

TURKS TO BREAK SILENCE AGAINST TERMS

(Special Cable to The Journal and Chicago News Service, Nov. 22.) Lausanne, Switzerland, Nov. 22.—The Turks have announced their intention of breaking their silence.

There is a united front against us, and we must oppose it with a united front, they say. Having heard that they have decided to cast their lot with the Russians, who will arrive in Lausanne on Sunday.

The declaration of the American position in the Lausanne conference made by Richard Washburn Child, ambassador to Italy, during the last active session, has not satisfied the other delegates.

There is a growing desire to know just how the United States stands and what developments might cause the American delegation to assume. There is a feeling that the United States at last is about to depart from the observing policy and in some way take an active part in the proceedings.

U. S. IS CO-MEMBER In his declaration Ambassador Child explained that the American delegation reserves the right to be present to be heard in plenary and other sessions, including those of commissions and committees, and to be heard on equality with the other members without the right of voting, assuming obligations, taking office or becoming signatories of agreements or reports.

In conversations with members of the various delegations one gains the impression that the United States is a welcome co-member with important interests at stake. The Greeks say that they are extremely glad the United States is represented, partly because it is hoped that they will be able to secure protection for minorities and will continue relief measures and partly because they obtain a moderation of the peace terms.

There are two American representatives—Ambassador Child of New York and Joseph C. Green, Boston, the minister to Switzerland. Rear Admiral Mark L. Bristol, who is expected here next Saturday, will be an associate representative.

Lamont Bell of Scranton, Pa., second secretary of the Swiss embassy, is secretary of the special mission attached to the American representatives. The other members of this mission are: Harry Wright, assistant chief of the Near Eastern division of the state department; Howard Shaw, Boston, first secretary of the embassy; Copley Amory of New York, second secretary; Lewis Heck, New York, third secretary; Nathan Medafsky of Portland, Or., chief clerk at Bern; George Fleming of Kansas City, Mo., vice-consul at Basle, and Charles Cunningham, Ala., clerk of the Paris embassy.

Klan Is Menace Governor Olcott Wires N. Y. Paper

Helena, Nov. 22.—No greater menace confronts the United States today than the "monster of invisible government" represented by the Ku Klux Klan, according to Governor Olcott, whose sentiments in this connection is expressed in a telegram to the New York Tribune.

The telegram to the Tribune is in reply to an inquiry as to the Klan situation in this state and as to Governor Olcott's readiness to respond to the appeal of Governor Parker of Louisiana for cooperation of all governors in suppressing the Klan.

The Klan has been and is an active menace in Oregon, Governor Olcott's telegram reads. "The power of this office has been directed against it in every legal manner. In a proclamation some time since I declared it a menace. Illegal acts and outrages have been traced to its nefarious influence in this state if not actually perpetrated by its membership. No possible stone will be left unturned by me as long as I am governor to put the forces of law and order against these masked forces of darkness and secrecy."

"I believe no greater menace confronts the United States today than this monster of invisible government. It should be curbed or it will lead us into pitfalls and possible ruin. The time has come for true Americanism to assert itself in a nationwide battle against this political iniquity."
