STILL THE STORMS.

High Water in Tennessee—The Storms Prove to be the Worst for Years in Many States.

The President Goes Duck Shooting—A Printing Office Burned—Lion Tamer Tamed.

The Associated Press Reports are Sent Exclusively to the Chronicle at The Dalles.

THE RECENT STORMS.

High Water in Tennessee—The Worst Weather for Years.

NASHVILLE, Tenn., March 9.—The phenomenal rise in the river continues this morning. Much damage has been done. From 1500 to 2000 people have been driven from their homes. Goods in warehouses and cellars have suffered much damage. The river is a vast angry torrent spreading over the lowlands. Nearly all the lumber yards have been overflowed. At police headquarters many inquiries for shelter are being made. Reports from all points on the river show that rivers are rising everywhere. The fullness of the Ohio and Mississippi will prevent the Cumberland from running down rapidly as it otherwise would.

CHICAGO, March 9.—Dispatches from numerous points throughout Minnesota, Northern Iowa, Central Illinois, Southern Wisconsin and Eastern Nebraska report that the severest snow storm of the winter raged all day Sunday. Trains are running but are behind time and in many places none are moving.

KNOXVILLE, Tenn., March 9.—Very heavy rains prevailed throughout this section yesterday and last night. All the streams are out of their banks. A seven-year-old colored girl was drowned this morning by falling into a raging creek. A colored man named Hunter was drowned yesterday.

CHATTANOOGA, Tenn., March 9.—The Tennessee river reached the danger line, rising three inches an hour. Experienced river men predict that it will overflow much of the city in the low lying places. It has cut off several railroads and suspended the operation of several manufacturing plants. The rain fell here in thirty-six hours three and a quarter inches. It extends up the river and in East Tennessee generally. Indications for more showers are very promising.

Travel on wagon roads at numerous points is wholly suspended and in the cities street car traffic is more or less delayed.

The severest storms are reported at various points in Texas. Snow and sleet have fallen and it is feared that fruit trees will be badly damaged.

ASHLAND, Wis., March 9.—Yesterday's blizzard was the worst of the season. It is reported that two settlers on newly opened land in that section have perished in the storm.

Following England's Drum Beat Around the World.

COLOMBIA, Ceylon, March 9.—The Canadian Pacific Railway company's new steamship, Empress of India, arrived here this morning on her voyage around the world. She will remain here two days to give passengers an opportunity of viewing the numerous points of interest in this vicinity.

Will Not Use the Koch Remedy. MADRID, March 9.—A commission of six medical men to investigate the Koch remedy reported in favor of total suspension of that form of treatment. The committee finds that not a single cure has been effected here.

A Foundry Burned. LYONS, Iowa, March 9.—The Taylor Brothers' foundry and machine shop burned here early this morning and a watchman L. T. Taggart perished in the flames. Foul play is suspected. Loss to the shop is small.

Printing Office Burned. OMAHA, March 9.—The printing house of Gibson, Miller & Richardson was burned this morning. Loss, \$100,000; fully insured.

Bishop Paddock Dead. BOSTON, March 9.—Right-Rev. Benjamin H. Paddock, Episcopal bishop of the diocese of Massachusetts, died this afternoon.

A Lion Tamer Injured. PARIS, March 9.—Seets, the well-known lion tamer, was attacked and fatally wounded this morning by an angry lion.

It is Ducks for the President. WASHINGTON, March 9.—The president left Washington this afternoon for a few day's duck shooting on the Chesapeake.

Chicago Wheat Market. CHICAGO, Ill., March 9.—Wheat, firm; cash, 1.00@1.00 1/2; May, 1.02 1/2; July, 99 1/2.

EARTHQUAKE SHOCKS.

Internal Rumbblings Felt in Northwestern Washington.

TACOMA, March 7.—Two faint but distinct shocks of earthquake were felt here at 7:50 this evening. The wave was southwest to northeast; the first shock lasting two and one-half seconds and the second shock being one and one-half seconds in duration. No damage was done, although articles in china and glassware stores rattled a trifle, and occupants of sixth floors rushed from the rooms, fearing the structures were about to topple. The imposing stones in the Ledger office swayed perceptibly. Three shocks were felt at Eagle Gorge, in the Cascade mountains.

