*Holiday.

General advance of 1c a dozen was shown for eggs in the local trade for buying, with henneries at 31c a dozen. Selling prices are advanced 1c a dozen to 36c for selects by the Poultry association, but private sales are no higher than 35c as yet.

Owing to the scarcity of fresh offerings the trade is scrambling for fresh goods and various bids for current receipts are shown at 28@29c a dozen for Portland delivery.

Storage eggs continue to sell well around 30c a dozen with quality extremely good. More care has been taken by the trade in putting first class stock in storage than for many years past.

Egg trade throughout the country is much more favorable with continued liberal withdrawals from storage because of the very serious decrease in fresh offerings. Strength in the Eastern trade is attributed to the very hot weather with the resulting decrease in quality offerings.

A further advance of 1c a dozen is announced by the Poultry association for Monday morning at 37c for selects and browns, 35c for firsts and 31c for pullets.

Those desiring special information regarding any market should write the Commerical Editor, Oregon Journal, enclosing stamp for reply.

BUTTER REFLECTING STRENGTH

Market for butter continues to reflect strength here with cubes especially sought. Real estate extras are firm at 40c a pound, a rise of ½ to 1c from what some had been quoting. Prints are firmer but unchanged.

HEAVY CALVES HARD TO MOVE

Because of the very scant demand, heavy weight country killed calves are very hard to move at this time. There is a good call for the better quality and weight offerings. Hogs are slow around printed prices.

PEACH MART SHOWS STRENGTH

Increased strength was shown for peaches. Yakima accepted orders here and refused to deliver when the market stiffened. Local stock sold better. General range for Elbertas was 65 to 80c with Crawfords at 80@85c for fancy goods.

POTATO MARKET IS VERY QUIET

Walla Walla potatoes are being offered in carload lots here at $1 with resales to retailers at $1.50 generally in a small way. Similar prices are shown for Idaho stock. Local growers are not offering.

PEAR MOVEMENT IS INCREASING

Increasing movement of pears is shown in the trade here at $1.25@1.50 per box or lug for the better quality. Canners are taking all they can consume around 2½c a pound.

BRIEF NOTES PRODUCE TRADE

Cabbage is slow at 1½c a pound for uncrated.

Beans continue to drag.

New black figs have arrived with the price at 16c pound.

Popcorn prices have been advanced ½c because of heat in Nebraska.

Chicken trade remains firm for everything except lightweights.

Quinces in nominal supply and demand at $2 box.

SHIPPERS' WEATHER NOTICE

Weather bureau advised Saturday:

Protect shipments during the next 36 hours against the following maximum temperatures: Going north to Seattle, 70 degrees; northeast to Spokane, 80 degrees; east to Baker, 80 degrees; and south to Ashland, 85 degrees. Maximum temperature at Portland tomorrow about 78 degrees.

The MARKET BASKET

RETAIL PRICES

By Hyman H. Cohen

Eggs are a cent a dozen higher on the public market and are now either at wholesale price or 1c below what retailers pay. The price on the public market very seldom follows the wholesale market; being either too high or too low. At present it is too low to admit of a profit to the producer and must either be forced higher or no eggs will be offered.

The market master has at last paid slight attention to the criticism of the extreme price asked for tomatoes by the pound and has reduced the maximum 1 cent to 4 cents. This is more than plenty.

Peaches continue to show advances but most retailers are today either selling below wholesale values or at them. Public must buy at once to get best results.

Fresh prunes are of extremely good quality and are selling at 4 to 5 cents a pound.

Retail prices generally show:

Butter—Fresh creamery, 46@50c.

Fish—Salmon, 20@25c; halibut, 25c; black cod, 15c.

Flour—Best local patent, $2.00@2.25 per 49-lb. sack.

Potatoes—New, 2@3c lb.

Onions—3@4c lb.

Yamhill street prices: Carrots, 4c bunch; string beans, 5c pound; peas, 13c lb.; cabbage, 3½c lb.; cauliflower, 25c head; lettuce, 5@10c head; new potatoes, 2½c lb.; celery, 13c bunch; tomatoes, 5c lb.

Corn—Green, 15@20c dozen; Bantam, 15@20c dozen.

Honey—Comb, 25c; quart, 65c; pint, 38c.

Eggs—Public market, 35c; private stores, 35@36c dozen.

