MADDENED STRIKERS.

Form in Large Mobs and Attack and Destroy Valuable Property in the Coke Regions near Pittsburg.
Thomas H. Carter of Montana Is Appointed Commissioner of the General Land Office.

The Associated Press Reports are Sent Exclusively to the Chronicle at The Dalles.

THE GREAT STRIKE.

The Strikers Destroy Many Coke Ovens and Railroad Track.
PITTSBURG, March 30.—Nearly a thousand strikers attacked Frick's coke works at Moorewood at two o'clock this morning, and destroyed the coke oven and railway track. The mob broke in the windows of several houses. Several of the raiders have been arrested. Riots are also reported at Leissenring and Leith. A considerable property has been destroyed. There is great excitement throughout the coke country, and serious trouble is apprehended. The trouble assumed a new phase and now threaten to develop into a war between operators and labor organizations. Frick stated today as heretofore, that he has not antagonized labor, but in the future he did not propose to stand idly by and see his property destroyed.
Dispatches from Scottdale says there is rioting at large. A large number of the coke plant mob of 1500 infuriated strikers swept down on the Jintown plant today and routed the workmen assaulted several men and threatened the superintendent's life.
A bomb was set off at the west Leissenring mine and the men are notified not to go to work.
The Leith works near Uniontown were also raided and workmen put to flight. Labor leaders are trying to allay the excitement as other raids are feared. Frick coke company officials here have notified the sheriffs to increase their forces.

MRS. PHILLIPS
Will close out her entire stock of
Ladies' and Children's
Muslin Underwear
AT COST,

FIRST ANNUAL MEETING.
Notice to the Subscribers of The Dalles, Portland and Astoria Navigation Co.
THE FIRST ANNUAL MEETING of the subscribers to The Dalles, Portland and Astoria Navigation Company will be held at the rooms of the Board of Trade at Dalles City, Oregon, on Saturday, April 4th, 1891, at 2 o'clock p. m., for the purpose of electing officers for the ensuing year, and the transaction of such other business as may legitimately come before the meeting.
By Order of the Incorporators of said Company.

EVOLUTION OF MODERN ARMS.

A New Gun Experimented Upon Which Proves to be a Superior Weapon.
FARGO, N. D., March 28.—A new wire gun, invented by John Hamilton Brown, in this city, was tested today at Fort Wadsworth by navy and army officials. All present expressed themselves satisfied that the new gun was an improvement on others that have been produced in this country. The new invention is essentially a wire in an inner tube, made up of numerous steel segments, which is wound with steel wire at a tension of 276,000 pounds to the square inch. This so compresses the segments that no possible power or pressure will open the inner surface of the tube. In winding the wire a tension regulator is employed by means of which the tension at which the wire is wound is brought to one-tenth of an ounce of uniformity throughout the entire mass. Finally completed, the gun is bored out to receive the lining tube. This tube is only inserted to protect the cone. At the first discharge the gun was charged with two pounds and eight ounces of powder, the result of the pressure being 4500 pounds to the square inch. For the second test three pounds and an ounce of powder was used. Close calculation placed the pressure at 10,000 pounds to the square inch. This places the capacity of the Brown gun far above any of the big guns now in use.

HYPNOTISM ALLEGED.

A Murderer Said to Be Liable to Mesmeric Influence.
FARGO, N. D., March 28.—It is possible that the trial of Joseph Remington for the murder of J. T. Flett, may become one of the most famous in the United States. As the case at present stands it will be almost impossible to convince any jury of his innocence on the ground of insanity, or any of the common pleas. Hence, it is almost a settled fact that the defense will be on the same line as that in the trial of Gabrielle Bompard in Paris last year, where it was claimed, and so clearly proven a case of hypnotism, that her accomplice was sentenced to death and she received a term of imprisonment. The theory in Remington's case, it is understood, will be that he was hypnotized by the Minneapolis woman, whose name has been so frequently mentioned. Since the murder of Agent Flett competent authorities, who have visited Remington in jail with this theory in view, are of the opinion that he is so constituted as to be liable to mesmeric influence. Should this line of defense be adopted it will probably be the first of the kind in the United States.