SEATTLE, Wash., March 7.—At 7:40 this evening an earthquake shook the buildings of this city slightly. The wave passed from south to north, with possibly a slight trend toward the east. The effect was felt more severely by those in the upper floors and the six and seven story buildings. There the chandeliers swayed sharply, and men standing up found it difficult to keep their feet. The movement was felt in all parts of the city.

FITZSIMMONS IN SYRACUSE. What He Says of Farrell, Hall and Jack McAuliffe.

SYRACUSE, N. Y., March 7.—Bob Fitzsimmons, the champion middle-weight pugilist, was the guest of the Syracuse sporting men today. In regard to the challenge issued by Pat Farrell, of Pittsburg, the Australian remarked:

I shall pay no attention to that fellow. He is not in my class. He cannot train down to 170 pounds to save his life.

At mention of Jim Hill's name, Fitzsimmons exclaimed: Oh, yes; I'll take care of him so soon as my match with Jack McAuliffe is off my hands. Hill is heavier than I am. I do not think he can get down to 160 pounds and keep his strength. I have gained four or five pounds since my arrival in America, and Hill will probably gain more. Jack McAuliffe! Oh, I dare say he's a good 'un; but he'll know he's been in a fight before our little affair at the Madison-square garden is over.

THE JEWISH PERSECUTIONS. None but Merchants and Manufacturers to Be Permitted to Enter Russia.

LONDON, March 7.—Notice has been received that Russian consuls in foreign countries are forbidden to affix in future their visas to passports of Jewish travelers of any country, leading merchants and manufacturers excepted. This will deter foreign Jews, with the exception of those entering Russia, and will add greatly to the difficulties of Russian Jews traveling abroad. The movement for colonizing Jews in Palestine is meeting with considerable approval in London. The Duke of Westminster and other distinguished people have agreed to patronize it. There is a fair prospect that a large portion of Palestine will be occupied by refugees from Russian persecution, the sultan having, it is stated, declared himself pleased with the project.

ATTEMPTED SINGLE-HANDED. A Lone Highwayman Tries to "Hold up" a California Stage.

REDDING, Cal., March 7.—An attempt was made tonight to rob the Redding and Weaverville stage, about a mile out of town, by one man. The driver, E. Graham, was shot, perhaps fatally. Both barrels of the Wells, Fargo & Co.'s messenger's gun refused to work. Four passengers were on the stage. No one was injured except the driver. The robber did his shooting with a pistol. Had the messenger's gun not missed fire, he would undoubtedly have killed the highwayman. The officers are in pursuit, and a posse of citizens will scour the country in the morning.

A GASOLINE HORROR. A Young Mother Meets A Horrible Death at St. Louis.

ST. LOUIS, March 7.—Mrs. Mary L. Woods, aged 29, wife of James Woods, clerk in the treasurer's office of the Missouri Pacific, was burned to death at her home, 4222 Page avenue, at 4 o'clock this afternoon. Mrs. Woods was cleaning portieres with gasoline in an open tub, near a stove. The portieres caught fire and communicated to the can which exploded, throwing the blazing contents over Mrs. Woods. Several men rushed to her aid, but before the flames could be extinguished the unfortunate woman had received such frightful burns that her death occurred an hour later.

A Singular Accident. SCOTTSDALE, Pa., March 7.—A singular accident occurred on the Southwest railway this morning. The Possum accommodation, which leaves this place at 6 o'clock, was derailed near Connellsville station by a misplaced switch. It was running swiftly and when derailed it ran into a dwelling house near by. It demolished everything in its course. The inmates of the residence escaped, and the engine stopped alongside a cradle, where a baby was sleeping. It was unharmed.

Will Build to Portland. SEATTLE, March 8.—President Hill of the Great Northern writes a friend here that if the Union Pacific does not join in building the road between Seattle and Portland, the Great Northern will build it alone. He says that but thirty miles of the contract for the completion of the road to Seattle remains unlet and that the contract for the Seattle & Portland line will be let soon after his arrival here.

San Francisco Market. SAN FRANCISCO, March 9.—Wheat, buyer season, 1.53 1/2.

OFFICIAL AND UNOFFICIAL.

