My advice to workingmen is this: If you want power in this country; if you want to make yourself felt; if you do want to make yourself felt; if you do not want your children to wait long years before they have the bread on the table they ought to have; the leisure in their lives they ought to have; the op-portunities in life they ought to have; if you don't want to wait yourselves, write on your banner so that every political trimmer can read it, so that every political trimmer can read it. "We never forget." If you launch the arrow of sarcasm at labor, we never forget! If there is a division in congress and you throw your yote in the wrong scale we never forget! vote in the wrong scale we never forget! You may go down on your knees and say: "I am sorry I did the act!" And we will say: "It will avail you in heaven but this side of the grave—never!" So that a man in taking up the labor ques-tion will know he is dealing with a hair trigger pistol and will say: "I am to be true to justice and to man, otherwise I am a dead duck."—Wendell Phillips.
