WHAT OUR SOLONS HAVE DONE.

The State Divided.—To Fix Rates on Grain and Wool.
SALEM, Or., Feb. 10.—In the House this morning the speaker appointed McCracken, Minto and Barnes a committee on Minto's bill to fix rates on grain and wool from points in Eastern Oregon.
Among the bills passed were the following: Dividing the state into two congressional districts and providing for a judge in the first district; Moore's bill, as amended, for \$50,000 for the World's fair; Holmes' bill allowing drainage associations to condemn land for ditches and Moore's bill for compulsion of the deaf and blind.
The senate at the forenoon passed the following bills: Referring to boundary of Gilliam county. Norval's, Connor creek and Eagle valley wagon road. Aiding Eastern, Western and Southern Oregon district agricultural societies and Matlock's sale of perishable property under execution.

SALEM, Feb. 9.—[Special to the CHRONICLE]—Senator Raley's bill appropriating \$400,000 for a portage railroad between The Dalles and Celilo passed the senate today.

An Election Injunction.

OKLAHOMA CITY, O. T. Feb. 10.—The republicans have applied for an injunction to enjoin the county commissioners from counting the returns to the election on the ground that no legal votes were cast, because there is no act of congress on territorial legislature conferring the right to vote on any one, if this is successful, similar proceedings will be taken to other counties.

Confessed Too Soon.

OMAHA, Feb. 8.—A young insurance agent, H. M. Rogers, who came here from Chicago last week, attempted to commit suicide yesterday, after writing a letter addressed to the United States Mutual Life Insurance Company of New York confessing the murder of his sweetheart last summer near Mercer, Pa. He did not mention any, but admitted having assumed the name by which he was known. When he realized that he would live he made an effort to secure the letter, but the authorities had been apprised and secured the confession and took charge of Rogers. The Mercer authorities have been wired.

A Philanthropic Jew.

NEW YORK, Feb. 9.—Baron Hirsch has cabled to Jesse Seligman, as representing the trustees of the Hirsch fund to this country, that the trustees may draw on him for 12,000,000 francs (\$2,500,000) to use in carrying out work undertaken. If the income is not sufficient to do all it is intended for, the trustees are authorized to use part of the principal, and Baron Hirsch will make good the amount. For nearly a year Baron Hirsch has furnished \$10,000 a month for work among the poor Hebrews in the United States.

MAN is a creature of habit—always excepting the unclothed aborigine.

WINDOM'S SUCCESSOR.

All Signs Point to General John C. New as the Coming Man.

NEW YORK, Feb. 9.—A gentleman of more than local prominence, who has long been identified with public affairs and is reputed to be thoroughly informed regarding the inside workings of the present administration, and who has just returned from a visit to Washington, said today:

Thursday afternoon last President Harrison called General John C. New, congressional at London, to come to Washington at once.
It will be remembered that when Harrison was making up his cabinet New was anxious to be appointed secretary of the treasury, but friends urged upon him that he could not then afford to sacrifice the consul-generalship of secretary of the treasury. The consul-generalship would certainly yield him \$25,000 annually, and besides, would give him many legitimate opportunities of increasing that sum. Unless New decided the handsome income from the consul-generalship, with its freedom from care, is better than the secretaryship with its perplexities (leaving out the impulses of ambition), he will probably be the next secretary of the treasury. This is the settled opinion of those who are best informed as to the president's purpose. It is known New has studied the whole British question thoroughly from an international standpoint. As he is a man of great discretion and caution, his views are of great importance. Harrison fully realizes this, as he knows he will want at his command the best, fullest and most accurate sources of information. This fact alone makes New a possible candidate for the secretary of the treasury.

RAY HAMILTON ALIVE.

One of His Schoolmates Claims to Have Received Letters From Him Recently.

PHILADELPHIA, Feb. 8.—A. C. Howard, who was a playmate, schoolmate and colleague of Robert Ray Hamilton, has given out a statement in which he asserts that he has positive knowledge that Hamilton is alive. He said: "I have here in my pocket," said he, "several letters from my old friend Ray Hamilton. They were written after he went west. The last one is dated San Francisco, Friday, October 3, 1890. In this letter he said he was going to Japan and thence to Sydney, New South Wales. Mr. Hamilton is alive and well. He is not in Australia, however, and if matters which are of vital importance to him move along in the groove which he has marked out, he will return to New York within three months. His exact location I cannot make public. At least six of his friends know where he is and are in constant communication with him. My late visit to New York was to arrange some matters of business in which he is interested. He was afraid that when brought face to face with Eva Hamilton in court, she would either make a startling revelation herself, or have questions put to him when he should take the stand that would add further to his own disgrace and bring disgrace upon others.

OUR NAVY.

Secretary Tracy Thinks of Repairing the Wooden Vessels.

WASHINGTON, Feb. 9.—Secretary Tracy is seriously considering the problem of whether or not it is worth while to repair the old wooden ships of the navy. Many of them are quite rotten, and the expense of repairing them will be considerable. At the same time the old wooden ships have many points in their favor that the new ships do not possess. Nearly all of them are full rigged and the expenses incident to voyages are much less than those of new ships. The Swartha, full-rigged made the trip from China by sail and did not have to use coal on her way over. The Pensacola, which has just left south Atlantic waters for Chili, is proceeding by sail, and when last heard from was making as good time as if she was propelled by steam. Both classes of vessels have their advocates among naval officers, and the pressure brought to bear on Secretary Tracy to abandon all wooden vessels for new ships propelled by steam is great. He is still undecided as to any general policy, but is probable that the Swartha, about which the present hitch has arisen, will be repaired, although to do so will cost about \$75,000. This will not be done, however, until next June or July. She is now at Mare island navy yard.