The Line Practically Completed.

SEATTLE, March 7.—The track of the Seattle, Lake Shore & Eastern was laid to Sunnas City half a mile from the boundary, Friday evening, and will be completed Monday. About two weeks' work will be finish the surfacing, but this cannot be done till the snow melts. The road which the Canadian Pacific is building from Mission to meet the Lake Shore, had the track eight miles from the boundary at last reports. It will be completed about April 1. By that time the Lake Shore will be ready for operation.

Struck by a Tidal Wave. HALIFAX, N. S., March 7.—The troop ship Orontes, with the First battalion of the Leicestershire regiment on board arrived here Friday from Bermuda. Very bad weather was experienced on the run up. Shortly after leaving Bermuda the steamer was boarded by an immense tidal wave and a number of seamen were badly injured and twenty-five soldiers more or less hurt. Some had arms broken, others badly bruised, and in some instances legs were broken.

Dented by Van Horn. MONTREAL, March 7.—President Van Horn, of the Canadian Pacific, today made a flat denial of the various ante-election stories about the enormous assistance to be given the company by the government, in return for assistance at the election. He also denies that the Canadian Pacific is paid \$300,000 a year by the American transcontinental line to keep out of California business.

Child Drowned in a Tub. MERIDON, March 7.—A 2-year-old child of Mr. and Mrs. J. N. Walter, of this place, was accidentally drowned today in a tub of water. The little fellow had been playing in the yard where a tub of water was standing, and was found dead by the mother.

His Millions go to the Heirs. NEW YORK, March 9.—The Fairweather will contest was brought to sudden close today. The case has been tested and objections withdrawn. Surrogate Ransom, in admitting the will to probate, remarked that the allegations of undue influence had not been sustained.

Burned to Death. CINCINNATI, March 9.—Nicholas Vincent, aged 40, was found today in his cobbler's shop fatally burned. He died on the way to the hospital. It is supposed he upset a lighted lamp while in his bed asleep.

Miners Resume Work. PITTSBURG, March 9.—Six thousand miners in the Monongahela valley resumed work this morning at the increased rate wages conceded.

Two of the Injured Ones Die. JACKSONVILLE, Ill., March 9.—Two of the passengers injured in the Jackson Southeastern wreck yesterday, near Havana, have since died.

Knowledge and Instinct. James Hogg, a Scotch poet known as the Ettrick Shepherd, was a close observer of life under many different forms and conditions. A conversation with a fellow shepherd upon the habits of the salmon is reported, in which shrewd native reasoning is shown. It brings out the Scotch love of metaphysics.

Shepherd—I maintain that ilka saumon comes aye back again frae the sea till spawn in its ain water. Friend—Toots, toots, Jamie! Hoo can it manage till do that? Hoo, in the name o' wonder, can a fish, travelling up a turbid water frae the sea, know when it reaches the entrance to its birthplace, or that it has arrived at the tributary that was its cradle?

Shepherd—Man, the great wonder to me is no hoo the fish get back, but hoo they find their way till the sea first aye, aye, that they've never been there afore!—Youth's Companion.

Sending Letters by Wire. What is termed telegraph, or the conveyance of parcels by electricity along lines of wires placed overhead, is little known in this country beyond the stage of experiment. We have little real need of this device to assist commercial business. In South America, however, telegraph schemes appear to be propitious to the speculator, and a line has been constructed 186 miles long, which places Buenos Ayres and Montevideo in communication. Across the La Plata there is a swing for the wires of nineteen miles, and the initial start for this journey is afforded by two towers 870 feet in height. It is intended to dispatch letter boxes between the two cities at intervals of two hours.—New York Journal.

Pine Tree Soap. An American inventor has brought out a process for making soap from the resinous matter in the needles of the pine tree. The resin is extracted by means of alkali, and the woody fiber is removed from the product, which on addition of fat yields an ordinary soap containing resinous and fatty acids.—New York Journal.

Returned. Uncle Sawback (entering lamp store)—Thar, I've brung this instrument back. Dealer—What's the matter with it? Uncle Sawback—You said it was a planer lamp, but Sairy Ann can't git a bliam note out of it nohow.—Hartford Euzar.
