Phillip Gordon, planist, and Elinor Whittemore, violinist, New York artlets, with the Ampico, which is, it might be said, a living instrument thrilled a large audience at The Auditorium last night with a program of high class music.

The concert was given with the com pliments of the G. F. Johnson Piano company and the Meier & Frank company, who handle the sales of the wonderful instrument in Portland, and the purpose was to give the music lovers a treat and to demonstrate the amazing extent to which the Ampico has been perfected.

Mr. Gordon's contributions last night ncluded some of the most difficult things written for the plane, among them the Liszt arrangement of the overture to Wagner's "Tannhauser," a stupendous work that puts to test all of the equipment of the performer. His presentation was almost sensational. But he had also chosen compositions of romantic and impressionistic order, such as "Beethoven's Country Dance." Chopin's "Ballad in G Minor" and Ravel's "The Fountain" and played them most fascinatingly. Miss Whittemore draws a large, rich

violin tone, full of music and expression, and her double stops were remarkably true and even. Such favorites as Korsakoff's "Hymn to the Sun," the Wilhelmj arrangement of Chopin's "Nocturne," Kreisler's "Old
