The present mayor, who was at first a member of this executive committee, approved of the selection and drew up a precismation Saturday which virtually invested this executive committee with dictatorial powers superceding the present municipal administration. Just as this committee was starting in with its work the question of the expediency of such action was discovered, since the new municipal administration goes into office January 1.

It was then decided to obtain the approval of the mayor-elect, who seemed willing to sign the proclamation, too, but first wanted approval

## Genuine Bush & Lane Pianos

WITHIN A VERY SHORT PERIOD OF TIME

This will be accomplished through the high quality of this wonderful piano-its present extremely low price and exceptionally easy terms.

We believe there are many reliable men and women right here in Portland today who have long had a sincere desire to own a new, strictly high-grade piane, but on account of the high price and the large first payment, customarily exacted, have put off the transaction from time to time rather than try to be satisfied with an ordinary instrument at a lower price and on easier terms.

We believe this so thoroughly that we have determined to place on sale, for a short time only, this beautiful Style 2, Bush & Lane Piano (an instrument recognized everywhere as one of America's very finest and best), at a price far lower than it has been for many years, and on terms so easy as to exclude from consideration the least possibility of inconvenience.
