Silver is in the saddle and is riding like a beggar. The free coinage bill passed the senate Wednesday by a vote of thirty-nine to twenty-seven. Senator but his argument availed little because it fell on ears that cared not to hear it, mined to have free coinage. Ingalls of Kansas made a bitter speech, arrainging the independent politicians, and the bill of 1873 demonetizing silver, for being responsible for all the evils financial political and otherwise with which the country has to contend, but he voted for the bill and against his own convictions too, in order to appease the wrath of his constituents. There is not much time to work the bill through the house, and it is barely possible that it may get its death blow there. If it does not, President Harrison's back bone is going to get a severe wrench, for it will take gennine grit to veto it. With the present sentiment of the people, we do not believe he will dare do so, and if he does, the republican party will have as hard a fight on their hands as the democracy had on Cleveiands position on the tariff bill.

THE DALLES.

The Gate City of the Inland Empire is situated at the head of navigation on the Middle Columbia, and is a thriving, prosperous city.

ITS TERRITORY.

It is the supply city for an extensive and rich agricultural and grazing country, its trade reaching as far south as Summer Lake, a distance of over two hundred miles.

THE LARGEST WOOL MARKET.

The rich grazing country along the eastern slope of the the Cascades furnishes pasture for thousands of sheep, the wool from which finds market here.

The Dalles is the largest original wool shipping point in America, about 5,000,000 pounds being shipped this year.

THE VINEYARD OF OREGON.

The country near The Dalles produces splendid crops of cereals, and its fruits cannot be excelled. It is the vineyard of Oregon, its grapes equalling California's best, and its other fruits, apples, pears, prunes, cherries etc., are unsurpassed.

ITS PRODUCTS.

The salmon fisheries are the finest on the Columbia, yielding this year a revenue of \$1,500,000 which can and will be more than doubled in the near future.

The products of the beautiful Klickital valley find market here, and the country south and east has this year filled the warehouses, and all available storage places to overflowing with their products.

ITS WEALTH

It is the richest city of its size on the coast, and its money is scattered over and is being used to develop, more farming country than is tributary to any other city in Eastern Oregon.

Its situation is unsurpassed! Its climate delightful! Its possibilities incalculable! Its resources unlimited! And on these corner stones she stands.
