the city's garbage through hog feeding. the municipality might do likewise. But pigs is pigs these days, and the city is short of funds to get stock. It might be suggested that there's a fine variety of hogs already in its en-virons. Nominees for admission to the municipal hog farm might well include: The water hog who wastes city water simply because he gets it at a flat rate; the parking hog, who locates his car so as to shut out the other fellow when there's plenty of room for both if he'd only use his bean; the time-consuming hog who monopolizes the mayor's time his outer office is full of folk wait- enough to reach the parking spaces ing for only a few moments with his in front of their homes at numerous honor; the telephone hog, who drops times during the summer, even when into the city hall offices and uses desk this was tried out at various times of phones to transact a lot of private day. The blame lies mainly on the conversation; the electric light hog at "water hog." who turns on the water the city hall, who never troubles to and lets its run indefinitely, simply turn off the light, because the city because he gets a flat rate on its pays the bill-and the list might run use.
