Silks Braids Play an Important Part in the Autumn Mode

An interesting arrangement of black silk braid woven in dull and lustrous alternating squares makes smart a frock of cocoa brown Cheruit twill. The low, widely girdled waist-line is an important fashion feature. The frock illus-trated is developed in tan covert-cloth with wide bands of slik braid slipped through slashes in the blouse and passing under the collar in back. The snug, darted sleeves have a suggestion of cupping flare over the hands, which is em-phasized by three round bone buttons to match the buttons extending the length of the front

Desire makes advice seem good —Old Mother Nature, SAMMY JAY is a blue-coated imp of mischief. Yes, sir, he is just this. He is never happier than when he is

plotting mischief. So when he dis-covered the young Fox who had start-ed out to make his own way in the Great World really didn't know what a rooster was he couldn't let the op-portunity for mischief pass. When he could stop laughing at the &dea of any young Koy wat based young Fox not knowing what a rooster was he flew down a little nearer to the young Fox.

But of course I shouldn't have expected a young Fox to know what a rooster is if he has never tasted-I mean seen-one

At this seeming slip of Sammy's tongue the young Fox pricked up his ears. "Do you mean that roosters are good to eat?" he demanded "I've never tasted one," said Sammy,

"so I cannot say. But I've always understood that among foxes they are considered the finest eating in all the Great World."

Just then the young rooster over in Farmer Brown's henyard crowed igain. The young fex listened eager-ly. "I wish." said he, "that that rooster would come over here, that I might see him."
