## RESERVATION OPENED.

The Coeur d'Alene Indian Reservation to be Opened Causes a Stampede in that Direction.

The Government Wins in the Canadian Contest—A Great Coal Mining Strike Settled.

A RUSH FOR LAND. A Stampede for the Coeur d'Alene Reservation.

SPOKANE FALLS, March 6.—The passage of the bill opening the Coeur d'Alene reservation to settlement has caused a stampede. Settlers are coming in by every train waiting for the president to issue his proclamation. Trouble is expected as the Indians object to giving up their land.

A STRIKE SETTLED. The Miners of the Monongahela Valley Carry Their Point.

PITTSBURG, March 6.—The long strike of the coal miners of the Monongahela valley has ended in a complete victory for the men for an advance in the mining rate of one-half cent per bushel. The men will resume work Monday. The strike has lasted ten weeks and the men lost in wages alone over \$1,000,000. The absence of this great sum of money in the valley has caused suffering among not only miners and families, but a great majority other persons dependent on the mining of coal for a living.

ANNEXATION WAS POPULAR. The Government Wins the Election but the Annexationists have Strength.

NEW YORK, March 6.—A Montreal special says that independent estimates of yesterday's vote give the government a majority of from 28 to 30. The most important facts revealed by yesterday's vote are that annexation cry was not so unpopular in Canada as it was supposed and that closer trade relations with the United States is inevitable and that liberals will be returned to power at the next general election.

A dispatch from St. Johns says the latest returns from King's county show George E. Foster, minister of finance, who was thought to have been defeated, to be elected by a small majority.

Both Sides Claim the Victory in Canada. TORONTO, March 6.—The Empire (government organ) claims a majority for the conservatives of 42, with seven seats to be heard from, of which five at last election returned conservatives. The World (government) claims a majority of 39 for government. The Mail (independent) gives government a majority of 26. The Globe (opposition) says the majority will not exceed 20.

Stops Business for Two Days to Save the Bank. BUENOS AYERS, March 6.—The Argentine government has ordered a general suspension of business for two days. The decree announces that the days are to be observed as holidays, but the reason for suspension of business is to try to save the Provincial bank. There has been a run on the bank for several days, and it is believed it did not dare to open its doors today.

Railroad Officials to be Arrested. NEW YORK, March 6.—Coroner Levey has issued a warrant for the arrest of the officers and directors of the New York, New Haven and Hartford railway, who are held responsible by the coroner's jury for the deaths of the victims of the Harlem railway tunnel disaster.

Chauncey M. Depew, surrendered himself to the coroner at half past four and was immediately released on \$25,000 bail.

An English Suicide. LONDON, March 6.—Robert Lindsay Antrobus, second son or Sir Edmund Antrobus and junior partner in the well-known banking house of Contt & Co., was found dead in bed this morning with a pistol by his side. It is believed to be a case of suicide. The cause is unknown.

The Snow Blockade Raised. SANTA FE, N. M., March 6.—The snow blockade which prevailed on the Denver and Rio Grande road for the past ten days, is broken and the first through train since February 25th, reached here last night.

The Government Claims to Have Won. TORONTO, March 6.—Yesterday's election resulted in a victory for the government by a reduced majority. Premier MacDonald is returned but three cabinet ministers are defeated.

Dakota Follows Oregon's Style. PIERRE, S. D., March 6.—The legislature has killed the World's Fair bill. It could not get a two-thirds vote. The amount asked for was \$15,000.

## TIMBER CULTURE LAW.

Its Repeal More Far-Reaching Than Generally Supposed.

WASHINGTON, March 4.—The bill to repeal the timber culture law is more far-reaching in its effects than western settlers generally suppose. Besides repealing the timber culture and pre-emption laws, it provides that homesteaders cannot commute in six months, but must live on their claim one year before they can commute and pay the customary \$1.25 per acre, outside the railroad limits, or \$2.50 inside the railroad limits, and secure title to the lands. Another important feature of the bill is that which practically annuls all contests for lands which have been initiated, before final proof has been made by the settlers in many instances now pending before the interior department. Special agents of the land office have reported that the proof made by the settlers was unsatisfactory although the lands on which proof has been made have been sold or have been foreclosed under a mortgage given by the settlers to obtain money for making final proof and payments. The act also provides for the reservation of sites for irrigation purposes and gives right of way through all properties owned by the United States for the building of irrigation canals and ditches. Besides the provisions relating to the acquisition of townships and other property interests in Alaska, there is a modification of the mineral land laws, which will be of considerable benefit to claimants; although there may be some difficulty in digesting the provision relative to the cutting of timber in mineral states. President Harrison refused to sign the bill until there had been a modification of that provision relating to the cutting of timber in mineral states, and this modification will seriously affect the Black Hills district in South Dakota, as well as other mineral states.

