### MUST PAY TAXES.

The Attorney General of California Decides that the Railroads Must Pay Taxes on Unpatented Lands.

Claggett Presents His Credentials to Congress as Senator from Idaho—Interesting Proceedings.

#### RAILROAD LANDS.

General Hart of California Decides that Railroads Must Pay Taxes on Them.  
SACRAMENTO, Feb. 27.—On a question raised by the district attorney of Siskiyou County as to whether lands sold by railroads are assessable, to the railroad companies. Purchasers from them holding such lands could not be assessed because there has been no patent issued for them by the government, attorney General Hart has decided against the railroads. Unless overruled this decision will compel payment of taxes on ten million acres of land in this state.

#### Congressional Proceedings.

WASHINGTON, Feb. 27.—In the senate a bill was passed amendatory of law providing for the selection of school lands. The house then went into a committee of the whole resuming consideration of the shipping bill.

In the senate papers presented in support of the claim of W. H. Claggett to a seat in the senate from Idaho, (for which the credentials of Dubois were already on file.) They were referred to the committee on privileges and elections.

Sherman stated that he was authorized by the committee on foreign relations to say in view of the state of public business that the Nicaragua canal bill would not be pressed any further at this time and might take its place on the calendar.

The senate passed the legislative executive and judicial appropriation bill and agreed to make up the pure food bill. This makes it unfinished business. It will have to give away however to the appropriation bills.

Consideration of the legislative appropriation bill was resumed.

Confers on bill for repeal of timber culture laws and amendatory land laws generally has practically reached an agreement on an entirely new bill which will be brought forward at the first opportunity. The bill agreed upon will change the general land system of the government manner of doing things. The bill first repeals the timber culture act with a reservation in favor of bona-fide claims heretofore instituted.

The President today transmitted to the senate copies of papers relating to reciprocity arrangements between the United States and Brazil.

#### A VETO TO BE IGNORED.

The Five Per Cent. Public Land Fund Merely Held in Trust.

SALEM, Feb. 22.—The "omnibus wagon road bill" was not received by the governor in time for his excellency to return it with his veto before the legislature adjourned sine die. It was, however, filed Saturday evening in the office of the secretary of state. Following is the veto:

"I herewith return house bill 306 with my dissent. This bill appropriates out of the 5 per cent. United States land sale fund of the state of Oregon the sum of \$127,000 to aid the county courts of certain counties in the construction of certain wagon roads specified in the bill. There is now in the state treasury of the fund above mentioned the sum of \$6,389.12. Section 3 of the bill provides that whenever the county courts of any county named in section 2 of this act shall certify to the secretary of state that the amount named in aid of such court has been expended in the repairs or construction of the road or roads named for said county, as provided in section 2, or shall certify that any portion of the sum set apart for the repairs or construction of any road in said county, provided for in said section 2, has been expended and applied as provided by this act, the said secretary of state shall draw his warrant in favor of said county for the sum certified, provided the said amount shall in no instance, exceed the sum set apart in aid of the county court for the particular road certified, as provided by section 2 of this act. It thus appears that the county court must first incur the indebtedness before the state assumes it. This is plainly repugnant to section 8, article 11, of the state constitution, which expressly declares that 'the state shall never assume the debt of any county, town or other corporation whatever, unless such debts shall have been created to repel invasion, suppress insurrection or defend the state in war.' The bill is also repugnant to section 7 of the same article, which limits the liabilities of the state to \$50,000.

