

### 20,000 VETS OF CIVIL WAR MEET IN ANNUAL CAMP

Des Moines, Iowa, Sept. 25.—(U. P.) Twenty thousand Civil war veterans here for the 56th annual G. A. R. national encampment, will be officially welcomed to the state and city tonight by Governor Kendall and Mayor Garver.

L. J. Kron, department commander of Iowa, will also greet the throngs of old soldiers, while short speeches will be given by heads of the auxiliary organizations.

Robert W. McBride, senior vice commander in chief, is scheduled to deliver the official response.

Meetings of the committee on credentials, the executive committee of the national council of administration and the national council were held during the day.

Every incoming train added its quota from all corners of the nation to the 17,000 veterans who had arrived by last night.

Besides the Grand Army men there were large delegations representing the Women's Relief Corps, the Army Nurses' association, Ladies of the G. A. R., Daughters of Veterans, Sons of Veterans and Sons of Veterans' auxiliary.

A holiday spirit reigned throughout the city. Flags and banners overhead and from countless windows flashed a greeting to the blue-clad war heroes of an almost departed generation. Hundreds of automobiles carried placards inviting the city's guests to "hop in."

Reception committees flocked to every arriving train. Park benches lined the sidewalks for the comfort of the aged soldiers.

Pasadena, Cal., San Francisco and Milwaukee are actively in the field for the 1922 encampment.

The question of a successor to Commander in Chief Lewis S. Hitcher of Brooklyn, N. Y., is already being discussed everywhere the veterans gather. One of the early booms launched is that of Judge J. W. Willet of Tama, Iowa, whose friends have begun a campaign.

### G. O. P. CHEMISTS ON JOB MAKING FORMULA

(Continued From Page One)

Its labors will not be made public until laid before the full convention tomorrow.

Generally speaking, however, it is started by Chairman Toose that the subjects that have been submitted to and are being considered by the committee cover taxation, the franchise, the circulation of initiative and referendum measures, praise of the national administration and various other kindred political subjects.

**DIRECT PRIMARY**

It is also understood that the question of committing the party to revision of the direct primary nominating law is being given consideration and will be laid before the convention in the report of the committee.

Indications are that the convention will be well attended, it being the expectation that upwards of 300 politicians will be present to participate in its deliberations. The delegates will consist of party leaders holding public office, nominees of the party for public office, the national committeemen, members of the state and county central committees and some others whose past connection with the party councils entitle them to seats on the floor.

It is planned that Walter L. Toose, state chairman, will call the convention to order, and C. E. Ingalls, secretary of that organization, will serve as temporary secretary pending permanent organization.

United States Senator Miles Poindexter will address the convention during its session tomorrow.

### Republicans Frame State Platform

Five members of sub-committee of the state central committee of the G. O. P., snapped today before they set about writing the platform and statement of the party's intention that will be presented for approval to the Republican conference Tuesday when it meets here. From left—C. E. Ingalls, Corvallis, secretary; George A. White, Salem; Bruce Dennis, La Grande, chairman; K. K. Kubil, Portland, and T. T. Bennett, Marshfield.

### Bend Woman Dies; Poisoning Due to Alcohol Suspected

Bend, Sept. 25.—An inquest into the death of Mrs. W. J. Mahoney here, Sunday, will be held today. Alcoholic poisoning is suspected. Her husband is in the hospital, on the verge of a nervous breakdown, and suffering from symptoms similar to those complained of by Mrs. Mahoney just before her death. He has given the police the name of the man who sold them the last supply of moonshine liquor, but the man has not been arrested.

Mahoney called the police station early Sunday morning asking that a police officer be sent to his home. Police Officer Carlton found Ed Crane there and arrested him, after going home to get his star. Crane is held on a charge of disorderly conduct and resisting an officer. City Physician C. A. Fowler was sent to the Mahoney home and found Mrs. Mahoney able to talk. She said that she had been suffering from attacks of nausea for several days. Dr. Fowler sent her medicine, but Mrs. Mahoney died before its arrival.

Acute dilation of the heart was given as the immediate cause of death. Police officers say they found evidences of a prolonged debauch and hold the theory that Mrs. Mahoney was also a drug addict. The Mahoneys have one son.