Poultry—Light hens, 22c lb.; heavy hens, over 4 lbs., 26c lb.; fryers, 30c lb.; broilers, 32c lb.

Cantaloupes—Fancy stock, 5@10c.

By Hyman H. Cohen

Wheat market was reactionary for the closing day of the week with both domestic and foreign markets inclined to dip. There appeared to be profit taking by option traders and this kept the domestic market down.

Considerable wheat is moving from Atlantic and Gulf ports to Europe, but there continues a lack of new business in this territory. This is due to the fact that relatively higher prices are shown here than elsewhere. Europe is unwilling to pay the prices demanded by the Pacific Northwest, because it can purchase cheaper elsewhere and it is very short of money. Wheat of similar quality to our white club or western white is being delivered for Eastern shipment at $1 per bushel, while no purchases are available here below $1.09.

Europe is not offering above $1.05 per bushel for wheat f. o. b., which means not above $1.03 track basis Portland. This would be the full worth of wheat for present sale here and includes the handling charges and profits that exporters must secure. Because of the fact that exporters here sold wheat to Europe some time ago for September delivery at higher prices, and they are short in their deliveries, they are actually offering 4c a bushel more for wheat today than they can possibly sell at to Europe.

Flour trade continues quiet for both domestic and foreign account.

Broomhall cabled:

All United Kingdom—Wheat situation appears somewhat firmer with buyers showing more confidence. There has been some improvement in the demand and speculative interests have been inclined to take hold in a fair way around present levels. Continental buyers are also displaying more interest.

Argentine—Country offerings are not pressing. Weather continues clear and generally cool, being favorable for the conditioning of the new corn. There was a scattered business in wheat for export yesterday and while it is difficult to confirm actual details, many are inclined to believe that at least half to three quarters million bushels if not more was worked.

WHEAT—Buying price, tidewater track delivery: Club, $1.09 per bushel; ordinary bluestem, $1.22; Big Bend bluestem, $1.25; Turkey red, $1.10@1.16; red Russian, $1.06.

Bearish Government Crop Report Sets Back Chicago Wheat

Chicago, Sept. 9.—There was little feature to the wheat trade today and price changes were of little consequence. There was a setback at the start on local selling based on the bearish government crop report. Commission houses with seaboard connections bought on the dip and caused a little rally, but Northwest selling kept the undertone easy. The support was present on every dip. Export demand was inactive, according to Seaboard advices. Winnipeg advices indicate that the Canadian railroads will run 100 car trains in the West to rush wheat to terminals, owing to the prospects of a strike by railway employes. Winnipeg premiums were 2c on cash wheat. Minneapolis reported a good demand for the best grades at unchanged premiums. Shipping sales were 55,000 bushels, including 40,000 bushels for export. The market closed at the top on covering by pit shorts, and resting spots were unchanged to ½c higher. September, $1.01¼@101¾; December, $1.02⅜@1.02½; May, $1.07½@1.07⅝.

Corn had a sharp break at the start, but the market rallied during the subsequent trading, recovering the loss. The break-up in the drouth and the fact that the government crop figures were larger than estimated caused general commission house selling. Local bulls bought on the break and there was commission house support. Cash corn was unchanged, with the demand not so good. Offerings to arrive were fair. The market closed ⅛c to ¼c higher; September, 62⅝c; December, 57⅞c; May, 61⅝c.

Oats were easier. Western houses sold May, and there was agood commission house selling of December early. Shorts covered on the break. Cash demand was slow. The market closed unchanged, ⅛c off; September, 35⅛@35¼c; December, 35⅛c; May, 38@38⅛c.

Provisions were easier. Smaller packers sold. Lard closed 5c to 7½c lower, and ribs 5c lower.

WALL STREET STOCK QUOTATIONS

Reported by Overbeck & Cooke Co.

Wall Street Journal Financial Review

New York, Sept. 9.—U. P.)—Bouyance in high-priced rails was again the principal feature of the stock market today. New highs for the year were attained by Atlantic Coast Line, Louisville & Nashville, Illinois Central, Norfolk & Western, Missouri Pacific pfd., and many other representative issues.

Trading in the industrial group was also marked by exceptional strength in many individual stocks, but the movement in this section of the market was less regular because of profit taking and professional efforts to find the top of the market.

NEW YORK BOND TRANSACTIONS

Reported by The Journal's Wall Street Bureau

Wall Street, New York, Sept. 9.—(U. P.)—Railway securities featured the dealings in the bond market again today.

