballot which aims at the dissolution of parochial and other denominational schools in California, became known here today when petitions were placed in circulation for an act which would force all children of school age to attend schools maintained by the state. Officials at the state capitol declared that the measure is sponsored by the Ku Klux Klan and that the petitions are being circulated for the most part by klansmen. Administration leaders see in the movement the first definite indication that the night riders intend to plan an active part in the coming election.

The proposed law would require all children between the ages of 7 and 16 years to attend "public schools." A public school is defined as one supported and operated by the state, which would indicate that private schools also will come under the ban, should the measure receive the indorsement of the voters.
