

GERMANY TO PAY U. S. RHINE DEBT BY USE OF DYES

Washington, Sept. 27.—Germany's debt of \$250,000,000 for maintaining the American army of occupation on the Rhine is to be paid by means of dyes, under a plan worked out and approved by the reparations committee, the International News Service learned today.

The plan provides that the American share of the dyes shall not be paid in cash, but shall be credited upon the German account for the cost of maintaining United States troops in the Rhineland.

The allied governments have consented to the proposal, notwithstanding the fact that they raised strenuous objection when this government suggested some months ago that the United States expected to be compensated for the cost of maintaining the army of occupation before any payments were made on general reparations.

The situation with regard to German dyes is very complicated while the peace conference was in session at Paris, negotiations on this subject were conducted at Spa, it being decided that 25 per cent of all German dyes should be turned over to the allies. Of this amount the United States was to receive one fifth, it being agreed that this government should pay for the dyes at market prices. The other allied governments were to receive their shares without payment, the amount to be credited on the German reparations account.

These dyes have been delivered to the United States and distributed through the textile alliance, a voluntary body which operated for the good of the American dye-using industry and without profit.

Mrs. Lee Davenport, George White and J. D. Stevens also spoke briefly.

Car Loading Gains, Declare Railroads

Washington, Sept. 27.—(I. N. S.)—More cars were loaded with freight during the week ending September 18 than in any week since October 1, 1921, according to figures made public today by the Association of Railway Executives. The total for the week was 845,915 cars, exceeding by 113,175 cars the loading for the previous week, which were below normal owing to the observance of Labor day.

this late hour. I suggest that Mr. Lee draft a separate resolution covering the question."

CONVENTION ADJOURNS

Lee's motion was lost, and the convention adjourned sine die.

During the afternoon session Senator Miles Poindexter of Washington made an extended address. He said that the Republican party was not perfect, no human organization could be, but he liked it because it was the best party there was.

He advocated the deportation of aliens who came to America and attacked the form of government.

He said the greatest service the Republican party had rendered the American people—except when it won the Civil war—was the separation of the League of Nations from the peace treaty and thus saved the sovereignty of the United States.

Poindexter said some strong words in reference to organized labor. Labor organizations, he said, had done much good for the country. The man who quits his job has that right, he con-

Membership of L. L. L. Shows Good Increase

Increase in membership of the Loyal Legion of Loggers and Lumbermen has been materially stimulated during the past three months by a revival in lumber production throughout the Northwest, according to Norman F. Coleman, president of the organization. Demand for skilled and unskilled labor is keen and virtually all of the membership of the legion is employed in the mills and logging camps, Coleman stated, approximately 16,000 being employed in the two districts in Northwestern Oregon comprised in the territory north of Eugene and west of Hood River.

The minimum wage provided by the legion is \$3 per day, but most of the mills and camps are paying from \$3.20 to \$3.60, Coleman stated.

The annual meeting of the board of directors of the Loyal Legion will be held in Portland in November and delegates representing the Western Oregon districts were chosen at a recent meeting as follows: District No. 2—Employers, M. C. Woodard of Silverton and Thomas B. Watt of Silverton; employees, W. B. Smith of Port-

land, J. J. Dumas of Brighton, C. E. Benson and D. D. Miller of Silverton; District No. 3—Employers, E. D. Kingsley of Linnton, R. H. Noyes, F. H. Ransom, H. H. Jones of Portland and J. W. Thompson of St. Helens; employees, W. A. Pratt, R. J. Coates and J. J. Drill of Portland, O. Atwood of Astoria and L. J. Ramsey of St. Helens.

One New Case of Typhoid Reported

One new case of typhoid fever was reported to the city health bureau today, that of Mrs. Standley Fawrycki, who came from Oshkosh, Wis., and who is at the Good Samaritan hospital. This makes a total of 17 typhoid cases for this season, with two deaths.

Dr. John Abele, assistant city health officer, will make a survey of all typhoid cases this week, classifying information thus gathered as to where the disease was contracted and under what conditions. In nearly all cases the patients have contracted the disease outside of Portland.

"LOVE NEST" OF SLAIN PAIR IS BEING SOUGHT

New Brunswick, N. J., Sept. 27.—(I. N. S.)—Systematic search of hotels and apartments in New York in an effort to locate the "love nest" which Rev. Dr. Edward Wheeler Hall and Mrs. James Mills are believed to have visited or occupied during frequent pilgrimages to the metropolis was begun today by county authorities investigating the dual murder of the rector and his choir singer.

The belief that Dr. Hall made a rendezvous in New York where he and Mrs. Mills spent many hours on numerous occasions arises from the discovery that the couple made frequent journeys to New York together. These trips were clandestine and did not become known to relatives until after the slaying. Officials intimated the possession of evidence as to the location of the "love nest," but refused to divulge it. Jealousy is now accepted by County Prosecutor Stricker and his aides as to the motive of the crime.

Working on this theory, they have begun careful check of persons who might have had reason for being envious of Dr. Hall and Mrs. Mills. When these persons are found an investigation of their activities on the day of the tragedy will be undertaken.

Investigators maintained silence today as to the result of the grilling undergone yesterday by James Mills, husband of the slain woman. They would not confirm reports that discrepancies in his story had been discovered.

An effort to learn the disposition of a legacy of \$10,000 left to Dr. Hall several months ago by his wealthy mother-in-law is being made by the officials.
