CHICAGO ELECTION.

Beautiful Weather Brings Out a Full Vote.

CHICAGO, April 7.—Election day opened without a cloud in the sky and the temperature pleasant though cool. The polls opened at 7 o'clock this morning and will close at 4 this afternoon.

At noon indications are that Chicago will poll the heaviest vote ever cast and will far exceed the number cast at last election.

There were numerous fights in the rougher wards increasing as the day progressed. In an altercation in the first ward this afternoon one man was shot and dangerously wounded.

The Post, a democratic organ, has come out with an editorial saying that Hempstead Washburn, republican, is in the lead.

This is a Bad Year for Foreigners.

BRADDOCK, Penn., April 7.—The eleven men seriously burned early this morning by an explosion of gas in the row of frame tenements were all Hungarians and married. Four will die, while others have a bare chance of living. The gas leaked from an unused pipe of the National gas company, and when it was ignited by a lighted match, it exploded, demolishing the building and injuring the occupants.

Famous Boat Bought By Germany's Emperor.

BERLIN, April 7.—The famous Scotch cutter Thistle, the well known boat which was defeated in the international race for America's cup at New York by the American yacht Volunteer has been purchased by Emperor William.

General Gibbon's Successor.

ST. PAUL, April 7.—It is announced at army headquarters here that the rumor naming Gen. Thomas P. Ruger as successor to Gen. Gibbon in command of the division of the Pacific was correct and that Gen. Ruger will proceed to San Francisco April 20th.

More Men Go to Work in the Coke Region.

MT. PLEASANT, April 7.—Fifty more men went to work this morning at Morewood, making a total number at the ovens of about one hundred. The first that went to work yesterday were followed by a number of others today.

Leprosy Being Eradicated.

OTTAWA, April 7.—The report of Dr. Smith, physician at Tracadia Lacaretto, shows that the leprosy with which a few settlements of fishermen in New Brunswick have been afflicted for the past half century is being slowly but surely eradicated.

NEW YORK, April 7.—The proceedings under indictment against the directors of the New York, New Haven and Hartford R. R. were stayed by Judge Barrett today pending the motion to change peace of trial from general sessions court to oyer and remainer.

The Republicans Carry Michigan.

DETROIT, April 7.—Returns from yesterday's election so far received indicate that the republicans have carried the state by about 5000 plurality. In municipal elections in the large cities the democrats have made large gains.

A Savings Bank Suspends.

STOCKBRIDGE, Mass., April 7.—The Stockbridge Savings bank has been placed in the hands of a receiver. It is thought that the loss to depositors will not reach more than twenty-five per cent.

THE BEHRING SEA DISPUTE.

Minister Phelps Has Done Much to Put the Matter in Proper Light.

NEW YORK, April 5.—Smalley, in his London dispatch, says: "Phelps' article in Harper's, on the Behring sea question has been copied in whole or in part in many English journals. It is a surprise to the British public, or so much of the British public as cares about seal fishing in the North Pacific. Hitherto they have been content to hold Blaine responsible for all the troubles in this quarter. They have been told by their own papers, and by some of those in New York, that Blaine took purely a political view, and that the sober opinion of America was opposed to him. They read with more or less satisfaction the cable abuse of the American statesman. Then suddenly they are confronted with Phelps. They know him as one of the ablest of American ministers who ever represented his country in England, as a lawyer of the first rank, and as a citizen of the highest character. They find him sustaining Blaine in every material point in his controversy with Salisbury. They are perplexed beyond measure. Phelps has done the less done a real service to his country by his very powerful and convincing statement of America against England.

THE PEACE OF EUROPE.

While it is not being threatened Troops are Preparing for War.

LONDON, April 7.—The advices received here from several principal capitals of Europe show that the political situation on the continent is regarded as serious by leading statesmen. Several significant moves have been made within the past few days. The action of the Russian authorities in doubling the strength of the Russian force in Volgnia, is greatly discussed.

THE LAND PURCHASE BILL.

Tenants Gradually Returning to Their Farms to Take Advantage of It.

LONDON, April 5.—It is stated that Smith Barry has notified the Tipperary agent, Mr. Townsend, to make liberal terms with the tenants returning to their farms. Tenants have been gradually coming back for the past four months, but the large body have held out until now, when they make a complete surrender, and practically throw themselves on the generosity of the landlord. This is the end of the Tipperary movement, which has cost many thousands of pounds to the Irish National League and its supporters in America and Australia. One reason for the surrender of the tenants at this time is their anxiety to take advantage of the Irish land purchase bill, which comes up this week, and will become a law, virtually without opposition, except on the part of Labourers and a few English radicals. Should the tenants not be in possession of their farms, they could not, of course, take advantage of the bill. It is said that both factions in parliament favor the measure.

