

METEOROLOGICAL REPORT.

Table with 5 columns: Pacific Coast Time, Bar., Therm., Relative Hum., Direction of Wind, State of Weather. Data for March 26, 1891.

Maximum temperature, 53; minimum temperature, 35. Total precipitation from July up to date, 6.59; average precipitation from July to date, 12.13; average deficiency from July 1st to date, 5.45.

WEATHER PROBABILITIES.

RAIN THE DALLES, March 26, 1891. Weather forecast till 12 m., Friday: light rain; nearly stationary temperature.

The Chronicle is the Only Paper in The Dalles that Receives the Associated Press Dispatches.

LOCAL BREVITIES.

W. W. Henricks, the assessor of Sherman county is in the city.

A mixed car of hogs and cattle was shipped from the stock yards this morning.

Drivers Bros., of Wanic, have sold 50 head of cattle to W. H. Davis of Wapinitia.

Mr. Roberson is about to sell his household effects and remove to San Diego, California.

Max Bland is building a brick oven for heating wagon tires, for Pyette & Friend blacksmiths at the East End.

Jim Grey, of Wapinitia, and well known in this county, is reported to be very sick at his home near White river.

At the Wasco warehouse today they are offering 62 cents a bushel for wheat and 60 cents at the Z. F. Moody warehouse.

John Roth of Kingsley drove into town, this morning, about twenty head of beef cattle. They are at the stock yards.

In laying out county roads the county assessor, and not the county court, shall have the appointment of the surveyors to do the work.

We have just as good a country as there is on earth and some day the world will find it out and then you'll see a rush to these parts.

An American citizen of African descent is erecting a boot black stand next to Neilsen's store on Second and Washington streets. The structure is quite portentious.

Mr. Thompson is erecting a new store on Second and Madison streets near the Diamond roller mill. It will be a handsome structure when finished and will be used for a fancy goods store.

The CHRONICLE has stopped buying concentrated lye to wash its type with. It just drops a copy of the Times-Mountain in the jar and the lye is so strong as to need considerable reducing before being fit for use.

There are lots of good thing and good people in the world if we only try to find them. The man who is constantly finding fault with everything and everybody is either a fool or a knave, mostly both.

Just think of it, cabbage all the way from California on sale at the new store of Barnett & Rice, at three cents a pound. One would have thought the farmers around The Dalles should raise enough vegetables to at least supply the home market, but it seems they don't.

Kansas and Nebraska must be rapidly decreasing in population. Emigrants from these states are constantly arriving in this country. One has bought the Huott ranch on Eight Mile, who intends to improve it and utilize the water power; another has gone out today towards Dufur to find himself a home.

We have been requested by some active members of the fire department to call attention to the fact that the city ordinance provides that a fine of not less than five dollars nor more than fifty shall be imposed upon any person who knowingly rings out a false fire alarm. A word to the wise is sufficient.

A meeting of the Guitar Club was lately held at the house of Miss Rowland, when the leader Mr. C. W. Mason was presented with a handsome mandoline, by the members of the club, after which refreshments were served and the club separated after having enjoyed a very pleasant time.

David Graham is the agent for Wasco, Sherman and Crook counties for a work that ought to be in the hands of every laboring man who is able to read. Its title is "Ancient Lowly" being a history of the ancient working people. It has met with the highest endorsement of master workman Powderly, of the knights of labor, and is a work of immense interest and information.

We had the pleasure of meeting, last evening James Smith Esq. and wife, and Dr. Doran and wife, of Mt. Vernon, Iowa. The party have been out on a tramp for the past four months, coming to the coast by one of the Southern routes, and visiting through California and Oregon in a general way. The trip has been one of much enjoyment, and has revealed to them the vastness and wonderful Pacific Coast. Oregon has its merited praise, and on their return to their home, its wondrous resources will be made known to our Iowa friends.

Mrs. Dunham's Dreadful Loss.

The youngest child of the late C. E. Dunham died this morning. Mrs. Dunham is so much better that her complete recovery is anticipated. The news of her dreadful loss was gently broken to her this morning and she bore up under it better than was expected. The hearts of this community bleed for her. It seldom falls to the lot of a newspaper to chronicle anything more distressingly sad than that of this husband and child so suddenly snatched away while the mother was herself so low that she knew it not. May the God of the widow comfort her.

Funeral Notice.

A special communication of Wasco Lodge No. 15, A. F. & A. M. will be held at Masonic Hall in this city on Sunday, March 29th 1891 at 1 o'clock p. m. sharp, for the purpose of attending the funeral of our late brother Charles E. Dunham, which will take place from the Congregational Church at 2 o'clock. A full attendance of members and visiting brethren is specially requested. By order of the W. M. O. D. DOANE, Secretary.

Building and Loan Association To Be Organized.

