Weaver, whose name was men-tioned in connection with the alleged conspiracy of a group of White Sox players to throw the series to Cincinnati, declared that no evidence had been produced to support the claim, and asked that his name be cleared. His application was denied.

(Copyright, 1922.) New York, Dec. 11.—It has been agreed by a certain set of clubs in the American and National leagues that some restrictions will have to be placed on the transfer of players from one club to another of the same league after the playing season starts. At a conference of men identified with the National league held here over the week-end to discuss that problem, and while no definite action was taken, it is probable that June 1 will be fixed by the National league as the last day on wheih inter-club deals can be made. Many of the magnates in favor of