The Co-operative Kitchen a Failure.

CHICAGO, Feb. 8.—Another colony of Bellamyites is following in the wake of the Evanston co-operative kitchen. The South Evanston Co-operative Club was organized last summer, its membership including eleven families or fifty persons. Two cooks, several servants and a house with the necessary accommodations were procured. The plan attempted was to furnish the members the necessities of the stomach at the rate of \$3.25 for adults and \$1.75 for children per week. Each family was to eat at separate tables in the dining-room. But the meals were found to cost nearer \$4 than \$3.25 per week at the start, and afterward still more. This necessitated continual assessments, and the co-operators have finally come to the conclusion that the co-operative house-keeping "is no go," and have called a halt. Today the cooks have served the final dishes and will be off on a vacation until other positions can be secured. The debts of the concern will be paid by a general assessment and the affairs of the colony wound up at once.

SAN FRANCISCO, Cal. Feb. 10.—Wheat buyer 91.147, season 1.14 1/2.

BRUTAL ASSASSINATION.

A California Farmer and His Wife Ruthlessly Treated.

NAPA, Cal., Feb. 10.—Last night Captain J. O. Greenwood while on the way to his house from the barn was met by two well dressed strangers, who compelled him to throw up his hands. They took him to the kitchen, bound him hand and foot, and made him swallow liquid which rendered him unconscious. As his wife, who had driven to a neighbors, came on the porch the men seized her and dragged her into the kitchen, where she was bound and drugged. Her body was found later on the bed in the bed room near at hand.

It is presumed robbers took her there and, finding she made resistance, killed her.
Mr. Greenwood, later returned to consciousness and after a great struggle broke the cord from his legs, and made his way to the bedroom to find his wife. As he returned from the bedroom he was again met by the robbers and they then shot him twice, both bullets entering his left cheek. He will probably recover. He laid on the floor until this morning when he crawled out into the road where a passing neighbor gave the alarm and assistance was called.

The house had been ransacked from top to bottom, but Mr. Greenwood says there was only \$4 in the house. The only clue to the murderers is a pair of bloody shoes left behind.

ANOTHER SENATOR.

The Idaho Legislature Will Send Their Fourth Senator.

BOISE, Idaho, Feb. 10.—The legislature at noon today balloted for U. S. senator in separate session. In the house Claggett received 19 votes. The Duboise men declined to vote, and Jones, (Dem.) cast his ballot for a well known character about town.
In the senate Claggett had nine and the other nine were distributed among as many more, senators amusing themselves by voting for each other. In joint session tomorrow, Claggett will have 28 votes which gives nine for majority.

Sheep Freezing in New Mexico.

DENVER, Feb. 8.—The weather throughout Colorado and New Mexico turned very cold last night, and by this morning the mercury dropped from eight to twelve degrees, and today has been pronounced the coldest of the season. A dispatch from Albuquerque, N. M., reports great distress among stock, especially sheep, which are freezing to death.

People Dare Not go Out.

OMAHA, Feb. 8.—There was a heavy snow storm here today, nearly blockading street car traffic. Reports from all portions of the state show the storm is very severe. In the northwestern part a blizzard has been raging twelve hours, and people dare not venture away from houses. In the southern part the snow drifted from four to ten feet deep.

Mrs. Charity Hathaway, of Beemer Hill, Sullivan county, Pa., is the only woman trapper and fur dealer in the county. Last season she cleared nearly \$450 from the sale of furs and ginseng root. The animals from which the greater portion of the furs was obtained were trapped and skinned by Mrs. Hathaway.

No bath is considered complete in which a bath bag does not float. The contents depend upon the resources of the bather. Almond meal, bran, orris root, crushed lavender flowers, borax and shaved castile soap are some of the accessories approved by fashion.

Children should always be kept in the background in the presence of visitors. If allowed to come into the room where guests are being entertained they should be taught to be silent unless they are addressed, and to refrain from making personal remarks.

The daughter of Bjornstjerne Bjornson, the Norwegian novelist, is an accomplished musician, and intends to become a public singer. She is pretty, has much dramatic power, and proposes taking a more euphonious stage name than her own.

A paper on "Leprosy in Asia Minor," written several years ago by Mrs. Lew Wallace during her residence in Persia, is to appear in the report of the Smithsonian institute under the title of "Progress in Oriental Science."

Miss Mabella Young Low, a New York girl and college graduate, has purchased a nursery, and will devote her time and energies to the cultivation of roses and mushrooms.

Mrs. Fletcher, who died lately at Gloucester aged 81, had been engaged for thirty-two years in the somewhat unusual occupation, for a woman, of gun making.

The latest organization for woman artists in Paris is the "Union des Femmes Peintres et Sculpteurs," and a journal devoted to its interests will soon be started.
Silver water pitchers run small to medium in size. A pleasing pattern is that in which the upper half is bright finish with the lower half fluted in Queen Anne style.
