PRESIDENTIAL CHOICE.

Letters From a Score of Senators on the Subject.

WASHINGTON, March 11.—The Philadelphia Press publishes letters from a score of senators as to the preference of their states for president, in both parties.

"In reply to your question with regard to the preference of political parties in Oregon to the presidential nomination for 1892, I would say that Secretary Blaine has been for many years a favorite candidate upon the Pacific coast.

"If he were to be a candidate for the presidential nomination in 1892 I have little doubt that a majority of the republicans in the state I represent would very strongly favor his nomination." Governor D. B. Hill of New York has some warm admirers among the democrats in the state of Oregon, but now that he is wholly out of the presidential race by his acceptance of the United States senatorship from New York, I think from all the expressions I have heard in regard to the matter from the democrats of my state, that at present a majority of the democratic party would favor the nomination of ex-President Cleveland.

REVOLVERS IN SIGHT.

The policemen of Savannah carry revolvers strapped to their belts in plain sight. They are armed with short clubs as well. They cannot unlimber their shooting irons any quicker than a New York policeman, who usually carries his in his hip pocket, can do it; but with most of the offenders the sight of a weapon in itself has a salutary effect on many of them.—New York Sun.

THE ALASKAN TURKISH BATH.

The Alaskans, as a rule, are not particularly fond of bathing, but some of them like occasionally to indulge in a sort of Turkish bath of a primitive character. For this purpose a number of long sticks are driven into the ground in a circle four feet in diameter, being thereupon drawn together and tied at a point six feet from the bottom.

REPORTED MUMMY A STONE IMAGE.

EUGENE, Or., March 14.—The stone image of a man or mummy which was found and brought here yesterday is now said to have been found here, but brought in here and taken to the spot for the purpose of being found. It is now said that the image was hauled by an expressman from the Southern Pacific depot to the bank of the river, where the skiff was left preparatory to starting down the river. Experts pronounced it an image carved from stone. But its resemblance of a corpse is so striking as to cause much interest.

HAVE NOT SENT AN IRON-CLAD.

Italy Relies on the Good Sense of the American Authorities—Comments.

ROME, Italy, March 16.—Papolo Romano, referring to the New Orleans tragedy says: "Relying on the foresight of the American authorities and out of regard for the sincerely friendly power, Italy has refrained from sending an iron-clad to the mouth of the Mississippi river." "The Don Chisciotte della mancia remarked: "Italy ought to demand that measures be taken to protect the Italian colony in New Orleans," adding however "its just also to recognize the fact that a similar incident would not occur if towns on the Atlantic shore were not infested with many of the ex-galley slaves of Europe."

THE BEST COUGH MEDICINE.

"One of my customers came in today and asked me for the best cough medicine I had," says Lew Young, a prominent druggist of Newman Grove, Neb. I have sold four dozen of it within the last sixty days, and do not know of a single case where it failed to give the most perfect satisfaction." 50 cent bottles for sale by Snipes & Kinersly, druggists.

A SUPREME COURT JUSTICE'S SUDDEN DEATH.

NEW YORK, March 16.—Judge John R. Brady of the supreme court died this morning from a stroke of paralysis.

ALLMENTS OF HORSES.

Almost any liveryman is, in his way, a horse doctor. He practices on his own stock, and will prescribe simple remedies for a sick horse that is brought to him, but in any case he deems serious will always advise calling in a regular veterinary surgeon rather than to undertake the treatment himself. All sorts of surgical operations are undertaken for the relief of horses, and there are one or two men in the city who are specially skilled in the treatment of diseased teeth. Horses have the toothache just like men do and from the same causes, and pulling a tooth is now a common thing in veterinary surgery. Of course the horse kicks, for his teeth have long and strong roots, but the operation frequently saves the life of a valuable animal.—Interview in St. Louis Globe-Democrat.

AMONG THE LATEST ATTEMPTED SOLUTIONS OF THE CHEAP FUEL PROBLEM IS THE METHOD OF A GERMAN INVENTOR, WHO PROPOSES TO MANUFACTURE GAS BY DROPPING A STREAM OF CRUDE PETROLEUM THROUGH A BLAST OF COLD AIR FROM A FORCE PUMP.

The gas thus obtained will be confined in a regular cylinder open at one end, where it will be lighted. This produces an intensely hot flame of several feet in length. By means of this flame the inventor proposes to heat boilers, and he maintains that the heating of large blocks can thus be reduced very considerably.—New York Telegram.