Messrs. H. O. Harris and W. A. Stewart, general agents for the Northwest of the Columbia Building and Loan Association of Denver, arrived in the city Tuesday, for the purpose of organizing a local board in this city. The Columbia is organized upon the latest approved plan and is said by those who have taken pains to find out, to be one of the best associations of its kind in the United States. Such an organization is a benefit to any city where it is successfully maintained and we are glad to see our business men taking hold of it in earnest. A meeting of the stock-holders has been called at the county court room this evening at 7:30 o'clock for the purpose of organizing the local board and all who would like to understand the workings and benefits of a building and loan association are invited to be present and ask questions about anything they do not understand.

Emigrants Passing Through.

A small party of emigrants arrived at this city today bound for Spokane Falls. They come from Tacoma. They have two prairie schooners, two hacks, twelve to fourteen teams of horses and mules, fifteen railroad scrapers and a general outfit of bedding and household goods. They are disgusted with a country where it rains six to eight months in the year, where there is no work for their teams during the wet season and where hay is \$22 a ton. They assured us each of their horses and mules had eaten his head off during the past winter. They follow railroad contracting and similar work.

Milk Functions of the Cow.

Dr. A. H. Baker, of the Chicago Veterinary college recently said: "You can not expect a cow with a small sized udder to be a heavy milkster, or vice versa. The best results are obtained from those whose parents were of the best quality. You can breed a milkster just as certain as you can a trotter. It is reasonable that heat-producing food does not make milk. You must have water plenty, easy of access and reasonably pure. Nothing will dry up a cow like lack of water." He explained the effect of the act of milking on the animal economy. "The natural excitation caused by handling the udder is profitable," he said, "but the unnatural, from blows or abuse, is not. While holding up the milk no secretion goes on; the holding up is voluntary, as the cow has it under her control. Severe exposure to hot sun and to cold storms is an injury, as it dries up the cow. The oftener milk is drawn the larger the flow; a calf running with the cow sucks often, and the flow is increased, and the cow grows poor under it."

From a syndicate article on "Lazy Senators" that appeared last week in many eastern papers, the following regarding one of Oregon's representatives in the "upper house" is taken. Senator Mitchell is a very hard working man. He seldom listens to the debates, but reads them all as a means of saving time. He sits next to Senator Plumb and furnishes a marked contrast to him. Plumb is boisterously busy all the time, while Senator Mitchell sits quietly boning in, always reading or writing when at his desk. I have never seen Senator Mitchell in an idling attitude at his desk and he never stops, as many do, to chat with other senators. He appears to settle all questions for himself, and to live upon hard work.

Is Jay Gould going to try the same game out here that he has so successfully worked everywhere that he has got his fins in? It is reported now that he is going to throw up the O. R. & N. lease, the presumption being that he will wreck the company and gather it in at squeezed rates. He has a precedent in Henry Villard's action as to the Oregonian lease. The Astorian does not view such action with dismay. Any change would be good, and if the U. P. were to let go their present cinch on the Columbia river it would not cause much grief in this latitude.—Astorian.

From San Francisco comes the surprising information this year "The standard of Alaska salmon is to be raised to that of the Columbia river." This is important if true, but the alleged fact has not been generally found out. It will take a bigger "raise" than Alaska can accomplish to emulate the standard of quality of the Columbia river spring salmon.—Astorian.

Inasmuch as the net earnings of the U. P. Co. were nearly \$1,000,000 during the month of January it is strange it can't afford to improve its road-bed between here and The Dalles and add a few more locomotives to its rolling stock in this division. It is very evident this transportation pirate is "out for the stuff," no matter who suffers.—Welcome.

Mrs. J. Baldwin and sister, Miss Ida C. Fritz, are visiting friends in Portland.

President Carnot Decorated.

PARIS, March 26.—Baron Democenham, Russian ambassador, formally presented president Carnot with a grand cordon of the order of St. Andrew the imperial decoration which the czar by decree recently conferred upon the president of the French republic as a token it is supposed, of the conclusion of offensive and defensive alliance entered into between Russia and France.

The Great Strike Breaking Up.

PITTSBURG, March 26.—A break has occurred in the Connellsville coke strike by several large mines resuming work today. The resumption is at 10 per cent. reduction of wages.

Her Verse of Scripture.

At one of the teachers' institutes held a few days ago in Maine a rule was in force that whoever entered the morning session late should pause at the door and recite a passage of scripture, a quotation from some poet, or other expression of an idea for the edification of those present at the session. There was present at the session a plain little old maid ("unappropriated blessings," I believe they call them now,) who was continually saying and doing inappropriate things. It seemed to come natural to her. She was late one morning, was this "unappropriated blessing," and electrified those within by remarking saucily: "I love those that love me and those that seek me early shall find me."

Titled Siwash Married.

The Prince of Wales, eldest son of the late Duke of York, head chief of the Callam tribe of Indians, and Princess Bessie Jackson, of the royal house of Callam, were married here today. The ceremony was performed by Rev. Myron Eells, of the Skokomish reservation, in the office of Judge James G. Swan. The Prince of Wales brought over a fine lot of fish this morning from Snow bay, which he disposed of at such remunerative rates that he felt very happy at the marriage ceremony. Queen Victoria, mother of the groom, was expected to be present at the ceremony, but she was busy digging clams and could not attend.—Ex.

