### THE CHICAGO ELECTION

The Election Commission Finds a Judge that Breaks Open Sealed Ballot Boxes.

The Italian Government Building More Cruisers--Report that our Minister has been Ordered from Rome.

CHICAGO, April 11.—The board of election commissioners met today for the purpose of taking up the canvass of votes cast at the city election Tuesday. The board proceeded to hear evidence in the matter of the alleged misconduct of Dennis Sheehan one of the democratic judges of election. Harris, one of the republican judges, testified to Sheehan breaking into the box after it had been locked and sealed. Sheehan testified that the whole trouble arose from the fact of wanting to run things to suit himself and did not propose to let democratic judges have any voice in the matter. He admitted that he broke the box with a hammer but he said it was with no intention of fraud. The investigation was then laid over until after the completion of the canvass. In the meantime Sheehan was released on bail. The board then turned its attention to the canvass of votes, after going over the first ward subject to revision of certain precincts, which was objected to, the board adjourned until Monday morning. The result in this was as canvassed showed a loss of twenty by Cregier, of five by Washburn, and two by Harrison.

IN THE COKE REGION. The Convention Still in Session--1000 Men Want to Go to Work. Mt. PLEASANT, April 11.—Much uneasiness prevails among the cokers today. It was expected that yesterday's convention would settle the strike, but a resolution to continue the fight had a depressing effect. The convention is still in session and hopes are entertained that a compromise will be effected. The Eighteenth regiment left for home today leaving the Tenth regiment on duty. One thousand men are ready to return to work next week. The arrest of rioters is still going on. At least 200 informants are out and over 100 arrests made.

NOT GENERALLY BELIEVED. A Report that the Italian Government Has Ordered Our Minister Away. WASHINGTON, April 11.—It is impossible to secure any information that tends to confirm the report from Rome that the Italian government is about to give minister Porter his passports and sever diplomatic negotiations. Secretary Blaine declined to make any statement touching upon the matter. There is strong evidence tending to show that there is no warrant for such a threat on the part of the Italian government and that if it has been made it was by a misunderstanding undoubtedly at this juncture.

FOR EIGHT HOURS. The May Day Strike for Shortened Hours. PITTSBURG, April 11.—The proposed strike for the adoption of an eight hour day to be ordered three weeks hence is the chief topic of discussion in industrial circles. About 150,000 men will be affected. There are not that number of men engaged in mining coal, but that number will take part in the demands. It is threatened that the strike will more directly effect the states of Pennsylvania and Ohio.

MAY BE TROUBLE. Fears are Expressed that the Apaches May Go on the Warpath. SANTA FE, N. M., April 11.—A New Mexican is in receipt of the news from Southwestern Arizona that the White Mountain Apaches are very uneasy. It is feared they will go on the war path. They are having much trouble between themselves.

New Constitution for New South Wales. SYDNEY, N. S. W., April 11.—The Australian federation convention resolved the draft of a new constitution which it has been considering and which is to be submitted to the convention in each colony and if approved the imperial government will be asked to take steps for its establishment.

### FOR AN EIGHT-HOUR DAY.

The Miners and Operators Fail to Agree.

PITTSBURG, April 9.—The interstate convention of miners and operators came to an inharmonious end suddenly this evening. After a fierce battle of words and opinions, further talk was declared profitless, and an adjournment was taken sine die. This action means practically that the interstate agreement has been abolished, and the amicable and harmonious relations which have existed between the two classes for the past five years are broken off, and may not be resumed. It also means that 75,000 mine workers in the Ohio and Pennsylvania regions will stop work May 1, affecting 500,000 persons directly, and hundreds of thousands indirectly. As the mine workers of the country will also demand an eight hour day, the continuation of work after May 1, now seems almost impossible. Two of the great organizations—knights of labor and the federation of labor—are back of the men, and their money will be at their disposal. W. P. Rend, of Chicago, was the only one of the operatives favoring an eight hour day. The others said in substance they could not stand it; that the cost of production would be increased by it, etc. After the adjournment of the conference the miners held a meeting, and decided to demand an advance May 1, equivalent to 10 cents per ton on the basis of an eight hour day, falling in which a strike will follow.

THE RAILROADS BACK OF IT. Late tonight some of the leaders of the miners stated they were satisfied the railroads of the country were back of the operators in their fight against the eight hour movement, and that the fight would extend to the railroads also. The operators in a general way conceded that some western roads were supporting the fight against eight hours, but denied any concerted move.

A RUSSIAN EXPEDITION. Any Interference by Italy Will be Considered an Act of War. ST. PETERSBURG, April 6.—Russia will consider as an act of war any interference by Italy with the Russian expedition starting in three or four days for Abyssinia. Russia regards the Emperor Menelek as the independent sovereign of an independent nation, and will tolerate no obstruction in dealing directly with him. The expedition is under the command of Lieutenant Mashkoff, a very determined man, of approved courage and powerful physique. He is 33 years of age, and has served two years in the army of the Caucasus. The second in command is a monk named Tikhov. The expedition expects to be about two months on the journey. A substantial habitation will be erected there for use during the rainy season, and excursions will be made in various directions to gather scientific facts and make inquiries as to the condition and history of the people. The expedition will remain three years in the country, and make an attempt to reach the great lakes from a direction not yet attempted by Europeans. It is this part of the programme that excites English jealousy, and it is feared may lead to unhandied attempts to injure the expedition, or at least to defeat its objects. Lieutenant Mashkoff is confident, however, that with the friendship of Menelek, which he has every reason to expect, he will be able to resist any hostile attack.

