

SOLOMAN MILLER IS CHARGED WITH PLOTTING FELONY

Solomon Miller, proprietor of two drug stores, was arrested early today charged with plotting to have S. J. Bischoff, his ex-wife's attorney, knocked in the head with a baseball bat, and on another occasion plotting to have acid thrown in his face.

"Advocating the commission of a felony" is the official language on the warrant, as issued by Deputy District Attorney John Mowry. Miller, who was sought all night, met Inspector Price, an old acquaintance, on the street this morning.

"I see I'm wanted," said Miller. He and the inspector went to the station together.

The trouble is said by authorities to have grown out of a divorce suit against Miller in which his wife was the winner and during which Bischoff was attorney for her. According to allegations filed with the district attorney's office, Miller considered that Bischoff had broken up his home in his capacity as attorney for his former wife and that Miller had made threatening statements against the attorney. Bischoff said he had received unsigned letters containing threats.

An information was filed with Mowry signed by one W. R. Brown, who alleges that Miller asked him to attack Bischoff with a baseball bat when the attorney passed one of Miller's stores.

This plan was abandoned later, Brown asserts, for one in which he was to throw acid in Bischoff's face. According to Brown, he told police inspectors of the affair after Miller had offered to pay him for the service.

New Gas Rates Showing 5-Cent Cut Are Filed

New gas rates under the reduction announced by the Portland Gas & Coke company were made public in detail today following filing of the tariffs with the public service commission. A general reduction of 5 cents a thousand feet is shown by new tariffs.

No reduction is made in the minimum charge of 75 cents covering less than 300 cubic feet, however. For residential and commercial gas users, the figures are as follows: For those using less than 9700 cubic feet a month, the old rate was \$1.18 a thousand feet and the new rate is \$1.13; less than 20,000 cubic feet, old, \$1.05, new, \$1; for less than 60,000 cubic feet, old 90 cents; new 85 cents; less than 100,000 cubic feet, old, 75 cents; new, 60 cents.

For house heating and gas engine work the comparative rates are: Minimum (less than 300 cubic feet) was 65 cents and the new is 60 cents. For those using less than 2700 cubic feet the old rate was 85 cents, the new rate is 80 cents. For the excess over 3000 cubic feet the old rate was 65 cents and the new is 60 cents.

The new rates are to be effective on all meter readings made on and after August 25. The rates for industrial gas, which for large meters, is based on volume, will remain unchanged.

K. C. Insurgents Defeated in Drive Against Flaherty

(By United News)
Atlantic City, N. J., Aug. 4.—After a stormy session lasting 11 hours without a recess even for lunch, the Knights of Columbus closed their 40th annual convention Thursday night with prayers and cheers for Supreme Knight James A. Flaherty and his administration.

This did not take place, however, until Flaherty had offered a partial apology on the convention floor for his defense of Joseph C. Pelletier, former supreme advocate, who, he claimed, was ousted from his office of district attorney and from his law practice in Massachusetts because of "religious prejudice."

When the supreme knight admitted his "grievous error in the light of later events," and added that he permitted his personal feelings for Pelletier to "override my better judgment," the delegates rallied to his side and rejected every resolution presented in criticism of him or his administration.

Insurgents, defeated in their attempts to censure Flaherty's resignation, declared they would continue the fight in their various state councils during the coming year and would seek his retirement in the election of 1923.