Wholesale Arrest of Indians.

WILCOX, ARIZONA, March 30.—Nine prominent Apaches were arrested during the last forty-eight hours and placed in irons at San Carlos. Among the prisoners is old Chief Eskimizene, called "Skillmy" for short. The first five prisoners were arrested for the murder of a white man three ago, but Eskimizene and the other three were apprehended for giving help to "Tokio" the notorious renegade and murderer, who has thus far defied and eluded the authorities and for whose capture the government has expended thousands of dollars.

Japanese Laborers for Guatemala.

SAN FRANCISCO, March 28.—It was recently stated that Japanese were flocking away from their native island, and that California was receiving more than her share of them. Advice from Guatemala just received report a scarcity of laborers there and that an agent of the Guatemalan government had been sent to Japan to obtain 1500 Japanese to work on the coffee plantations.

The Supreme Court Decides on an Important Question.

WASHINGTON, March 30.—The supreme court today refused to grant application for a writ of habeas corpus in the somewhat celebrated murder case of Dick Duncan vs. McCall sheriff of Beepar Co. Texas in which it was sought to bring into question the validity of the entire penal code of the state of Texas.

Will Demand Higher Wages.

ST. LOUIS, March 30.—Journeymen carpenters and joiners here are preparing to make demands on their bosses for a forty cent per hour rate commencing May first.

Snow Storms in England.

LONDON, March 30.—A heavy snow storm is sweeping over the northern part of Great Britain. All horse car lines and railroads of Aberdeen are blocked.

Had a Fearful Fall.

PORTLAND, March 30.—John Lawensen employed on a four story frame building fell today a great distance and sustained serious injury.

ADDITIONAL LOCAL NEWS.

Mrs. E. N. Chandler is expected to arrive on the stage this evening to make her future residence in this city.
An immense amount of freight is now being handled at the freight depot and warehouses at the East End.
A freight team was being loaded today at the Wasco warehouse with supplies for the Baldwin Land and Live-Stock Company.
Maier & Benton have just received a fresh lot of California and Oregon butter which they offer at 55 and 60 cents a roll.
We regret to hear that Dave Burke, formerly an employe at the company's shops, and well known in this city, is dangerously ill at the home of Mr. P. Sinnott of Portland. The trouble is dropsy of the heart.
A passenger car left the track this morning between here and Celilo. The remainder of the train came on with little delay and the track was again clear for the west-bound passenger which arrived about two o'clock, crowded with emigrants for Portland and the sound.
Grand Rapids, Mich., leads the world in its percentage of divorces to marriages. This year the ratio was one to five and last year one to six. We always knew that the Valley City of Wolverines was booming, but this surprises us. This is a moral may of swelling the population, not yet adopted by Western cities.—Catholic Sentinel
The sheep-raising industry, with all its risks, has never before had such a promising future. But it is harder to go into it now, because of the high price of the animal. To procure a sufficient band would take a large sum but those who are in the business must be careful to stay in, for they have before them a rapid fortune by the certain increase of the price not only of the meat but also the wool of their animals.—Grant County News.

MADDER STRIKERS.

NEW YORK, March 28.—A new wire gun, invented by John Hamilton Brown, in this city, was tested today at Fort Wadsworth by navy and army officials. All present expressed themselves satisfied that the new gun was an improvement on others that have been produced in this country. The new invention is essentially a wire in an inner tube, made up of numerous steel segments, which is wound with steel wire at a tension of 276,000 pounds to the square inch. This so compresses the segments that no possible power or pressure will open the inner surface of the tube. In winding the wire a tension regulator is employed by means of which the tension at which the wire is wound is brought to one-tenth of an ounce of uniformity throughout the entire mass. Finally completed, the gun is bored out to receive the lining tube. This tube is only inserted to protect the cone. At the first discharge the gun was charged with two pounds and eight ounces of powder, the result of the pressure being 4500 pounds to the square inch. For the second test three pounds and an ounce of powder was used. Close calculation placed the pressure at 10,000 pounds to the square inch. This places the capacity of the Brown gun far above any of the big guns now in use.

