

# First Photograph to Show Burning of Smyrna

This picture shows the burning of Smyrna, which fell into the hands of the Kemalists forces after their triumphant march through Asia Minor. Thousands are believed to have died in the city, while added thousands fled for their lives.

## NEAR EAST ARMISTICE TERMS MAY BE SIGNED

(Continued From Page One)  
The success of the secret conference apparently hinges on this point. Britain, it was understood here, would agree to immediate evacuation of what was formerly "Turkey in Europe" until the Ankara government replies to the allied peace note requesting a showdown. This reply should be received today or tomorrow. But nothing definite is known.  
Correspondents in Constantinople have once more been forbidden to attempt to proceed to the seat of the conference. Whatever develops at Mudania may be made public only through official channels here.

**GREECE CALLS MILITARY CLASSES OF 1917 AND 1918**  
London, Oct. 4.—(U. P.)—Greece has called up for possible resumption of

war the military classes of 1917 and 1918 and has instructed her delegates to Mudania to reject any proposal for evacuation of Thrace, according to a News Agency dispatch from Athens today.

The new Greek generalissimo, Nider, departed from Thrace this morning, according to a United Press dispatch direct from the Greek capital. Indications are that the Greeks will once more wage war against the Turks unless permitted to retain positions in the Thracian basin east of the Maritza river.

In a letter to the Times today, former Premier Venizelos protests against the proposed handing over of Eastern Thrace to the Turks. The allied commanders have called Greece's attention to the importance of restraining her troops from clashing with the Turks. They have received a protest from Mustafa Kemal to the effect that Greeks in Thrace are pillaging and burning.

**VENIZELOS APPEALS TO U. S. IN WITHDRAWAL FROM THRACE**  
London, Oct. 4.—(U. P.)—The allies

must occupy Thrace to prevent widespread Turkish massacres when Greek troops withdrew, former Premier Venizelos of Greece informed American

Ambassador Harvey in a conference today. Venizelos asked Harvey to inform Secretary of State Hughes in Washington of the situation and suggest that he press upon the allies the necessity of such occupation. It was authoritatively stated Harvey forwarded Venizelos' plea to Hughes. Harvey will confer with Foreign Minister Curzon this afternoon to ascertain his reaction to the proposal. Venizelos admitted to Harvey that the Greek evacuation of Thrace was inevitable, but laid stress on the urgent necessity of allied soldiers marching in as the Greeks march out, to stop the Turks from massacring a million Christians.

### AMERICANS AID IN CARING FOR REFUGEES AT SMYRNA

London, Oct. 4.—(U. P.)—Evacuation of all Smyrna refugees was completed last Sunday within a few hours of the time limit set by the Turks, the foreign office announced today.

Between 180,000 and 190,000 persons were removed to the little islands in the Aegean sea and the Gulf of Smyrna, mainly due, the announcement said, to efforts of American relief workers, who also arranged for food and supplies at the island of Mitylene and elsewhere.

In addition to American ships transporting 10,000 refugees, America assumed charge of Greek ships which removed a great majority of the sufferers. Eighty thousand Greek refugees are on Mitylene island and 12,000 at Marmora.

### VENIZELOS SAYS GREEKS WOULD GIVE UP THRACE

(Special Cable to The Journal and Chicago Daily News)

Paris, Oct. 4.—M. Venizelos announces this morning that Greece will give up Thrace to the Turks if sum-

moned to do so by the allies. A secret pledge to this effect is said to have been exacted from Athens before Venizelos consented to represent the new Greek government.

**APPEALS TO U. S.**  
London, Oct. 4.—(U. P.)—Eluth-

erios Venizelos, representing the Greek revolutionary government, today requested the United States, through Ambassador George Harvey, to support the Greek proposal for allied occupation of Thrace until the Christians have evacuated the disputed territory.

## CABLE RECEIVED HERE TELLS OF SMYRNA MISERY

Dispatches concerning the Smyrna situation is contained in a cablegram received this morning by J. J. Handaker, state director of the Near East relief.

Although the Turks had decreed that all the Christians remaining in Smyrna Sunday morning should be deported, Near East relief workers were still moving refugees last Monday night. Thirty-six thousand were moved on Friday to Greek territory. Friday night other thousands straggled into the ruined city. These had been hiding in the hills behind Smyrna waiting to see the boats reduce the numbers on the quay before venturing into the open. Many other thousands are just arriving from the inland villages and these report that multitudes are dying on the roadside from exhaustion. Unless there is further influx of fugitives the Americans believe they can move those in the city in the next four days.

Sixteen hundred sacks of flour has been landed on Mitylene, but these must be divided among more than 100,000 refugees. A shortage of water adds to the suffering. Typhoid is claiming many victims. Children who are separated from their parents wander crying through the streets and hysterical mothers are searching for them. New-born infants are dying in their mother's arms.

Registration bureaus have been opened at Cavalla, Rodosto, Salonica, Athens and Mitylene, in an effort to reassemble families. The confusion is simply impossible to imagine. Will Hays, the movie magnate, has been appointed by President Harding as the national chairman of the Smyrna fund, which will be administered by the Near East relief. President Harding will shortly announce the other members of the committee, including an Oregon representative. Near East relief offices have been designated as the collection agencies for the Smyrna funds. The Oregon office is at 613 Stock Exchange.

## Amnesty Is Offered Rebels of Ireland

Dublin, Oct. 4.—(U. P.)—The Irish provisional government today issued a proclamation granting amnesty to all rebels who lay down their arms by October 15. By a vote of 50 to 7, the Dail Eireann defeated the constitutional amendment evading vote of the allegiance to King George by Irishmen.
