The Silver Pool Scandal.

CHICAGO, Feb. 9.—B. A. Owenby, a silver pool witness, has returned from Washington today. He threatens to bring suit against the sergeant-at-arms of the House and others who he holds responsible for his arrest. In an interview he said he had a great quantity of evidence that he was not permitted to give which would have shown that he and Donald, the New York broker, had an explicit understanding. Owenby declared that a member of Congress from Nebraska, whose name he gave, was offered \$2500 not to testify as to the facts known to him in regard to the pool.

It is News to New.

LONDON, Feb. 9.—John C. New, U. S. consul here, was asked by an associated press representative, if there is any truth in the statement that President Harrison had cabled New to return immediately with a view to conferring the Treasury portfolio upon him. New said: "I have not received a message from President Harrison, and I know nothing about any proposition to offer me the treasury portfolio."

About 10,000 miners went out today and will be followed tomorrow by 6000 coke drawers. The strike is against a reduction and for advanced wages of 12½ cents per ton. A long struggle is inevitable.

WINDOM'S SUCCESSOR.

It is Possible a Pacific Coast Man May Be Appointed.

WASHINGTON, Feb. 7.—News that Harrison has decided upon a California man for secretary of the treasury would no doubt be a very happy surprise to the Pacific coast, and would perhaps be received with some doubt. Nevertheless there are reasons for believing that the president is seriously considering a Pacific coast man for the place. Information comes from Senator Stanford, who says he believes the president will appoint John F. Swift, of San Francisco, who is our present minister to Japan. The president, in his recent message to congress asking an extension of time in which he could name Secretary Windom's successor, gave as the reason for his request that it was deemed advisable to appoint some one residing at a considerable distance from Washington, there should be time allowed for him to reach Washington to qualify, etc. It is well known that Harrison and Swift are warm personal friends, and that when the Harrison administration was organized the president seriously considered the name of John F. Swift for a cabinet position, and the latter might have been appointed but for the fact that California had another candidate for a cabinet position in the person of Hon. Wm. Estee.

THE WORLD'S FAIR.

England Officially Invited.

LONDON, Feb. 7.—Lord Salisbury, British prime minister, has received, through the United States legation, an official invitation from the United States government requesting Great Britain to take part in the world's fair which is to be held in Chicago in 1893.

The French May Come.

PARIS, Feb. 7.—M. Berger, a director of the late exposition, said today:

Favorable action by France on the American invitation to the Chicago exposition is certain. The only difficulty is the apathy of the merchants and others. The McKinley tariff has somewhat chilled the ardor of those who have been exhibitors, but I think the feeling is changing.

Seattle's Police Force Causing No End of Trouble.

SEATTLE, Feb. 7.—The city council met tonight, and in the house of delegates the killing of a man in a prizefight in a variety theater was made the text for a merciless scolding of the police. The mayor was accused of being in league with the gamblers and the chief sur vivent to him. One member said they ought to be impeached, and it was said that a prominent police official had received a solid silver service from the "Whitechapel" classes as a bid for immunity. The house passed ordinances reducing the force from 83 to 70, and abolishing the detective force entirely. A resolution was also passed directing the police commissioners to inquire into the particulars of the fatal fight, and the existence of gambling houses. A threat was made in the debate that unless there was an improvement the house would refuse to vote any appropriations for salaries.

Made Sport of Officers.

SAN FRANCISCO, Feb. 7.—For some time past this city has been overrun with foot-pads and safe-cracker, and about three weeks ago a set of safe-crackers' tools were found hidden in an alley. Thinking that the thieves would return for their tools, Chief of Police Crowley stationed a watch where the hiding place could be scrutinized and waited for the thieves. About 12 o'clock last night the officer on watch woke up just as two men were making off with the tools, and he ordered them to halt. They refused to obey, and he commenced shooting, and although the block was surrounded by ten officers, the thieves got away. The police authorities tried to cover the matter up, but were unsuccessful, and they are making jokes of it tonight in all the theaters and saloons about town.

A Retaliatory Resolution.

DENVER, Feb. 7.—On learning of the fact that a number of members of the Chicago Board of Trade had petitioned congress not to pass the free coinage act, Representative Fopping this morning introduced in the Colorado legislature the following resolution: That the state of Colorado take no part in the World's Columbian exposition, to be held in Chicago, and urge the citizens of Colorado to divert their trade, so far as possible, to some other western city than Chicago, where some interest is manifested in the great interests of the west.

To be Kept Pure.

BERLIN, Feb. 8.—Although the government has practically abandoned the monopoly of the production of Koch's lymph, measures are being prepared for rigid state control of its sale and supervision of its manufacture. Chemists will not be allowed to sell it unless analysts have confirmed its purity. Under an order from the ministry, all clinics report the results of treatment by Koch methods. So far as received, a majority of the reports are in favor of the treatment. Some, however, report disastrous results.