THE NEW FOUNDLAND QUESTION.

The London Papers Denounce the Affair as a Paltry Lobster Row.
LONDON, March 28.—The New Foundland question grows hotter and hotter as each new controversialist enters the scene. Sir Charles Dilke's article in the Spectator supporting the claims of New Foundland and upholding the acts of the colonists has created a real sensation and raised a storm of opposition. The majority of the morning papers protest vigorously against it, as making too much of a minor issue, and needlessly weakening the government in its dealings with France. They denounce the whole affair as a paltry lobster row, and advise the government to pursue its course regardless of the claims and protests of the colonists. They want to know if Sir Charles is prepared to follow the consequences of his article and face a war with France? The Spectator calmly reviews the situation. It admits that the colonists have cause for anger. Suffering under a grievance of 200 years standing, the iron has entered their souls. England must do something to satisfy their just demands.

VICTIMS OF LA GRIPPE.

The Weekly Death-Roll of Chicago Will Show Nearly One Thousand Persons Dead.
CHICAGO, March 28.—The grippé appears to be on the increase in the city, being favored by the extremely disagreeable weather prevailing for some time past. The death-roll for the six days of this week ended tonight reached a total of 920, and the figures for the week will be higher than ever known in the history of Chicago. Last week the total was 809, and that was looked upon as abnormally large. All branches of business are inconvenienced by illness among the employes. The police and fire departments and street car lines also have many men laid up. By far the larger portion of deaths reported are due to pulmonary trouble, for the most part resulting from the grippé. Several physicians have died within a few days. This morning Dr. Charles T. Parks, a physician and surgeon widely known, and who for years has been prominently connected with medical colleges and hospitals here, died of the pneumonia following an attack of the grippé.

FATHER CRAFT SAYS WE WILL HAVE MORE INDIAN TROUBLES CAUSED BY AGENTS.

PROVIDENCE, R. I., March 30.—A letter dated Pine Ridge agency from Rev. Father Crafts, the Indian missionary who predicted the recent Indian troubles, earnestly points out the danger of more serious trouble unless the Indians are placed under control of the war department. He declares the Indians are being robbed and misused by the politicians under the present arrangement.

A LUCKY MONTANA MAN.

THOMAS H. CARTER IS APPOINTED COMMISSIONER IN PLACE OF GROFF.
WASHINGTON, March 30.—The president today appointed Thos. H. Carter, of Montana, Commissioner of the General Land Office vice Lewis A. Groff resigned.

HE IS NOW A GOOD INDIAN.

COLFAX, Wash., March 30.—"Hush Hush," a pawnee chief of the Snake river Indians died last night at his home on Snake river. A runner was sent this morning to call the tribe together to participate in the funeral.

THE BEAUTIFUL GERDAINE MARRIED.

LONDON, March 30.—Miss Geraldine Ulmar, an American actress until recent prima dona in "Lagigale" was married this morning to Ivan Carill a young Belgian musical composer at St. George's church.

WELL, WHAT IF SHE HADN'T?

DUBLIN, March 30.—Anna Parnell denies the statement that she has not spoken to Parnell since the latter was in the Kilmainham jail.

PORTLAND WHEAT MARKET.

PORTLAND, Or., March 30.—Wheat, milling, 1.30@1.45 per cental.
San Francisco Market.
SAN FRANCISCO, March 30.—Wheat, buyer season, 1.52%.

CHICAGO WHEAT MARKET.

CHICAGO, Ill., March 30.—Wheat, steady; cash, 1.02% @ 1.02%.

SNOW IN MARCH A PHENOMENON.

SAN FRANCISCO, March 28.—The crest of Mount Diablo, 3856 feet above the sea, was covered with snow this morning. This is a phenomenal occurrence.
