**The Universal Combination**

Is Famous for Its Simplicity, Convenience and Baking Qualities

The "Universal" combination burns wood and coal or gas. It keeps the kitchen comfortable in summer and in winter. No more working in a hot kitchen in summer—use gas. No need of working in a cold kitchen in winter—use wood or coal. Or, if you wish, both fuels may be used at the same time.

**It Is Compact**

The Universal occupies little room. It is complete—two ranges in the space ordinarily occupied by one. It is durable—body of all cast iron, won't rust out. It is beautiful—graceful in design, finished in black with nickel trimming or all porcelain, as desired.
