OWLER had learned the truth of this by experience. He had long ago learned that patience often will win what haste would lose. So when he discovered that Paddy the Beaver and Mrs. Paddy always took the logs across their new dam at a certain point to get them into the Laughing Brook and so down to their old pond where their food pile was to be, he de-cided that this was the one place where he might have a

catching one of them.
"They know that as well as I do, said Yowler to himself. "They know they are perfectly safe while they are the water, and don't even have to watch out. That means that they will be all the more careful and watchful when they do come out of the water. Two of them will be able to watch out better than one. For a while they are going to be very, very watchful when-ever they cross that dam. I would like one of them for a dinner, but a Beaver dinner is as good one time as another, and the thing for me to do is to be patient. If I never show myself or let them know that I am ever anywhere about here they will grow careless after a while. That will be my chance, So Yowler watched and waited night

so Yowler watched and waited night after night. Never once did he show himself. Never once did he make the mistake of hiding where the Wandering Little Night Breezes could carry his scent to the keen noses of Paddy and Mrs. Paddy. The temptation was great, very great, to hide close to that point where they crossed the dam, and try for one of them. But Yowler was try for one of them. But Yowler was too cunning to yield to that temptation. too cunning to yield to that temptation. "They are still too watchful," he would say to himself. "I'll wait until I am sure that they have made up their minds that there is no danger. I've seen Old Man Coyote around here two or three times, and I am afraid that they have seen him too. They are likely to be on the watch for him if not for me. So I must wait until he gets discouraged and gives up trying for them. It takes a lot of patience, but a Beaver dinner will be worth all it costs." Now, even the cleverest people will

make mistakes, and will overlook what make mistakes, and will overlook what may seem like trifling things. It was so with 'Yowier the Bob Cat. Often when he knew that Paddy and Mrs. Paddy were at their house in the old pond he would prowl around that new lam. In doing this he left a footprint in some fresh mud. He didn't notice this. Perhaps he wouldn't have thought anything about it if he had. But the next time Paddy came along But the next time Paddy came along that way he saw that footprint at once, and he knew who had made it. There are no footprints like the footprints of Yowler the Bob Cat excepting those of his cousin, Tufty the Lynx. And Paddy knew that Tufty the Lynx was not living in the Green

But the next time Paddy along that way he saw footprint at once.

Forest. Paddy showed that footprint to Mrs. Paddy.

"Yowler the Bob Cat has been here," sald he. "Never once since we started building this dam have we seen him or heard him or smelled him, and J had hoped that he had not discovered what we have been doing. But I feit it in my bones that he had. Now I know it. We mustn't for an instant be careless, my dear. Sooner or later Yowler is going to try and catch one of us crossing this dam. I know it just as well as if he had told me so."

So while night after night Yowler patiently waited, Paddy and Mrs. Paddy worked steadily, but always watchful. (Copyright, 1922, by T. W. Burgess). The next story: "Peter Rabbit Has

He therefore sent a few reinforcements over to help General Putnam soid the village. But unpleasant as it would be to have the Dalies guns from Brooks. unpleasant as it would be to have the British guns firing down from Brooklyn Heights upon Lower Manhattan, it would be still more uncomfortable to have a British fleet come up the East river and make it impossible for the army in Brooklyn ever to get back to New York.
