THE GOVERNOR AND THE WAGON ROADS.

The press of the state is very much divided on the question of the governor's veto of the wagon road bills. We notice that the bed rock democratic papers generally stand in with the governor, but not always, and geographical location has more to do with opinions on this question than political partisanship.

An appropriation was asked for another road, partly in this county and partly in Gilliam. It is over a long stretch of country between two important points, where immense freights of wool and hides and supplies require to be transported.

But this is not the worst of it. When this state was admitted into the Union the general government made a donation to the new state of \$500,000 for "roads" and other internal improvements.

Two years ago Governor Pennoyer allowed a lot of wagon road bills to become a law. If it was right for him to do so then it would have been equally so now.

To allow the wagon road bills to become a law, would be "looting" the treasury, the governor says, but it was the correct thing for this same governor to approve a bill for an appropriation of over \$90,000 for improving the capitol building, the greatest portion of which is to be spent in a dome, which is no more than a useless and expensive ornament.

Twenty men are at present employed at the shops where there were 450 this time two years ago.

Is Disease a Punishment.

The following advertisement, published by a prominent western patent medicine house would indicate that they regard disease as a punishment for sin:

"Do you wish to know the quickest way to cure a severe cold? We will tell you. To cure a cold quickly, it must be treated before the cold has become settled in the system. This can always be done if you choose to, as nature in her kindness to man gives timely warning and plainly tells you in nature's way, that as a punishment for some indiscretion, you are to be afflicted with a cold unless you choose to ward it off by prompt action."

Common Sense About the Cigarette. A tobacco dealer says: There has been a great deal said about the harmfulness of cigarettes, and certainly they are injurious to young boys or to men if smoked in excess; but most of those who attack the cigarette habit have very little idea of what they are talking about.

Why People Bite Their Lips. If you surprise the father of a family stretched out at full length and trying till he is red in the face to raise his legs without lifting his body, you may know he is endeavoring to work off his superabundance of avoirdupois, which interferes seriously with his cutting a graceful figure in the waltz, which his better half insists on dancing every chance she gets.

A Rare New Zealand Bird. Dr. Fristed has brought a most interesting and valuable collection of birds, etc., from Australia, where he had many an adventurous outing, and from where he proceeded to New Zealand. There he succeeded in obtaining a specimen of the quaint and almost extinct kiwi bird.

He also succeeded in bringing home some Maori skulls, which are difficult to obtain on account of the manner in which the natives bury their dead. When the bodies have been so long in the ground that all the flesh has fallen from the skeleton they unearth them and carry them into the interior of the forests, where they are deposited in natural caves, which are very difficult to find.

THE DALLES.

The Gate City of the Inland Empire is situated at the head of navigation on the Middle Columbia, and is a thriving, prosperous city.

ITS TERRITORY. It is the supply city for an extensive and rich agricultural and grazing country, its trade reaching as far south as Summer Lake, a distance of over two hundred miles.

THE LARGEST WOOL MARKET. The rich grazing country along the eastern slope of the Cascades furnishes pasture for thousands of sheep, the wool from which finds market here.

The Dalles is the largest original wool shipping point in America, about 5,000,000 pounds being shipped this year.

THE VINEYARD OF OREGON. The country near The Dalles produces splendid crops of cereals, and its fruits cannot be excelled. It is the vineyard of Oregon, its grapes equalling California's best, and its other fruits, apples, pears, prunes, cherries etc., are unsurpassed.

ITS PRODUCTS. The salmon fisheries are the finest on the Columbia, yielding this year a revenue of \$1,500,000 which can and will be more than doubled in the near future.

The products of the beautiful Klickital valley find market here, and the country south and east has this year filled the warehouses, and all available storage places to overflowing with their products.

ITS WEALTH. It is the richest city of its size on the coast, and its money is scattered over and is being used to develop more farming country than is tributary to any other city in Eastern Oregon.

Its situation is unsurpassed! Its climate delightful! Its possibilities incalculable! Its resources unlimited! And on these corner stones she stands.
