WALK OUT WHEN ASKED

TO DO STRIKERS' WORK Roseburg, July 6.-Five maintenance of way men employed as wipers in the Southern Pacific shops here, walked out Wednesday when one of their number was requested to do a certain piece of work which comes under the class of machinist labor. The wiper was discharged for insubordination when he refused to obey, and was joined by five other wipers. There are six men in the shops here, one striker having gone back to work, and five men being brought from Portland. The men eat and sleep in a company diner

and sleeper in the yards. Acting upon a bulletin issued from the local strike headquarters the men are refusing to accept their pay vouch-ers. The instructions are that the acveptance of the pay voucher equals a resignation from the service, and they want it understood that the men are not resigning but are merely protesting at the withdrawal of certain working onditions.

These men are wanted to take the place of men who are striking against the decision of the United States Railroad Labor Board, and their status and the FULL PROTECTION GUARANTEED are explained by Mr. Ben W. Hooper, Chairman, in his statement of July 1:

"In the past a man who took up the work of another man who was on strike against wages and working conditions was termed a "scab" or a "strikebreaker"-terms to which much opprobrium was attached. In the present situation created by the strike of shopcraft workers, men who assume the work of the strikers cannot justly be reproached with such epithets.

"This is not a customary strike in which the employer tries to impose upon the employe unjust wages and unreasonable working rules. In this case the conflict is not between the employer and the oppressed employes. The people of this country, through an act of congress, signed by President Wilson, established a tribunal to decide such disputes over wages and working conditions, which are submitted to it in a proper manner. It is the decision of this tribunal against which the shop crafts are striking.

"Regardless of any question of the right of the men to strike, the men who take the strikers' places are merely accepting the wages and working conditions prescribed by a government tribunal and are performing a public service. They are not accepting the wages and working conditions which an employer is trying to impose. FOR THIS REASON PUBLIC SENTIMENT AND FULL GOVERNMENT POWER WILL PRO-TECT THE MEN WHO REMAIN IN THEIR POSITIONS AND THE NEW MEN WHO MAY COME IN."
