GOVERNOR URGES CHANGE IN DATE OF FISCAL YEAR

Olympia, Wash., Oct. 15.—Calling attention to the benefit that would accrue to the farmers through the changing of the fiscal year of the state of Washington...

First—That the legislature might fix the fiscal year, making it uniform throughout the several state departments, and to conform with the federal fiscal year.

Second—That the tax levies might be fixed after, instead of before the meeting of the legislature, in order that the revenues sufficient only to pay appropriations, might be raised.

Third—That by changing the date of the assessment from March 1 to January 1 the meeting of the equalization committee from September to May, the date taxes would become due from February to August...

At present March 15 finds the farmer borrowing money to carry him through the summer, or at best closely budgeting his funds to carry him over...

With the adoption of this constitutional amendment the legislature can rectify this condition. The state equalization committee now meets in September and without knowing what demands the legislature will make upon the taxpayers for funds...

Another objection to the present dates of the fiscal year is that a goodly part of the funds from one biennium are available before the biennium actually begins, and are spent for the expenses of the present biennium...

Appropriations are made for the biennium. The present biennial appropriations were made to cover the expenses from April 1, 1921, to March 31, 1923...

Under the proposed amendment appropriations can be paid only from the revenues of the biennium for which the appropriation is made.