The Best Cough Medicine.

"One of my customers came in today and asked for the best cough medicine I had," says Lew Young, a prominent druggist of Newman Grove, Neb. "Of course I showed him Chamberlain's Cough Remedy and he did not ask to see any other. I have never yet sold a medicine that would loosen and relieve a severe cold so quickly as that does. I have sold four dozen of it within the last sixty days and do not know of a single case where it failed to give the most perfect satisfaction." Fifty cent bottles for sale by Snipes & Kinnersly, druggists.

FOR SALE.

A choice lot of brood mares; also a number of geldings and fillies by "Rockwood Jr.," "Planter," "Oregon Wilkes," and "Idaho Chief," same standard bred. Also three fine young stallions by "Rockwood Jr.," out of first class mares. For prices and terms call on or address either J. W. Condon, or J. H. Larsen, The Dalles, Oregon.

Merino Sheep for Sale.

I have a fine band of thorough bred Merino sheep consisting of 67 hucks, about 340 ewes and about 200 young lambs, which I will sell at a low price and upon easy terms. Address, D. M. FRENCH, The Dalles, Or.

Stock Strayed.

Three 3-year-old fillies—(2 sorrels and one bay.) two 2-year-olds (both bays) all branded 1 on the left shoulder. I will give \$5 apiece for the recovery of the same. J. W. ROGERS, Boyd, Or.

The American Market.

The best stand in the city will be offered for sale for the next ten days. Good chance for a live man to make money.

First and Last.

The increasing prevalence of the scientific spirit, with its passion for exact statement, makes it more and more necessary for men to say precisely what they mean and nothing else.

"What is your last name, my little man?" asked the new teacher. "Tommy," answered the boy. "Indeed! What is your full name?" "Tommy Jones." "Then Jones is your last name." "No, ma'am, excuse me. When I was born my name was Jones, and they didn't give me the other for more than a month."—Youth's Companion.

Bort.

A firm in this city imports large quantities of bort. "I did not know until a few weeks ago," said an official of the custom house, "what bort is. Bort is the small fragments removed from diamonds in cutting. When too small for jewelry it is used for powder. The sparkling powder is often sprinkled on the heads of society belles, and their hair sends forth sparks as from a thousand miniature diamonds. Edison uses a great deal of bort in the manufacture of phonographs."—New York World.

After the Faus.

Miss Neverpay—Why does paw look so glum, maw? Did the bank he keeps his money in fail? Mrs. Neverpay—Worse. The bank he is supposed to keep his money in didn't fail.—Good News.

An Electric Alarm Clock.

An ordinary clock is electrically connected with the call bell, which, when it once starts off, does not stop ringing until the circuit is broken. As this can only be accomplished by one's getting out of bed, the chances for the apparatus to accomplish its mission are excellent. A great advantage this invention possesses over the common alarm clock is that the alarm does not require any winding to set it, but is always ready to perform its work at the appointed hour.—Boston Transcript.

The rules of etiquette are not nonsense—they are to smooth the rough ways of life, of which there will be enough at best.

CHRONICLE SHORT STOPS.

Alfalfa seed for sale cheap at Joles Bros.

Haworth & Thurman have some elegant houses to rent.

You need not cough! Blakeley & Houghton will cure it for 50 cents. S. B.

For coughs and colds use 2379.

I am selling all my carpets at 35 cents per yard less than San Francisco prices to close them out. J. C. BALDWIN.

City Treasurer's Notice.

All City Warrants registered prior to July 6, 1889 are now due and payable. Interest ceases on and after date.

J. S. FISH, City Treas. February 7, 1891.

Notice to tax Payers.

All state and county taxes, become delinquent April 1st. Taxpayers are hereby requested to pay the same before that date in order to avoid going on the delinquent list. The county court has ordered the sale of all property in which the taxes have not been paid. Please call and settle before the time mentioned and save costs. D. L. CARZ, Sheriff of Wasco County.

Improve Your Poultry.

If you want chickens that will lay eggs the year round without having to pen them up to keep them from setting, get the pure bred Brown Leghorn. Mrs. D. J. Cooper on the bluff, near the academy, has the eggs for 75 cents per setting.

Notice.

Watson the Portland photographer has no artist making photographs at The Dalles. Parties represent themselves as working for him or having work finished at his gallery are frauds.

On Hand.

J. M. Huntington & Co. announce that they are prepared to make out the necessary papers for parties wishing to file on so called railroad land. Applicants should have their papers all ready before going to the land office so as to avoid the rush and save time. Their office is in Opera House Block next to main entrance.

New Addition.

For one week I will sell shade trees, elm, maple, ash and box elder, also surplus fruit trees at half price. J. A. VARNEY.
