

SCHOOL OFFICES TO BE MOVED TO HOLLADAY SITE

School administration headquarters will be removed from the courthouse August, 1922, where the lease expires. The partly burned Holladay school building at East Sixth and Clackamas streets, soon to be repaired. Director Shull, who believed the location to be too far away from the business center and who favored the use of the present Girls' Polytechnic school building, when the new school shall have been erected, for this purpose, was apparently the only opponent. Other directors believed it to be a saving and stated the block on which the Girls' Polytechnic school is located to be worth \$250,000, while they could not get \$20,000 for the Holladay site.

TO PURCHASE 3 BLOCKS
Three blocks between Halsey and Waco and East Seventh and Ninth streets in the Holladay addition will be purchased from the agents of the Larabee estate for \$97,000, provided the streets are vacated and with the block now owned by the district will be used as a site for the new Holladay school. A. E. Doyle, architect, was instructed to submit plans for the new building.

The Kenwood Land company will be offered \$10,000 for block 13, 230x170 feet, with 60x20 feet additional through street vacations, bounded by Lombard, Russet, Interstate avenue and Greenwich street, for addition to the Kenton school property. The company has priced the land at \$11,500.

PROPOSAL HITS SNAG
The proposition of the city commissioners that the school join with the city in constructing the new Northeast high school in a natural park of 40 acres between East 33d and East 37th and Tillamook and Knott streets, struck a snag when it was voted upon the board that it was to donate \$21,000 to the city under the plan.

The city owns the Verateg tract of 15 acres; it was to purchase the Kern tract of 11.25 acres. The school board was to purchase the Wright tract of 13.75 acres at a cost of \$42,000. The board was then to turn the entire tract over to the city and accept in lieu thereof seven acres of the city's land upon which to build the school.

CITY TO BEAR COST
Director Woodward, chairman of the properties committee, pointed out, however, that under the transaction the city would take care of all street improvements, would furnish an outdoor swimming pool and an athletic field, which would make up for the \$21,000. The Shattuck school swimming tank cost \$30,000 alone, it was said.

Director Shull was somewhat opposed to the plan, saying the \$10,000 was all that had been laid aside for a site for the Northeast high school when the statement to the taxpayers was prepared, that he had not realized that the city would ask the board to buy three or four times more property than that needed, and pointed out that the board had only half as much money as it needed anyway, and were not used for decoration.

COMMUNITY HOUSE
The plan would include a community house erected by the city and the whole park enclosed by a boulevard upon which lots would be sold facing the park, upon which homes of appropriate types of architecture would be built.

The board will visit the site at 7 o'clock tonight and survey the situation before taking any action whatever.

For the Holladay insurance, the board agreed to accept \$38,782.92 cash, \$4,474.94 for the building and \$4308.98 for furnishings, the total submitted by the insurance adjuster.

Directors decided to allow Robert Fulton, the new school clerk, a salary of \$4000 a year. Much debate preceded this action, some directors favoring \$6000, the sum which had been paid R. E. Thomas for 14 years of service. Director George B. Thomas, who first nominated Fulton, even before the latter made his application, moved to pay him the salary of \$4000. Director Woodward seconded the motion. Director Shull mildly interjected that at paying a new man so much money, but Director Thomas said there would be so much work with the new building program that the position is worth it.

HOW ABOUT IT? ASKS SHULL.
"But," said Shull, "the talk has been \$300 or \$350 a month."

Thomas insisted the board wanted a \$5000 man.

Director Martin said he understood that any new man coming in would not be worth \$5000 for the first year at least, and he believed in paying less, especially since they had "cut off the business manager" part of it.

"We cut off the business manager, but we are adding a lot to the new man," said Director Thomas, "and we want a \$5000 man."

Director Egan moved Fulton to be started at \$800 a month. Martin amended this to a salary on the basis of \$4000 a year, on which figure the board completed Directors Thomas and Pickering clung to the \$5000.

The recommendation of the business committee that an expert statistician be employed to compile information requested by the tax supervising and conservation commission, was modified so as to authorize the new clerk to employ the assistance in preparing such budget form as will be satisfactory to the commission as well as to the board.

URGE ATHLETIC FIELD
The education committee recommended that in the construction of the first unit of the new Girls' Polytechnic school, the Kann tract between 15th, Chapman, Madison and Taylor streets be considered, with the idea that an athletic field can also be laid out which can be used by this school, High School of Commerce, Lincoln high, Lad and Shattuck schools. It also recommended that construction be started at the earliest possible moment to replace portables at Scott, Gregory Heights, Dunway, Benning, Sabine, Hester and Beach, and that additions be started for Kennedy and Woodstock, and Oakley Green school be placed as soon as possible and a new site obtained for replacement of Sunnyside school. These recommendations were all referred to the properties committee.

DISCONTINUANCE IS OPPOSED
Salem, July 20.—Protest against the proposed discontinuance of water service at Alpine in Benton county has been filed with the public service commission by citizens of the community. M. B. Hughes is owner of the utility.