FLORIDA'S SENATORSHIP. The President of the State Alliance Wants a Straight-Out Candidate. TALLAHASSEE, Fla., April 9.—The senatorial election is the publication of a letter from President Rogers, of the state alliance, in which he says he cannot support Dunn for United States senator "because he is a national banker," nor Call, "because he is not in sympathy with the demands of the national alliance." The letter appeals to all alliance legislators (who number fifty-five—a clear majority) to unite upon a straight-out alliance candidate. Over half the alliance legislators are supporters of Call, however. Call does not favor the sub-treasury bill, but is in sympathy with the alliance on the other demands.

THE SISTINE MADONNA. Mrs. Leland Stanford's Beautiful Present Arrives in San Francisco. SACRAMENTO, April 9.—The beautiful painting of the Sistine Madonna, the gift of Mrs. Leland Stanford to the Cathedral of the Blessed Sacrament, has arrived from Dresden, together with the frame and altar pieces. They weighed nearly 4000 pounds. They were taken to the cathedral this afternoon and unpacked under the direction of Artist Jackson. The figures in the painting are life size. The copy was made for Mrs. Stanford from the original by Raphael, through a special grant of the emperor of Austria, and is the work of an eminent artist of that country.

Objected to the Appraisal. NEW YORK, April 9.—Among the decisions handed down by the board of appraisers today was one in which John Wannamaker, of Philadelphia, objected to duties imposed on some dry goods. The firm claimed that the goods were not appraised at an actual market price as required, also that the disallowance of discounts was at variance with the treasury regulations and the ruling of the courts on the subject. The board held the proper course for the importer was to demand a reappraisal, not to appeal from the collector's decision by a pretext.

Its Mails are Assorted. NEW YORK, April 9.—The German steamer Havel arrived this morning with mail numbering 52,500 pieces already assorted and ready to be sent out by carriers. The mail was assorted on the way over by the ocean postal clerk, assisted by the German postoffice man. The Havel is the first steamer to bring mail under the recent postal agreements between this country and Germany.

### SHOT TO DEATH.

A Mob at Sealand, Washington, Kill the Murderers of the Frederickson Family.

The Grand Army Veterans will Punish the Italia Miscreants who Insulted the Old Flag.

ASTORIA, Or., April 11.—A special to the Astorian from Sealand, Washington, says that John Rose and John Edwards murderers of the Frederickson family over a year ago, were shot dead in their cells at 1 o'clock this morning by a mob who overpowered the jailer and broke in the doors.

WILL DEFEND THE OLD FLAG. Ulster County Veterans to Punish its Defamers.

KORDDOUT, N. Y., April 11.—Pratt Post G. A. R. today appointed a committee to investigate the recent Italian outrage at Le Severe Falls, where several Italians employed at a cement quarry hoisted the American flag and riddled it with bullets in retaliation of the New Orleans tragedy. Ulster county veterans are determined if possible to bring these men to justice.

HE WAS A BURGLAR. A City Editor's House Robbed in Order to Get Even.

INDIANAPOLIS, Ind., April 9.—Lemon Reinhold, ex-constable and attorney, was arrested this afternoon on charge of burglary. During the past month there have been numerous daring burglaries in this city. Last week several of a gang were arrested, and one confessed to the grand jury. He implicated Reinhold as the leader, saying the latter directed all the robberies. Several weeks ago Reinhold's wife committed suicide, and an account in a local paper reflecting on Reinhold's cruelty so angered him that he ordered the gang to attempt to burglarize the house of the city editor to get even.

ITALY MAY FIGHT YET. Construction Began on Four First Class Cruisers.

ROME, April 11.—Notwithstanding the enormous deficit in the Italian treasury the government has begun the construction of four first class cruisers, and the work will be pushed to completion with all possible expedition.

NOT A WHEEL TURNS. A Strike at Denver Stops all Railroad Traffic.

DENVER, April 11.—The switchmen of both passenger and freight trains of the Chicago Burlington & Quincy struck this morning at Lincoln and Omaha. Not a wheel is moving. The officials say they will fill the strikers places.

The Insurgents Meeting With Success in Chili.

IQUIQUI, April 11.—News has just been received here that Arica and Tacna have been captured by insurgents who now control all of Northern Chili, as far south as Copiapo. No fighting occurred, the government forces fleeing towards the frontier of Bolivia.

He Loved His Soldiers.

There are many pleasant reminiscences about the late Gen. Devens. One is a reminder of his sensitiveness and kind heartedness. After the battle of Antietam, in which he had displayed great bravery and ability, he rode up before the Fifteenth regiment, which had suffered great loss in this battle, and asked what the result had been. When told what loss it had suffered he broke down and openly shed tears as he sat in his saddle before his regiment. The furious battle was not yet over, the roar of cannon and the rattle of maniketry was still sounding, but the brave general cried before his men as he thought of his friends who had lost their lives.

His fatherly care and watchfulness over his men was well known. He took care to have as little loss of life as possible, and looked after their health very carefully. It is also well known that he was very liberal to the soldiers with his money. He constantly drew on his private bank account to alleviate the wants of soldiers in his company, and he also used to urge them to send their money home, and would take it from them and give them checks on the bank in return, which they could send home to their families. After the war he was equally benevolent to war veterans in distress, and many men have him to thank for aid in their troubles.—Worcester Gazette.

Franklin W. Smith, of Boston, is the projector of an ambitious scheme to build an immense temple of the arts at Washington. It is to cost \$5,000,000, and occupy 150 acres of ground. Mr. Smith has had the plans drawn, it is said, and hopes to raise enough money in the next five years to begin the work.

Hilt Brumer, a locomotive engineer, who was killed at Winchester, Ky., the other day, by the explosion of the boiler of his engine, had an unlucky record. It is said that while he was at the throttle his engine had figured in twenty-eight fatal accidents, although Brumer was in no sense culpable.