## AGAIN IT IS HYPNOTISM.

Two Young Believers Driven to Self-Destruction.

CINCINNATI, March 4.—L. Frauenthal, of St. Louis, and Ernest Salinger, of Philadelphia, two students at the Hebrew Union college in this city, were found dead in their college room this morning. The young men took their own lives, according to a preconcerted arrangement. It is asserted by fellow-students that the young men must have been demoralized on the subject of hypnotism. Salinger for a long time had been a firm believer in it. Frauenthal formerly scoffed at it, but latterly Salinger had won him over, and he seemed to have complete control over him. For some time past Frauenthal has been falling off, mentally and physically, and frequently complained of pains in his head. They left a joint note asking that their families be notified, but vouchsafing no explanation. Salinger was still alive when found, and said before expiring they had agreed to die together. His diary had an entry saying he was going to end his never-ceasing pain.

## THE WORLD'S FAIR.

General Plans of Grounds and Buildings Completed—Labor Demands Granted.

CHICAGO, March 4.—The general plan of the grounds and buildings for the world's fair was completed today. Jackson park is divided into five parts, of which one is to the north. The ground already improved is reserved for the state and foreign government buildings, with a possibility of the art palace. The main exposition is to front on a lagoon, and to the east will be curved a pier, extending far into Lake Michigan, and made beautiful with buildings and ornamentation designed by the Sculptor St. Gaudens. The state buildings will be disposed on streets laid out for the purpose, giving each, as near as possible, a place of equal prominence. The administration building is to be surmounted with a gilded dome rising to the height of the auditorium tower. The contractors having in hand the work at Jackson park said today they will advance the wages of laborers to \$1.75 per day, April 1. Electric lights are to be put up and work continued night and day in eight-hour shifts.

## DETERMINED TO SING.

Emma Juch Has Her Train Run at a Speed of Seventy Miles an Hour.

OGDEN, Utah, March 4.—The Emma Juch Opera Company, en route to Ogden from the North, were today delayed in Idaho by a snow blockade. A special train was made on the side of the blockade, and all the passengers and baggage transferred. The special train ran seventy miles an hour for 250 miles, arriving here at 10 p. m., Emma Juch carrying out her engagement to a packed house. The performance lasted until 2 o'clock in the morning. The run from Idaho here was the fastest ever made to the West. The plucky little diva insisted on the throttle being pulled wide open. Many of the chorus girls fainted from fear.

## Japan Will Send no Coolies.

SAN FRANCISCO, March 4.—Hon. Suniti Chinda, head of the Japanese consulate in this city, in an interview as to the probability of Japanese laborers being brought to this country, gave the following views of the situation: There is no danger whatever of there being any large number of Japanese laborers brought to America. Our government especially provides for this class of people and look out for their welfare. We do not believe in sending people away from Japan when we ourselves have large tracts of land awaiting cultivation. The only laborers sent to a foreign country went to the Hawaiian islands at the special request of the Hawaiian government, and contracts for each individual so sent was drawn up between the two governments.

## ANOTHER OF GROFF'S CHANGES.

The Land Commissioner Promulgates Another Batch of Wisdom.

DEPARTMENT OF THE INTERIOR }  
General Land Office, }  
Washington D. C. Feb. 23d, 1891.  
SIRS: Your letter of the 14th inst. has been received. In reply you are advised that the entries allowed by you of the lands forfeited by the act of Sep. 29th 1890, were erroneously allowed, but having been made they will be allowed to stand subject to any adverse claim that may be asserted within the time prescribed therefor by the law. The act of Sep. 29th 1890 (2d section) aforesaid, provided that homestead claimants should present their claims within six months from the passage thereof, but the act of Feb. 18th 1891 extended the time to six months from the date of the promulgations of the instructions by this office.

Purchases under the third section of the Act of 1890, may be made within two years from such promulgation. Said Act does not require the filing of a declaration of intention to purchase, and does not authorize the collection of a fee from applicants to purchase. The blank form of application and affidavit forwarded is sufficient for the class of persons, provided for in the 3d section, who settled on the land with the bona fide intention of purchasing from the North Pacific Co., when it should secure title, but when money is paid a receipt therefore must be issued, and a certificate must be also issued as a basis for a patent. The ordinary cash certificate may be used, but a reference thereon must be made to the fact that the purchase was made under the Act of September 29, 1890.

The form of application and affidavit for Homestead claims, enclosed by you, will be satisfactory. Respectfully,  
LOUIS H. GROFF,  
Commissioner.

## PAID THE PENALTY.
