Word was received that the whole affair was a conspiracy on the part of a few men to scare people out of town and move the county seat to the center of the county. Governor Hogg has ordered an investigation."

### NEEDED LEGISLATION.

#### A Bill to Protect the Packers of Salmon From Imposition.

SAN FRANCISCO, Jan. 29.—Salmon packers interested in Oregon canneries are somewhat interested in the bill that is about to be introduced in the legislature of that state, and the provisions of which, it is reported, will also be included in a similar bill to be presented to the California legislature. The bill provides that every person, firm or corporation, who shall pack salmon in any form of barrels, or kits, or in cans, shall at the place of packing or canning mark or brand upon each package, in durable letters, the name of the packer, the place where packed, the date when packed, and define whether the salmon is fall or spring fish. Packages will not be allowed to be removed from the packing house unless these requirements are complied with, under a penalty of \$200 for each and every offense, and also a fine of \$20 for each and every package that is falsely marked. One-half of the fine collected is to be paid to the informer and one-half to the prosecuting attorney of the district. In conversation with some of the cannerymen it was learned that a majority of the packers are pleased with the tenor of the proposed law. Several cases have occurred where second class and poor fish were barreled and canned with marks and labels upon the packages stating the contents to be "Prime Columbia river Salmon." The dealers, upon examination, find the fish poor and of low grade, and the result is that a large number of reclamations are made, causing endless annoyance.

The removal of Priest and Rock Island rapids in the Columbia will open up the route to the Okanogan country. The Captain will start for Pasco tomorrow morning.

### INDIANS AT WASHINGTON.

Sioux and Their Interpreters Carefully Guarded.

WASHINGTON, Jan. 29.—Fourteen Sioux Indians and their interpreters, in charge of separate agents, arrived in Washington today from Chicago. They are carefully guarded at their boarding house, and are not permitted to talk with anyone. No arrangements have as yet been made by Secretary Nobles for a conference with the Indians, but it will probably take place early next week. A delegation of progressive Indians of the Sioux reservation, headed by John Grass, has been directed by the commissioner of Indian affairs to visit Washington to confer with Sioux Indians now in the city. They will join the other delegation in conference next week with Secretary Nobles.

### The Goat-Blood Cure.

PARIS, Jan. 29.—Much interest is manifested in medical circles here in regard to the goat's-blood cure for tuberculosis, advocated by Drs. Barton and Pice, of Nantes faculty. These doctors, it will be remembered, injected fifteen grammes of goat-blood into the thighs of two patients and on Monday asserted in this city that cures can be brought about by renewing such injections every ten days. Today they announce that in the case of both these patients the fever has abated. One of the patients, a woman, whose temperature prior to the injection was 102, showed a decline of two degrees.

### The Force Bill Finally Disposed Of.

WASHINGTON, Jan. 28.—From present indications the election bill has been finally disposed of. The senate steering committee which yesterday arranged the order of business, has provided for nearly all the important measures, but has made no place for the elections bill, and since the declaration of Senator Stanford, as to his position on cloture and the elections bill, the republican managers are quite satisfied that there is no hope for either of these measures, in this congress at least.

The question has been asked, "In what respect are St. Patrick's Pills better than any other?" Report say that a few days ago a man came into the city and made himself very agreeable to one of our citizens, gaining his confidence by which he succeeded in bilking his confidential friend out of \$25, and shortly afterward was missing from the city. In course of a short time he brought up at Bake Oven and stole a horse, and in his wanderings found himself at Mr. Hinton's sheep camp where he endeavored to dispose of the animal, but failed in the attempt. The manner in which he conducted himself led the man in charge of the camp to suspicion something was wrong, which the intruder dropped on and left for parts unknown. Such individuals should be taken in charge.

A prominent physician and old army surgeon in eastern Iowa, was called away from home for a few days; during his absence one of the children contracted a severe cold and his wife bought a bottle of Chamberlin's Cough Remedy for it. They were so much pleased that they afterwards used several bottles at various times. He said, from experience with it, he regarded it as the most reliable preparation in use for colds and that it came the nearest being a specific of any medicine he had ever seen.
