BUTTER IS WEAK IN LOCAL TRADE

Market for butter continues to gain in weakness here and a further softening of prices is shown generally in the cube trade. While some holders are still asking as high as 35 cents for state extras, purchases of this quality have been made during the 24 hours down to 34 cents; a further loss of ½ cent from recent figures.

While centralizers are still asking 37 cents a pound for their extras, practically no sales are reported at this price. The result is that the stock is being rushed into ice houses at values considerably above those of a year ago.

The report of cold storage holding of butter at Portland showed a total of 303,954 pounds held here this year compared with 224,636 pounds a year ago.

Extreme price that is being paid for butterfat by warring creameries is all that is holding the price of prints as high as it is.

Watermelons are again available with the retail price at 10c a pound. Quality better than initial offerings.

Chicago Wheat In Narrow Limits In Early Trade

Chicago, June 21.—Wheat started higher but the market reacted shortly after and an easy tone developed. There was some covering by local shorts at the start, but when this buying was over the demand was not broad enough to absorb the offerings. This caused some of the locals to put out short wheat. The trend was downward as the result and for over an hour the market showed poor rallying power. A little buying for Northwest account took the slack out of the market and shortly before midday shorts attempted to cover and found little wheat for sale. As a result there was a rally to above the previous close. Export demand for wheat was flat and there was some talk of reselling by England. Milling demand was not so good. Beneficial rains were reported over Canada. Weekly weather reports were partly bullish, confirming some premature ripening in Kansas.

Corn held well. Local bull leaders supported the market and there was some sentimental buying based on past experiences. The news was mainly bearish. Country was a free seller of corn to arrive and there were 300,000 bushels booked by two leading elevator interests. Domestic shipping demand was slow. Crop news is favorable.

Oats trade was slow, but the market was firm. Bad crop reports tend to check selling. Cash demand slowed up considerably of late.

Trade in provisions consisted largely of changing. Cash interests changed their hedges from July to September.

FRUIT DEMAND IS QUITE FAVORABLE

By Hyman H. Cohen

Increasing demand for fruits is shown generally although here and there, as in strawberries, some weakness is shown in a jobbing way.

Reports indicate some liberal sales of prunes by Oregon growers to European interests. Sellers appear to be hiding their transactions at this time, in fact, for the first time in several years appear adverse to giving publicity to this movement.

Unconfirmed reports indicate, however, some record business in Oregon prunes with various European countries reported as buyers. Latest reports from abroad indicate that earlier estimates of the very small crop in France are now fully confirmed.

Not only is the dried prune market of excellent character, but Eastern Oregon and Idaho report that contracting of fresh prunes for Eastern shipment is of excellent character, with values rather liberal.

Cherry demand is excellent from canning interests but the fresh market is very scant with prices ruling around 9@10c for seedling whites and 18@20c for the better class of Royal Annes from The Dalles.

Cantaloupes are cheaper here, with increasing supplies and quality extremely good.

COTTON MUCH AFFECTED BY WEATHER CONDITIONS

New York, June 21.—While there was a good deal of realizing and selling for a reaction at the opening of cotton market today owing to the extent of recent advances and reports of improving crop conditions, the offerings were readily absorbed. The opening was at a decline of 14 to 24 points but the selling tapered off the first few minutes and contracts suddenly became scarce. As a result prices advanced sharply, soon selling some 5 to 10 points above yesterday's closing and after easing off a few points just because the publication of the weekly weather report soon fermed up again on covering by early sellers and continued trade buying.

The weekly report of the weather bureau indicated that there had been a substantial widespread improvement in the crop report because of weather conditions during the week.

Today's cotton market pursued a very irregular course. It held up fairly well during the early part of the time despite very heavy realizing sales. In the last hour the sudden throwing over of a large line of October cotton by local interests, along with active selling of the same option in New Orleans, led to a sharp all around decline. The close was weak, down 28 to 35 points on the day.

Prices reported by Overbeck & Cooke company.

While foreign markets were inclined to show strength, Chicago was on the fence so far as wheat prices were concerned in the early option trade. Liverpool started the day with values ¾ to 1¼d higher and closed with a net advance of 1¾d compared with the previous day's finals. South American markets were inclined to absorb some of the advance recorded in Europe during the last few days, a rise of 1½ to 2c a bushel resulting in Buenos Aires options.

Locally the market continues slow but is steady to firmer in spots. Export business remains available with one firm continuing as the leading operator at country points. Purchase of white club are shown around $1.14 per bushel tidewater track delivery basis.

No new trading in new crop contracts is reported here; prices available not being at all satisfactory to growers.

