HE DOESN'T WAN'L & "ROOM"

This young man does not want merely a 'furnished room.' He wants a bome, some place where he can be one of the family, where he can have dreakfast, and possibly d.nner.

If there's a big table and a deep. comfortable chair in the place this young man is thinking about, his young man is thinking about, his works he like to have some place to put his elbows; when he **reads** he doesn't like to feel that his backbone is wearing through his coat.

He doesn't mind riding in street cats but he would much rather be able to walk back and forth to bus

If he can start from your home every incrining he will be very shift to discuss the necessary arrangement-with you. Address him st. 195. Journal