Coming This Way!

SAN FRANCISCO, Feb. 7.—S. E. Lazard, who represented himself as agent for the Eastern Accident Insurance company, has left town, leaving behind a number of creditors. He obtained \$450 from his landlady, giving her in return his check on the Commercial National Bank. When the check was presented for payment it was found that Lazard had no money there. It is thought that he has gone to Portland, Or.

San Francisco Market.

SAN FRANCISCO, Cal. Feb. 9.—Wheat buyer 91.148½, season 1.42½.

IT IS ABOUT TIME.

The Government to Begin Suit Against the Central and Union Pacific.

WASHINGTON, Feb. 9.—It is learned from a letter recently sent by Taylor, commissioner of railroads to the secretary of the interior, that action is about to be taken under a recent decision of the supreme court of the United States in the case of the United States vs. the Central Pacific railroad.

Commissioner Taylor has had a conference with the acting secretary of the treasury with a view of getting a full report of all bills for services of the Union and Central Pacific companies now on file in the treasury department and not acted upon. It is intended to ascertain accurately the state of accounts between the government and these roads and then insist upon prompt payment of amount found to be due.

ANOTHER ATTACK ON MILES.

This Time It is Brought by Jefferson Davis' Widow.

CHICAGO, Feb. 7.—In the memoirs of Jefferson Davis, recently published by his widow, many pages are devoted to a description of the "Fortures of Fortress Monroe" of which district General Miles, now at the head of the division of the Missouri, was in command at the time Davis was imprisoned there. Mrs. Davis charges General Miles with cruelty to the president of the confederacy. He is charged with shackling Davis by brutal force, keeping him in a vermin-infested cell, withholding his clothes and linen and making souvenirs of his possessions, even to his hair, when he had it cut. General Miles was interviewed today in regard to the matter. He said he did not mind the attack, and added: "Of course Mrs. Davis feels bitter toward me, as she probably does toward many more northern soldiers. While caring nothing at all for anything she may say or write, I would call your attention to the fact that Jefferson Davis managed to survive my cruel treatment and lived twenty years after. Finally dying of old age. That would hardly have been the case I think, if he had been subjected to such horrible abuses. There is not a particle of truth in the statements made by his wife. The fact is Jefferson Davis never was in better trim in his life than when he was liberated."

Encouraging to Hop-Growers.

EUGENE, Feb. 7.—The Lane county hop-growers' association was to have held its annual meeting today for election of officers, but as the attendance was small they adjourned for two weeks. Buyers are offering today to contract hops from the crop of 1891 at 16½ cents per pound which is very encouraging to the growers. The hop men of this county are preparing to make extra exertions, and will produce more hops for the market than ever before.

Patti Arrested in Berlin.

BERLIN, Feb. 8.—The police have served an order of arrest on Mme. Patti, in behalf of St. Petersburg authorities, for a breach of contract in refusing to sing unless her advance money was deposited with her bankers. The serving of the order caused a sensational scene. Mme. Patti was compelled to deposit the sum of \$2100 in order to obtain her liberty.

Satisfied He is Dead.

PARIS, Feb. 7.—A brother of the late Robert Ray Hamilton, now in this city, has obtained evidence of a man establishing the identity of the body found in Montana. He was personally acquainted with Robert Ray Hamilton, and states there is no doubt that the body is that of the unfortunate gentleman.

About Bank Checks.

The cashier of a downtown bank said recently when the public learned which end of the check they should sign their names on it would be a great and glorious day for the employees of the banks in New York. "When the public has been taught this little detail," the cashier said, "it would be well to give the banks a lesson in printing their checks. The latest fashion in checks is by far the most convenient one. All of the information on the check which is of value to the banker is placed on one end. At the right hand upper corner is the date. Under this is the name of the man to whom the check is drawn. Beneath this again is the amount of the check in figures, and right below that the signature of the man who draws it. The other end of the check is filled with the name of the bank, and so on.

"The advantages of this form of check are: First, that the date, amount, signer and drawee can be seen at a glance; second, if the check is bound up with dozens of other checks and bills it is not necessary to pull it out from the bundle to get information about it. A cashier can take up a package of such checks, thumb over the ends, and set them aside in less time than it would take to go over two or three checks of the older form. Nearly all of the larger banking houses and big corporations have adopted the check, and it will eventually find its way down to the smaller concerns."—New York Sun.

Peter's Pence.

Offa, a Saxon prince, to secure the favor of the sovereign pontiff, engaged to pay a yearly tribute to the treasurer of the Vatican. In order to raise the promised sum Offa was forced to impose a tax of one penny on each household whose annual income was as much as thirty pence. This imposition being afterward levied on all England was commonly denominated as "Peter's Pence." Hence the expression.—St. Louis Republic.
