Community Chest Facts

Quota . . . \$648,329.00
Tuesday . . . \$380,412.00

When you sit down to Thanksgiving dinner With loved ones around you

And friends

And good things to eat,

Will you,

When you list the things for which you are thankful—

Health,

Prosperity,

Hope,

Love—

Add this to the list?

"I am thankful because I have made some one else thankful by sharing my blessings.

"I have given

"Through the Community Chest

"To protect motherless babies,

"To feed the hungry,

"To shelter the aged,

"To care for the sick,

"To bring a new faith in human kindness to someone robbed by adverse circumstances of ability for self-support, deprived of the routine blessings I take for granted, and of joyous expectation for the future."

If you can't say this, can you be truly thankful,

With merely a selfish, self-indulgent Thanksgiving?

You still have a chance.

Give to the Community Chest today.

Make tomorrow a real Thanksgiving.

CHEST CRY ECHO FROM PILGRIMS

From Distant Plymouth Shores Comes Reminder of Portland's Duty in Filling Community Chest; Need More Workers.

By Vella Winner

Never before have the people of Portland had such an ideal opportunity to make real and practical the spirit of the first Thanksgiving by bearing the burdens of the city's helpless, homeless, sick and needy, such as is offered by filling the Community Chest.

After more than a week's campaign there is only \$380,412 in the chest, which must care for all of the city's dependents for a year. Little work is being done and solicitation activities will be entirely suspended on Thanksgiving, but on Friday General E. C. Sammons and Mrs. Victor Brandt, general of the women's division, urge upon the men and women of Portland to put themselves in the attitude of being a part of the campaign organization.

"The few of us who have been heading up the campaign are utterly powerless unless the people of Portland meet us halfway," said General Sammons, "unless they can be made to feel that it is their drive, as well as ours, we will not succeed. For this reason we are asking for new workers, 500 men and women who will be willing to contribute a few hours a day for the next week, to report to headquarters Friday morning, second floor of the old Honeyman Hardware."

TURKS AT PEACE CONFERENCE BALK

Lausanne, Nov. 29.—(I. N. S.)—Angered by the new plans for demilitarization of the Aegean islands, the Turks and the Greek delegation from the sub-commission of the Near East peace conference dealing with the future status of islands off the Turkish coast, today demanded sovereignty over the most important islands, claiming that Greece might attempt to use them at some future time as war bases.

John DeKay, an American, is here representing an Anglo-Franco-American oil syndicate. The syndicate is said to have connections in Anatolia, Mesopotamia and Mosul. Its capitalization is \$150,000,000.

A considerable amount of the syndicate's property was formerly privately owned by the heirs of former Sultan Abdul Hamid. Mr. DeKay is said to have been favorably received by the Turkish envoys.

Boge Suicide Plan Believed Patterned After Dusan Drama

Los Angeles, Nov. 29.—(I. N. S.)—A startling suicide to explain the suicide of Vaden Edwynne Boge, who ended his life by taking poison at a death luncheon in his room at the Alexandria hotel, was advanced today.

At the right time, he would hear a planned his death in imitation of the suicide in Dusan's dramatic play, "The Invited Guest."

In Dusan's play a youth enters a cafe and, although he is alone, orders a dinner served for two. He explains to the waiter that he has invited a guest who will appear later, and the dinner is served.

The youth eats his dinner alone, the empty chair across the table from him with untouched food in front of it. Then, as he finishes, he takes poison and dies.

Boge's body was today sent to Hillsboro, Or., for burial.

Spirit of Thanks Prevails Festival Day Cheer Revived

One who should mount the heights overlooking the city on the west Thursday night look back in the direction from which he had come and see smoke rising peacefully and quietly from some 50,000 chimneys. And if he were fanciful and optimistic, he might picture at the base of each chimney a cheery housewife, mother or even heart bending to peer into a steaming oven, where the family turkey is sitting.

He would notice that the weekday tumult of the city had subsided and the factories were closed. If his hearing was keen enough and he listened at the right time, he would hear a hundred church bells calling the people together for Thanksgiving day worship.

FIGURES RECALLED
In case he was a thoughtful person, he would ponder that this was the truly American day, which had survived and prospered since the nation was founded. He would fancy the Pilgrim Fathers landing on the black coast at Plymouth in November, 1620, and how the next fall, after the first harvest in the New world, they set aside a day for seriously thanking God.

From time to time thereafter, similar days were set aside. Washington

White House Holiday to Be Simple

Washington, Nov. 29.—(I. N. S.)—Because of Mrs. Harding's illness, plans for a regular Thanksgiving observation at the White House tomorrow have been definitely abandoned.

Instead, the president and Mrs. Harding, with possibly a few intimate friends, will pass the day quietly and simply, with no formal festivity of any description. The president intends to spend most of the day in the sick room with Mrs. Harding.

While Mrs. Harding's condition is said by her physician, Brigadier General Charles E. Sawyer, to be continually improving, she is not yet able to partake of solid food or to stand the strain of entertaining friends. For that reason there will be no frills tomorrow.

Despite the president's edict for strictest simplicity, the White House has been besieged with holiday gifts from friends all over the nation. For the Thanksgiving dinner, the president has ordered a turkey, two turkeys, two possums and one 66-pound pig.</
