Alkali in Shampoos Bad for Washing Hair

Most soaps and prepared shamsoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle. The best thing to use is Mulsified cocoanut oil shampoo, for this is pure and entirely greaseless. It's very cheap and beats anything else all to pleces. You can get Mulsified at any drug store and a few cunces will last the whole family for months.

Two or three teaspoonfuls of Mulaffied in a cup or glass with a little

It makes an abundance of rich,

The fact that the average daily prison population during the past 22 months was 386.8, as compared to an average prison population of 267.7 for the preceding biennium, makes the long record without escapes even more remarkable. The screen play is massively constructed, beautifully photographed, brilliantly acted, historically faithful and gigantic in scope. Better than 110,000 people were employed in the cast, which gives some idea of its mammoth pro-portions. It is a Paramount picture and when showed in New York elicited the general praise of all of the motion picture critics. Mr. Metager considers imself fortunate in securing it for Portland. It will be put on at the Rivoli immediately following "The Prisoner of Zenda." Salvatore Santaella, the musical director, is already preparing a special musical score to accompany the big production. This is the third big super-feature to be an nounced for the Rivoli within the month and it is the working out of the policy proposed by Mr. Metager this summer to secure the biggest possible and best pictures for his house consistent with the idea of providing good clean films for his patrons.

Brain Power Seen as Factor Capable of Reaching Heights

Brain power, which, if properly harressed, would make the world take notice, is running wlid in practically everybody in Portland, according to George Cromwell Blower, psychoanayst and vocational advisor, who gave the first of his series of free lectures on "Harnessing Your Brain Power," before an audience which filled the auditorium of the Lincoln high school Saturday evening.

In an effort to impress upon his

earers the importance of knowing the truth about themselves. Blower urged them to take an invoice of themselves and then to set about cashing their possessions and their possibilities.
