

TOMATO PRICE IS STILL DROPPING

Although tomatoes can be purchased as low as 20c per box. Commissioner Bigelow is still allowing dealers in the Yamhill public market to charge 4c per pound. The fancier tomatoes are bringing 30c@35c per box, but the vegetables that are not so firm are going freely at 20c@25c. Consumers who want tomatoes for canning are advised to get them now, because although they will be coming in for quite awhile yet, they will never be any cheaper, if as cheap as they are now.

The maximum price quoted for cauliflower on the market at present is 25c per head, but very few dealers are asking over 15c. The smaller heads are going at 10c and even two for 15c. Most of the heads are of the larger variety.

All vegetables usually sold during the summer are still in abundance on the market, although it is getting quite late in the season.

Retail prices generally show:

Butter—Fresh creamery 48@52c.
Eggs—Salmon, 12 1/2 @ 25c; halibut, 25c; black cod, 10 @ 12 1/2c.

Claim 75 Farmers Will Participate in Market Venture

Estimates Thursday were that fully 75 farmers would participate in the new market being established at Second and Alder streets, offering their own products of orchard and garden.

Although this is a private venture, it will, in a sense, compete with the Yamhill public market which similar arrangement of stalls, although similar arrangement will be under roof and arranged along an arcade through the block.

Advantages of the farmers' market over street markets, as explained by the promoters, are that the block is surrounded by city carlines and adjacent to interurban lines, with ample space for buyers shut off from sun and storm.

It was announced Thursday that farmers are bringing products from as far as Hood River and Grants Pass.

Oregon Apples to Grace Dining Cars Of N. P. Railroad

Apples from the Hood River and Yakima valleys will be featured in the dining cars and hotels of the Northern Pacific railway system this year on the same scale that made the "Big Baked Potato" famous on the line for many years, according to announcement made Thursday by L. K. Owen, superintendent of the dining car service.

Owen came to the Northwest on his annual apple and potato purchasing trip and reported that the Northern Pacific will take 5000 boxes of apples from Oregon and Washington to store in its own refrigerating rooms this year.

"We are picking only the choicest apples to be found in the country and have been making a survey in preparation for the apple service feature which has proven to us that the best apples are to be found in the Hood River and Yakima valleys," said Owen.

As a part of the campaign for the apple feature the dining car department has prepared 11 special ways of preparing the fruit. Through this feature the Northern Pacific expects to draw the attention of tourists to the prime quality of fruit produced in the Northwest. The varied methods of preparing and serving this product will be emphasized.

Owen formerly was dining car superintendent for the S. P. & N. with headquarters here. The Northern Pacific dining car department is the largest maintained by any railroad in the country.

SKAGGS Cash stores

Money saving UNITED STORES stores

The difference between what the producer gets for his product and what the consumer pays for it has unquestionably been too great. In spite of that fact, you see very few retailers getting rich. Waste accounts for it. The cost of doing business in the average, individually operated store is too high. SKAGGS STORES' system is doing much to eliminate that waste. Here is just one saving: In 100 average stores there would be 100 buyers. For the more than 100 SKAGGS STORES there are 5 buyers. One-twentieth of the buying expense! We make many other savings proportionately as important, and our patrons get the benefit.
