Director of the Mint Leach Says the United States Law on Gold Bar Shipments is Now Operative.

Comptroller of the Treasury Orders a Bank Closed in Philadelphia---Gompers Wants Punds.

**DIRECTOR LEECH'S VIEWS.**

**The United States Must Stand on its Dignity on the Gold Bar Question.**

NEW YORK, March 20.—Director of the mint, Leech, was interviewed today regarding the policy of the mint in refusing to exchange gold bars for gold. He said: "It is undesirable and against public policy for the government to furnish gold in its most convenient form at a sea board port to shippers of gold, and we propose to exercise the same discrimination that has been exercised by European countries. In regard to the export of gold, this policy is exercised now not because of any change in the monetary situation in the United States, not because there is any deficiency in the gold supply, or of any distrust there may be in regard to the demand for gold, but solely bec use the law is now for the first time operative which permits us to exercise this discretion.

**THE GOLD BARS MUST GO.**

**All Available Coin Taken and Government Asked to Allow Gold Bars Shipped.**

NEW YORK, March 20.—Heidelbach, Ickleheimar & Co. have taken $525,000 in gold coin on the sub-treasury for a shipment to Berlin. This makes the total taken and requested $1,350,000.

Supt Mason of the assayer's office will telegraph a request for gold bars to Washington, an answer is not expected until after banking hours. It will be difficult to take the bars aud get them to the steamer in the short time between the beginning of business and the hour for sailing tomorrow.

**THE RESERVE TOO SMALL.**

**A National Bank Closed by Government Orders.**

PHILADELPHIA, March 20.—The Keystone National bank closed its doors this morning by order of the comptroller of the currency. Its largest depositor is the city of Philadelphia, which has about $400,000 in it. The authorized capital is $500,000. A surplus of $200,000 is claimed.

No statement of the bank's liabilities and assets is attainable. It is said that the bank was closed by the comptroller by reason of its reserve fund having fallen below the amount reqnired by the national banking law. The bank has deposits amounting to about $1,400,000 and it is claimed it has assets sufficient to meet this amount.

It is thought that depositers will get their money in full. No one will lose a dollar except the stockholders.

**A WYOMING SENATOR TALKS.**

**The Present Silver Law is Correct and Should Have a Fair Trial.**

WASHINGTON, March 20.—Senator Carey, of Wyoming, in an interview today said: "The so-called free coinage craze in the west has been largely exaggerated. The great mass of the clear headed and conservative element are in favor of giving the present law a thorough trial, believing that it will fully meet the business requirements of the country. Though full of western business, we believe in sound money as much as our brothers in the east, only the west believes in a larger circulating medium." The senator thinks that President Harrison will be renominated.

**After the Boulangists.**

PARIS, March 20.—The police raided and searched the houses of a number of Boulangists. They also made several arrests. Many revolutionary documents were seized by the police and will be used in evidence at the trial of the men in custody.

**DESCRIPTION OF THE VESSELS.**

**The Utopia, Anson and Rodney All Fine Ships.**

NEW YORK, March 18.—The Utopia, which was wrecked in Gibraltar nay, belonged to the Anchor Line Steamship Company, and was an iron screw steamer of 2731 tons displacement and 1678 horse-power. She was built in Glasgow, Scotland in 1874, and was commanded by Captain Mitchell. The Rodney, which sank her, is one of the recent additions to the British navy, and is considered one of the most powerful ironclads afloat. She is of 9600 tons displacement, twin screws, 7500 horsepower and mounts ten heavy guns, four of which are sixty-three-ton guns, her armor is steel-faced and has a thickness from ten to eighteen inches. She belongs to the same class as the Benbow, Anson and Howe. The Anson, which was in collision with the Utopia, is a sister ship to the Rodney, the only difference being that the Anson is 10,000 tons displacement instead of 9600 tons.

The Utopia was not insured. The cargo was valued at $2000, and the steamship Assyria, of the Anchor line, which was at Geneva at the time of the accident, has been ordered to Gibraltar.

By this delay the Utopia's passengers will not arrive here until after the new law ("that no immigrant without effects shall be permitted to land") goes into effect. Colonel Weber said today that the survivors ot the Utopia would probably be examined in Gibraltar, and the destitute and sick and crippled be left behind, only those with baggage and able to take care of themselves being brought. He had notified the Anchor line people to do this to avoid trouble later on.

**SNELL FAMILY'S TRIALS.**

**Alleged Poisoning of the Murdered Banker's Daughter-in-law.**

CHICAGO, March 18.—A new chapter in the troubles of the Snell family was unfolded today, which bids fair to have sensational developments. A few days ago Hattie Juerst, a nurse-girl employed in the family of Albert J. Snell, son of the murdered millionaire, was arrested, charged with larceny. Now comes the story that larceny was only a part of the charge. For several weeks Mrs. Snell's health has been failing rapidly. Finally it was noticed that a tonic she was taking was having a decidedly bad effect. One day she found fn the bottle a white sediment, which the doctors said was not a part of the tonic. Then wine was substituted, but the same bad effects followed, and the doctor told Snell his wife was being poisoned. An examination disclosed the presence in the wine of the same powder found in the tonic. Detectives were employed and Hattie Juerst's arrest was soon followed. In her trunk was found three hundred dollars worth of Mrs. Snell's property, and a vial of white powder, apparently identical with that found in the tonic and wine bottles. Both powders have been submitted to a chemist, and pending his report the attorney for the Snells refuses to talk further about the case.