With Liberties and industrials only moderately active, trading continued heavy in th eforeign government group as well as in the rails, but the day's gains lay for the most part in the latter.

Transactions in Norfolk & Western convertible 6s, a recent leader, dwindled, although this issue was bid up to a new high for the year. Interest was evenly divided between the high grade mortgages, and the speculative railway bonds. Missouri, Kansas & Texas adj. sold around their top level, while Seaboard Airline 6s got up to 70, and the other Seaboard issues, together with the Eries, St. Pauls, 'Frisco Incomes, New Haven 3½s and Alton 3s and 3½s went higher. Delaware & Hudson convertibles crossed par, and the Northern Pacific, Missouri Pacific, Union Pacific and Baltimore & Ohio issues and Canadian Pacific 4s all advanced at least fractionally.

French 7½s among the foreign external loans hardened, and for the first time since their recent decline touched 99. Belgian 8s and 7½s also were stronger. French industrials moved upward, and Dominion of Canada bonds were active and firm, with the 5s of 1931 above par. Liberty bonds were irregular. Central Leather 5s, Mercantile Marine 6s and the Bell Telephone of Pennsylvania advanced slightly.

New York, Aug. 9.—Following is an official list of all bonds traded in on the New York stock exchange today, with prices and sales up to and including the close of the market. Total sales today were $6,653,000, against $14,613,000 yesterday, $4,601,000 a week ago, $5,258,000 a year ago and $4,092,000 two years ago.

From January 1 to date, $3,056,284,000, against $2,100,968,000 a year ago, and $2,568,722,000 two years ago.

GENERALLY GOOD TONE FOR STOCKS

By Stuart P. West

Wall Street, New York, Sept. 9.—The stock market was strong all around again in today's two-hour session. Interest shifted more to the railway list, particularly to the dividend-paying rails. There were a variety of reasons for this.

In the first place, although railroad securities have at no time been weak since the strike started they had been neglected in favor of industrial and public utility issues. Consequently the advance in this quarter Friday and again today was to be looked upon as bringing railway shares into line with the rest of the market, now that the shopmen's strike is on the wane.

Heavy Earnings Expected

In the second place there was a prospect of unusually heavy earnings from coal traffic during the next six months to furnish a special incentive for the buying in the stocks of coal-carrying railroads, such as Reading, Lehigh Valley, Norfolk & estern, Delaware & Hudson and Western Maryland.

In the third place, there was a prospect of what speculative Wall street calls "melon-cutting" to give a special inducement in several instances.

Increase in the Louisville & Nashville capital with a consequent extra stock distribution has long been in view. There was belated recognition today in the sharp jump in Atlantic Coast Line for which, as the owner of a majority interest in the Louisville & Nashville road this recapitalization would mean much. The new high record for Union Pacific drew more attention to the possibility of another distribution to Union Pacific shareowners, of the stocks of other companies held in its treasury, similar to that of over a decade ago.

Low-Priced Rails Slow

Low-priced non-dividend-paying rails were not as a rule drawn along in the advance. Among the industrials there was still a great deal of profit-taking which in the last hour rather checked the advance and brought about some recession in many of the leaders. But as against this operation for the rise went on the Tobaccos, in several of the Motors and in a number of specialties of the type of Iron Products and Austin Nichols.

Foreign exchange rates did scarcely anything one way or the other.

Increasing irregularity marked the close. Baldwin Locomotive and American Locomotive were pushed forward to new high prices, but some of the railway leaders came down a point or more from their top and so did Studebaker, Mexican Petroleum, Standard Oil of California and a few others of the more representative industrials. There was nothing, however, to suggest that the final market was experiencing anything more than the familiar slight reduction due to end-week realizing sales.

NEW YORK COTTON TRADE ERRATIC; CLOSE IS FIRM

New York, ept. 9.—Following a further advance in the cotton market in the first hour today, the usual end of the realizing was encountered and this carried prices down from the top. The market, however, closed firm, with a new gain as compared with the Friday's final of 30 to 40 points.

The early advance was accounted for by further covering accompanied by reports of better trade demand and diminishing pressure of hedge selling by the South.

The market opened steady at a decline of 3 points to an advance of 12 points. Active months soon showed advances of 20 to 25 points on covering. There was some scattered realizing and a little selling by spinners in Lancashire, because they had decided to cut down production.