### Bride and Groom. In Auto Accident; Luck Is With Them

A bride and bridegroom, just starting on a honeymoon, were given a rough reception into married life Sunday night when the automobile in which they were riding turned over while attempting to round a corner in Oregon City. The automobile was

### New Commander of Western Recruiting Station Is Visitor

Colonel H. H. Kipp, new head of the Western recruiting division of the marine corps, with headquarters in San Francisco, is at the Hotel Benson today during the course of the first visit he has ever made to the Northwest.

Colonel Kipp is on a trip of inspection of his new territory. Incidentally, he was at Pendleton for the Round-Up. He was transferred from the Philippines, where he had been stationed for two years, to his new post.

"I like the West and am going to bring my family out as quickly as I can," he said.

Sergeant E. B. Berryman, in charge of the recruiting station at Eugene for the last two years, has taken the place of Sergeant Davis as publicity man for the recruiting station here. Davis has left the service.

### ALBANY SCHOOLS OPEN

Albany, Or., Sept. 25.—With an enrollment that promised to break all records, Albany's public schools opened today. Of the 56 teachers, 11 are new.

### "It's my turn to Valspar now!"

IT'S so easy! Anyone can do it! A smooth sweep of the brush—and immediately the pattern shines forth like new.

And Valspar does more than beautify. A coat of this tough, durable varnish gives Linoleum, Congoleum or Oilcloth a sturdy, protective surface that greatly prolongs its life. It fortifies

these floor coverings against wear. It makes them proof against spilled liquids, hot or cold—even against hot greases.

In the same sure way, Valspar protects and beautifies floors and furniture—wood-work of all kinds, indoors and out. A Valspared surface firmly resists water, weather and "accidents."

Anything that's worth varnishing—is worth Valsparing.

### EIGHT-HOUR LAW UP TO HIGH COURT, LABOR MEN TOLD

Salem, Sept. 25.—Should the supreme court of Oregon affirm the decree of Judge Eakin of the Clatsop county circuit court in the case of Tierney vs. Tierney, Oregon's eight-hour law will be virtually nullified, in the opinion of W. H. Fitzgerald, chief deputy labor commissioner, speaking for Labor Commissioner Gram before the State Federation of Labor at its opening session here this morning.

Gram, who has been under the care of physicians for several months, was unable to appear before the convention today.

The case referred to by Fitzgerald involved the right of men employed in highway construction work to collect compensation for overtime work. In the decree of Judge Eakin, according to Fitzgerald, no judgment could be had against Tillman compelling payment for overtime because the act was a violation of the eight hour law and the employer was as well as the employer had been party to the unlawful act.

### LAWYERS DISCUSSED

Labor laws generally were discussed by Fitzgerald, who pointed out numerous weaknesses in statutes now in effect.

A welcome was extended to the labor delegates assembled here for the annual convention this morning by Mayor George A. Heiverson and State Treasurer O. P. Hoff, former state labor commissioner, also addressed the convention, as also did C. O. Young of Tacoma, Wash., fraternal delegate from the Washington federation and general organizer for the American Federation of Labor.

The Oregon workmen's compensation act will be up for discussion as a special order of business this evening. The meeting will be open to the public. This announcement was made following a session of the executive committee of the federation here yesterday.

**MARSHALL TO TALK**

Special interest attaches to the compensation act in this state at this time with the biennial session of the legis-

lature approaching and the casualty insurance companies laying their lines for amendments to the act which would tear down the exclusive state fund feature, which is regarded by friends of the act as the mainstay of the Oregon law.

William A. Marshall, chairman of the industrial accident commission, is to address the meeting on the workings of the Oregon act in comparison with compensation provisions in effect in other states and the cost and benefits of casualty insurance for workers.

**GOING TO CORVALLIS**

Featuring the annual convention of the state federation which opened here this morning will be consideration of the injunction secured by Attorney General Daugherty against striking railroad shippers and organization and education work carried on by the state organization.

Resolutions to come before the session will probably be introduced today, it was stated, in order to permit of consideration by the delegates before they are acted upon.

The convention will adjourn to Corvallis Tuesday morning for business session and a tour of inspection of the plant of the Oregon Agricultural college.

It is expected that not less than 100 delegates representing labor organizations in all sections of the state, will attend.

### Penny Store Heads To Open Convention In Portland Friday

A buying convention of the managers of 37 J. C. Penny company stores in Montana, Idaho, Washington, California and Oregon will be held in Portland, opening Friday. The Penny company has 37 stores scattered throughout the country.