A CHICAGO HOTEL EPISODE.

A Little Bit of Carelessness Which Might Have Resulted Disastrously.

CHICAGO, April 5.—Alvin Patton, a New York diamond merchant, who was stopping at the Palmer house, called Friday night for a box, which had contained \$10,000 worth of diamonds, and which he had deposited in the hotel safe that noon. Opening it he found it was empty. The diamonds were mostly a splendid necklace, and had been sent from New York to be shown to the wife of one of the prominent guests of the hotel. Mr. Patton showed them to her at noon in the parlor. They were supposed to have been placed afterwards in the safe to await the inspection of her husband. He was unable to examine them, however, until yesterday. After the box was found empty there was the liveliest time imaginable in the hotel. Walter Hungeate, the first floor bell boy, attempted to dust a piece of tissue paper from a lounge in the parlor this noon, and in doing so caused \$10,000 worth of diamonds to fall at his feet.

THE PRESIDENT'S NEW YACHT.

The Old Dispatch Has Outlived Her Usefulness and Will Be Succeeded by the Dolphin.

WASHINGTON, April 5.—The president is to have a new yacht. The old Dispatch has outlived her usefulness. She will be superseded by the dispatch boat Dolphin. The navy department issued an order yesterday, directing that the Dolphin be sent at once to Norfolk, where her cabin accommodations and other quarters will be changed, the better to adapt her for junketing purposes. The changes, however, need not be expensive. She was designed for this duty originally, but President Cleveland didn't take kindly to the proposition and she was put into active service. The Dolphin is a steel vessel of 1500 tons displacement, rigged with three masts and propelled by a single screw. She can steam fourteen knots an hour.

Fava Will Sail Saturday.

ROME, April 5.—It is announced that Baron Fava, the late Italian minister to the United States, will sail for home April 11.

Several of the Huns and Italians who were done to death by sheriff's deputies as they were trying to burn the plant of a coke establishment in Pennsylvania yesterday were not naturalized. It is too inconvenient to kill alien persons in this summary manner. Every vigilante committee and sheriff's posse should carry with it a federal court clerk, with a book of blank naturalization papers, and perform this ceremony before performing its duty.—Oregonian.

It is less dangerous to slip with the foot than with the tongue. Let this be remembered.

Parnell Secretly Married.

LONDON, April 7.—It is rumored today that the lady to whom it is alleged Parnell secretly married is a daughter of Mrs. O'Shea. The story finds but few believers.

The Great Showman Dying.

BUILDING, Conn., April 7.—A bulletin issued at 6 o'clock this morning said that Barnum was much worse and rapidly failing. He probably cannot last twenty-four hours.

Large Halibuts fall in San Francisco.

SAN FRANCISCO, April 7.—A driving hailstorm occurred here this afternoon. Many of the stones were larger than peas.

San Francisco Market.

SAN FRANCISCO, April 7.—Wheat, buyer '91, 1.57 1/2.

Dogs Have Deteriorated.

While the grander sort of dog has been morally degraded by being turned into a useless lackey, the breeds that have happened to suit the capricious and errant fancies of animal petters have undergone a still deeper deterioration. The sleek pug, for instance, on whom is often lavished such a wealth of feminine fondness, has long since become perfectly aware of his new function in the house. He knows he is the first pet, and he is perfectly happy in the fact. His mind seems untroubled by any recollection of a higher estate. He has lost the ancient desire of the species to be man's loyal servant. He may, perhaps, if you happen to call at the house and find him in exclusive possession of the drawing room, make a pretense of resisting your intrusion. But his Sybaritic habits are too much for him, and presently he sinks in voluptuous slumber on the softest of sofa cushions. These spoiled creatures learn to take the fondlings bestowed on them as a matter of course. They are wholly undemonstrative, and perhaps the most flattering thing that can be said of them is that, unlike their rival, the cat, they do not simulate a tenderness of which their heart is wholly destitute.—Cornhill Magazine.

An Experiment.

Miss Pinckney, the lady who is at the head of Margaret Winthrop hall, the home where a number of girls of the Cambridge school live, is working out an interesting experiment successfully, under the direction of Mr. Arthur Gilman. She is making a real home for girls away from home at school. A visit to Margaret Winthrop hall shows how completely the pleasant life of the home is kept separate from the pleasant life of the school.—New York Telegram.