Flour market is steady with more foreign inquires but prices still more or less unsatisfactory.

North Portland had 20 loads of livestock in its alleys Wednesday, but 16 of them went direct to outside killers. Hogs were weaker and 25c lower, cattle were slow and weak while sheep and lambs appeared steady at a further price cut made late Tuesday afternoon.

In the hog alleys there was only a small run reported on the market, but even this small volume did not stop killers from hitting the price to the tune of another quarter. Tops were off at least 25c for the day, with an extreme of $11.75 in the alleys here.

General hog market range:

Prime light	$11.50@11.75
Smooth heavy, 230-300 lbs.	11.00@11.25
Smooth heavy, 300 lbs. up	10.00@11.00
Rough heavy	8.00@9.50
Fat pigs	11.50@11.75
Feeder pigs	11.75@12.00
Stags	5.00@8.00

Cattle Very Slow

Total run of cattle in the alleys Wednesday included 440 head, but 386 head or 16 cars went direct to outside killers. While this left but few head available for the market here, considerable stale stuff is still dragging wearily in the alleys. Ordinary stuff especially is depressed, but there appears no real strength for even the better class goods.

General range of cattle trade:

Choice hay-fed steers	$8.25@8.75
Medium-good hay-fed steers	7.75@8.25

Sheep About Steady

With North Portland touching the lowest point of any of the leading markets of the country for shee pand lambs, the trade here appears to have reached the point where killers are willing to take hold.

General sheep and lamb trade:

DUTCH STEAMSHIP GOES OUT WITH 3008 BBLS. FLOUR

The Dutch steamship Baja California, of the Latin-American line, cleared yesterday for Mexico and Central America with 3008 barrels of flour valued at $15,187. The flour was shipped in a number of parcels. The vessel shifted to Linnton and will finish with a large parcel of lumber.

From Muroran the Norwegian steamship Havo, Captain M. Haveland, entered this morning in ballast. She is under charter to Kerr, Gifford & Co., to load wheat for Europe. Captain Haveland made the run across from the Japanese port in 19 days and reports fair weather. This time bests that of the British steamship Eiere Airadne by seven days and the Japanese steamship Meiwu Maru by three days. The Havo is lining at the Peninsula mill.

LIBEL SUIT ON STEAMSHIP IOWAN ORDERED DISMISSED

An order dismissing the $10,250 libel suit brought against the steamer Iowan by Peter Konrad Holm, seaman, was entered this morning by Federal Judge Bean. The court's order was in keeping with the order of a New York federal judge who issued a restraining order last week against any libels being filed against the vessel until a suit to limit the amount of liability has been determined. The boat owners have filed such a suit in the New York federal court. Holm was one of the seamen injured on May 28 when the steamer Welsh Prince was sunk by the Iowan in an accident in the Columbia river near Altoona, Wash. Dismissal of this suit indicates the attitude of the court and probably means that the vessel will sail on schedule.

ANOTHER LIBEL SUIT

A tenth libel suit was filed against the refrigerator steamer Deerfield this morning by the McCormack Stevedorin company, Inc., of New York, for $11,174.67. Nine suits were filed last Friday in the federal court by other Eastern claimants. The total amount of damages sought is now about $50,000. The McCormack company is seeking judgment for the value of stevedoring work performed on the vessel last January while she was loading in New York.

LARGE CARGO OF LUMBER WILL GO TO WEST COAST

One of the largest lumber cargoes to be laden for the west coast of South America will be taken on the steamship Delrosa, now completing in the Columbia river. The Delrosa is one of the regular packets of the General Steamship corporation and makes the touches at the principal west coast ports of South America as far south as Valparaiso. The lumber cargo on the Delrosa will run close to 1,225,000 feet. In addition the steamship will take large shipments of flour and canned salmon and parcel lots of plunder.

E. E. Johnson, local agent of the General Steamship corporation, has severed his connection with that shipping firm to engage in the general brokerage business. J. C. Settle of San Francisco and formerly of the Pan-American lines has been installed as Portland manager and will immediately assume charge. Vice President Chidester of the General Steamship corporation was in Portland yesterday in connection with the transfer of the local office.

The General Steamship corporation operates lines to South America and Australia and also acts as agents for the Java Pacific and two branch lines operating through the canal to the continent.

With the heavy shipments of lumber to the Atlantic side in the intercoastal trade the upward trend of rates has been felt and the generally accepted rate at present is $14, an advance of $1.50 a thousand feet. While lumber is not controlled by the conference rate and operators are free to make bookings, it has been the general policy to stick around $12.50. Rates apply from the Columbia river, Grays Harbor and Puget Sound.