**AGREED TO A COMPROMISE.**

**A Prominent Actress Obtains Twenty-five Thousand Dollars.**

NEW YORK, March 18.—It was reported yesterday that Miss Lila Vane, leading actress of Charles Froham's "All the Comforts of a Home" company, had received $25,000 in compromise of the suit for breach of promise that she brought recently against a wealthy Buffalo man named King. He had fallen in love with her and left a will, it is said, giving the actress all his fortune. It was discovered that he was insane, and he went to Paris for treatment. He is now in an asylum in Buffalo. The actress agreed to waive the liberal provisions of the will, under certain conditions, and the $25,000 was paid over yesterday, so it was reported, and the actress' written acceptance obtained. Miss Vane declined last night to talk about the case, and would neither affirm nor deny it.

**RAILWAY EMPLOYES.**

**Union Pacific Trainmen Want More Pay for Their Labor.**

OMAHA, Neb., March 18.—The committee of trainmen from the Pacific division of the Union Pacific was in consultation with General Manager Clark all day. No settlement was reached. The men have presented a schedule for regulating the pay of the trainmen of the Pacific division, and ask it be adopted. The committee holds that living wages cannot be made under the present schedule. The men say that Mr. Clark does not seem disposed to grant them any concessions, and some of them are in favor of returning to their homes and resorting to other measures to accomplish their purposes.

**DETECTIVE O'MALLEY.**

**He Is Said to be now in Hiding in Chicago.**

CHICAGO, March 18.—Detective O'Malley, of New Orleans, is said to be in Chicago. He left New Orleans, and is reported to have been seen at the Grand Pacific hotel Monday night, in company with Seligman, foreman of the jury in the Hennessey case. There is a rumor current that O'Malley came here from Cincinnati, and is hiding with one of his friends, a prominent saloon keeper. The latter denies that he is here.

**Gladstone has a Narrow Escape.**

LONDON, March 18.—It has transpired that Gladstone, after his speech at Hastings yesterday, had a narrow escape from a serious accident. The coachman who was driving the carriage which took Gladstone to the railroad station, lost control of his horses. The horses were stopped with difficulty. The coachman was fined for drunkenness today, the charge against him having been preferred by politicians.

**THE EMBARGO RAISED.**

**American Cattle Can Now Be Landed at Hamburg.**

BERLIN, March 18.—Owing to the untiring efforts of Mr. Phelps, U. S. minisited here, Chancellor Von Caprivi has removed the embargo placed on American cattle that landed at Hamburg and it is likely that Phelps will be able to obtain the removal of restrictions placed upon the importation of American hogs. Already 300 American beeves have been landed at Hamburg as an experiment. Phelps, at a series of dinners which he has given at his residence here, has given his guests American beef, and has thus introduced its use in the families of many distinguished members of the fashionable circles of Berlin.

In turn Hamburg local officials are making costly permanent improvements in landing facilitied now at the disposal of importers of American cattle. The object of the Hamburg officials in making the improvements referred to is to encourage and develop trade in American cattle. Chancellor Von Caprivi is now considering the point made by Minister Phelps, who asks that American hogs be allowed to land in the same manner and under the same inspection as American cattle.

The interview with Secretary Rusk, of the United State department of agriculture, in which he is quoted as saying the United States does not ask, but demands the repeal of hog restriction, is largely quoted in the hostile press and may delay matters.

**BRIGANDAGE IN AMERICA.**

**A Prominent Detroit Citizen Captured and Held for Ransom.**

DETROIT, March 20.—Joseph Perrier, a wealthy citizen of this city, was called to his door last night by a stranger with a message puporting to come from a sick friend. Perrier entered a coupe with the messenger and drove away. Early this morning Perrier's nephew received a message from his uncle stating that he was held for ransom and asking for $30,000. The police are investigating.

**THEY WANT FUNDS.**

**President Gompers Asks for Money to Assist in the Coming Strike.**

BOSTON, March 20.—A call signed by Samuel Gompers, president of the American Federation of Labor Unions of America, which urges the necessary and immediate contribution of funds for the 150,000 coal miners whose struggle for eight hours per day is to begin May 1st, has been issued.

**The "Sandy" Olds Trial.**

HILLSBORO, Or., March 20.—"Sandy" Olds case was resumed this morning. Several witnesses for the defense testified similar to that addnced at previous trials. Court adjourned till one o'clock. The case will probably be given to the jury tonight.

**Missouri Makes a Handsome Appropriation.**

ST. LOUIS, March 20.—The legislature today passed a bill appropriating $150,000 for state exhibits at the World's Fair.

**Lincoln's Law Partner.**

SPRINGFIELD, Ill., March 18.—William H. Herndon, Abraham Lincoln's law partner, and author of the "Life of Lincoln," died today of la grippe at his residence near this city. He was 72 years of age. His youngest son, William, died six hours before from the same disease.

**Gone With his Friend's Money.**

ST. LOUIS, March 18.—James S. Ensor, notary public and attorney-at-law, and wellknown in business and social circles, has disappeared. It is said he has misappropriated some $8000 loaned to him by friends to whom he had promised, so goes the story, to return on their investment 10 per cent. a month.

**Englishmen Secure a Valuable Ranch.**

HANFORD, Cal., March 18.—The sale of the famous Laguna de Tache ranch of 49,000 acres, in Tulare county, to an English syndicate is reported for $1,000,000.

The following is told by an old sailor, and will be appreciated equally by those who love and those who loathe "the thing they call the sea:"

"Most allus makes more or less folks unwell, the motion does. We had two gents get aboard of us last trip. My grief, wasn't he done up though!

"'Tother wasn't a bit. There he sot, smokin', as calm as a kitten. He was a high up jedge.

"'Can I do anything for you?' says he.

"'Yes,' gasped the seasick one, 'I wish your honor would overrule this motion.'"
