Mr. R. H. Norton, mining engineer and surveyor, expects to commence the survey of the railway between this city and the coal fields of Gilliam Co., next Monday. Eigth hundred dollars of the thousand needed for the work was already subscribed last evening.

A touching little incident occured at the late wreck near Wyeth Station. One of the lady passengers had a canary bird in a cage which was sitting in a corner of the car that was smashed most, and where the passengers were hurt most, but the cage was scarcely scratched. It was taken out and set on the track when the little prisioner commenced to sing as though bent on cheering its less fortunate companions.

The snowballing nuisunce is upon us and while we would not curtail any healthy enjoyment, some are carrying the sport beyond all decent bounds. Charley Richmond has discovered that he is not half as well known in this town as be thought be was.