This action of the governor will not disconcert the wagon-road men in the least. The organic act admitting Oregon into the Union provides that the proceeds derived from 5 per cent. of the sale of public lands in the state may be used for the building of public roads or other internal improvements, as the legislature may direct. This bill, which the governor has just vetoed, is not an appropriation of state money, in any sense, but merely a direction of the legislature how the land received from the United States shall be applied. Despite the growing "Penney boom," the governor is not yet president, and can hardly hope at the present time to veto an act of congress. The bill did not recognize the governor at all, for the emergency clause read that it "shall be in effect from and after its passage." The county courts of Josephine and Curry counties will test the soundness of this position immediately. The road down Rogue river will be built as soon as possible, and then the secretary of state will be called upon to draw his warrant for \$16,000 for the two counties. Should he refuse, as he is quite likely to do under the circumstances, suit will be brought in the supreme court to compel him to issue the warrants, and it is confidently expected that the court will hold that the governor has no power to direct or interfere with the legislature in the disposition of this fund. The weakness of the governor's position was pointed out by himself, it is claimed, when he sent his message to the legislature, urging it to take steps to get the consent of congress to the transference of this money to the common school fund.

#### WHAT WAS HIS FAITH?

Another Letter From Father Sherman Regarding His Father's Belief.

NEW YORK, Feb. 25.—Some time ago the *Evening World* quoted Rev. Thomas E. Sherman as saying that his father, the dead general, was not a Catholic. The next day it printed an interview in which the priest said his father had been baptized in the Catholic church, married in the Catholic church, and had expressed to him a belief that if there was any true religion it was the Catholic. The *Times* now prints a letter of the Rev. Mr. Sherman, written in 1878 to Samuel Reber, a kinsman of the family, announcing his intention of going abroad to study for the priesthood, although his father had educated him for the bar, saying: "As with me alone rested the duty and burden of choosing my path in life, so with me alone rested the blame or praise in having chosen the church instead of the law. My father, as you know, is not a Catholic, and therefore the step I am taking seems as startling and as strange to him as I have no doubt it does to you, my dear Sir. I go without his approval, sanction or consent; in fact, in direct opposition to his best wishes in my behalf, for he had formed other plans for me, which are now defeated, and had other hopes and other expectations in my regard, which are necessarily dashed to the ground. Feeling painfully aware that I have aggrieved and disappointed my father, I beg my friends and his, one and all, of whatever religion they may be, to spare him inquiries or comments of any sort, for I cannot help feeling that anything of the kind will be ill-timed and inappropriate."

#### GRAY'S HARBOR LINE.

Hunt Said to Have Abandoned His Proposed Road.

TACOMA, Feb. 25.—It was rumored here today that G. W. Hunt, the railway magnate, has concluded to abandon his proposed line in the Gray's harbor country. Every effort was made to gain some authoritative statement concerning the report, but without success, although it was generally believed. A gentleman well informed in regard to Hunt's plans, so far as the building of his contemplated line to the coast is concerned, said:

"I am satisfied that Hunt has entirely abandoned his plans, not because he has not found them possible, but because he has met with so many obstacles and so much opposition from his enemies in the railroad world. It is safe to say that the Northern Pacific has been a very important factor in Hunt's decision to give up his plans. When it first became known that Hunt contemplated the building of the line the Northern Pacific made overtures to him which he rejected. Efforts were made to have him listen to that corporation, but he declined. As I understand it, the Northern Pacific concluded that Mr. Hunt would find more trouble in the consummation of his plans than he anticipated. Now we see that the Northern Pacific is running trains into that country, while Mr. Hunt is practically no nearer the fulfillment of his plans than he was when he first decided to run a line to that section.

#### A Fortune Bequeathed Mrs. O'Shea.

LONDON, Feb. 25.—The will of Mrs. Woods, aunt of Mrs. O'Shea, bequeathed to Mrs. O'Shea a large fortune, of which the divorcee expected to obtain possession, but the frequent public allusions to Parnell's probable interest in the fortune induced her brothers to bring action to have the will declared invalid on the ground of undue influence used, and deceased being incapable of making a will. Applications are made to see the documents, which Mrs. O'Shea does not want produced, including the diary of her aunt which is likely to show Mrs. Wood's mental condition.

#### The New Process.

BERLIN, Feb. 25.—Liebreich's new method of treating tuberculosis was described by the discoverer today. The substance used is cantharidate of potash, which is administered in solution by systematic injections under the skin. Clinical experiments seem to prove it is remedial in tuberculosis and other diseases. Liebreich says he is still carrying on investigations, and the announcement is made prematurely.