J. C. Penny, founder of the chain of stores, now chairman of the board of directors, E. C. Sams, president of the company, and J. M. McDowell, head of the merchandising department, will be here Friday and Saturday will be given over to business sessions, and then, beginning Monday and lasting all of next week, the store managers will meet with the company buyers for conferences.

Two weeks ago a company convention opened in St. Louis, a little later in Montana, Idaho, Washington, California and Oregon will be the final one. The company officials and the buyers move from one convention to another.

The meetings here, which will be held in the Multnomah hotel, are being

### Barber Believes in Pigeon Rain Hunch, Despite U. S. Expert

When the weather man predicted rain for Sunday, the barber downstairs looked at the pigeons sitting on the ridge of the church roof across the street and nodded his head in approval of the forecast, but both were wrong, for the sun warmed up and sent the mercury up to a maximum of 83 degrees.

Today the weather man said it was not his fault that the storm off the Alaskan coast had not continued its movement toward the Oregon coast and predicted that another period of fair weather would be allotted the city before the storm finally arrives. But the pigeons, disdaining to alibi themselves, continued to sit upon the ridge of the church across the street and the barber downstairs said that was a sure sign of rain.

### Suspect Vagrant Of Being Holdup

Tony Tolich, recently from Seattle, was arrested as a vagrant Sunday by Patrolmen Nelson and Ferry at Sixth and Burnside streets, and when the police searched him they found a gold watch stolen Saturday night from Fred Gover, No. 925 East Gilliam street, when he was held up in the east side freight yards. The police held Tolich as the suspected holdup man, as he is said to partly answer the description given by Gover. Gover reported he lost \$48 in cash, but Tolich had only 12 cents in his pocket when he was taken into custody.

### British Destroyer Sinks; Eleven Drown

(Special Cable to The Journal and Chicago Daily News)

(Copyright, 1922)

Constantinople, Sept. 25.—The British destroyer Speedy collided Saturday night with a barge and sank in seven minutes. Ten men and one officer were drowned.

### A Revelation

The prettier teeth that show when you are successfully combating film

Do you realize that men and women—millions of them—have found a way to whiter, prettier teeth?

Look about you. Note how teeth glisten now—teeth which once were dim. So it is everywhere. Careful people of some fifty nations now use this new method, largely by dental advice.

If you don't know this method, we urge you to make this test. Watch the delightful results. You will see and feel some new effects you would not go without.

### Combats the dingy film

One object is to fight the film on teeth, that viscous film you feel. It clings to teeth, enters crevices and stays. Food stains, etc., discolor it, then it forms dingy coats. Tartar is based on film.

Film also holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. Germs breed by millions in it. They, with tartar, are the chief cause of pyorrhea.

Under old methods, all those troubles were constantly increasing. Few escaped some film-caused trouble. Beautiful teeth were seen less often than today. All because the ordinary tooth paste cannot effectively fight film. And film is the cause of most tooth troubles.

### A new dental era

Pepsodent, in essential ways, means a new era in dental hygiene. It does more than fight film. It multiplies the starch digestant in the saliva. That is there to digest starch deposits which may otherwise ferment and form acids.

It multiplies the alkalinity of the saliva. That is there to neutralize mouth acids, the cause of tooth decay.

Old methods brought just opposite effects, due to soap and chalk. So this new way means a vast increase in Nature's tooth-protecting forces in the mouth. Now, those forces fight the enemies of teeth.

Created to bring five new effects, now regarded as essential. Leading dentists the world over now advise its daily use. All druggists supply the large tubes.

### Free

A 10-Day Test

To show what Pepsodent does. Simply mail the coupon.

Then you will know that there is a way to new beauty, new protection, and no one in your home will neglect it.

Send coupon now.

### Note Men's Teeth

See how they glisten now

Men who smoke are now using Pepsodent to combat the smoke-stained film. You will see the results if you look. Those whiter teeth mean safer teeth as well.

To children Pepsodent has brought new protection. It is helping them avoid the troubles which their parents may have suffered. Under old methods, scarcely a child avoided film-coats and decay.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear.

That test will convince you that this method should be used by you and yours. Cut out the coupon now.

### 10-Day Tube Free
